

As we explore what 21st century learning can look like, the links offered here go deep and wide, and connect to many of the national dialogues going on.

Nettrekker is a subscription search engine geared to school communities. It can be accessed from the Middle School Library Webpage, on the left hand side, at “*Databases and Electronic Resources*”. In school there is no need for a username or password; outside of school you must create a username and password, but you still need to begin at the school Library page.

The screenshot shows the netTrekker website interface. At the top, there are navigation tabs for 'Elementary', 'Middle', and 'High' levels, with sub-tabs for 'All Learners', 'English Learners', and '21st Century Skills'. The '21st Century Skills' tab is highlighted with a red circle. Below the navigation is a search bar with a 'Keyword:' label and a 'Search' button. To the right of the search bar is an 'Advanced Search' link. Below the search bar are three icons representing 'Life Skills', 'Learning & Innovation', and 'ICT Literacy'. The main content area is titled 'What are 21st Century Skills?' and contains a paragraph of text. Below the text is a link 'Learn More About 21st Century' circled in red. At the bottom of the page, under the heading 'Sites: 21st Century Skills', there is a list of links, including '21 Tips for the 21st Century Classroom' and 'Metiri Group: What's So Different About the 21st Century?', both of which are circled in red. On the right side of the page, there are several sidebars: 'More Resources' with links to 'Hotmath.com', 'Weekly Reader Express', and 'Features' with links to 'Timeline', 'Famous Person', 'Image Search', 'References', and 'Teacher Tools'. Below these are 'My Tools' with links to 'Preferences', 'My Portfolio', 'Search History', 'Help', and 'Contact Us', and a 'Help Tips' section with 'News by State' and a note about 'Current Events'.
