## Health, Physical Education, and Family and Consumer Sciences

- Standard 1: Personal Health and Fitness
  Students will have the necessary knowledge and skills to
  establish and maintain physical fitness, participate in physical
  activity, and maintain personal health.
- Standard 2: A Safe and Healthy Environment
  Students will acquire the knowledge and ability necessary to create and maintain a safe and healthy environment.
- Standard 3: Resource Management
  Students will understand and be able to manage their personal and community resources.

## Mathematics, Science, and Technology

- Standard 1: Analysis, Inquiry, and Design
  Students will use mathematical analysis, scientific inquiry, and
  engineering design, as appropriate, to pose questions, seek
  answers, and develop solutions.
- Standard 2: Information Systems
  Students will access, generate, process, and transfer information using appropriate technologies.
- Standard 3: Mathematics
  Students will understand mathematics and become mathematically confident by communicating and reasoning mathematically, by applying mathematics in real-world settings, and by solving problems through the integrated study of number systems, geometry, algebra, data analysis, probability, and trigonometry.
- Standard 4: Science
  Students will understand and apply scientific concepts,
  principles, and theories pertaining to the physical setting and
  living environment and recognize the historical development of
  ideas in science.
- Standard 5: Technology
  Students will apply technological knowledge and skills to
  design, construct, use, and evaluate products and systems to
  satisfy human and environmental needs.
- Standard 6: Interconnectedness: Common Themes
  Students will understand the relationships and common themes that connect mathematics, science, and technology and apply the themes to these and other areas of learning.
- Standard 7: Interdisciplinary Problem Solving
  Students will apply the knowledge and thinking skills of
  mathematics, science, and technology to address real-life problems
  and make informed decisions.

#### English Language Arts

- Standard 1: Language for Information and Understanding
  Students will listen, speak, read, and write for information and
  understanding. As listeners and readers, students will collect
  data, facts, and ideas; discover relationships, concepts, and
  generalizations; and use knowledge generated from oral,
  written, and electronically produced texts. As speakers and
  writers, they will use oral and written language that follows
  the accepted conventions of the English language to acquire,
  interpret, apply, and transmit information.
- Standard 2: Language for Literary Response and Expression
  Students will read and listen to oral, written, and
  electronically produced texts and performances from American
  and world literature; relate texts and performances to
  their own lives; and develop an understanding of the diverse
  social, historical, and cultural dimensions the texts and
  performances represent. As speakers and writers, students will
  use oral and written language that follows the accepted
  conventions of the English language for self-expression and
  artistic creation.
- Standard 3: Language for Critical Analysis and Evaluation
  Students will listen, speak, read, and write for critical analysis
  and evaluation. As listeners and readers, students will analyze
  experiences, ideas, information, and issues presented by others
  using a variety of established criteria. As speakers and writers,
  they will use oral and written language that follows the
  accepted conventions of the English language to present, from a
  variety of perspectives, their opinions and judgments on
  experiences, ideas, information and issues.
- Standard 4: Language for Social Interaction
  Students will listen, speak, read, and write for social
  interaction. Students will use oral and written language that
  follows the accepted conventions of the English language for
  effective social communication with a wide variety of people. As
  readers and listeners, they will use the social communications
  of others to enrich their understanding of people and their
  views.

### Languages Other Than English

- Standard 1: Communication Skills
  Students will be able to use a language other than English for communication.
- Standard 2: Cultural Understanding
  Students will develop cross-tultural skills and understandings.

#### The Arts

- Standard 1: Creating, Performing, and Participating in the Arts
  Students will actively engage in the processes that constitute
  creation and performance in the arts (dance, music, theatre,
  and visual arts) and participate in various roles in the arts.
- Standard 2: Knowing and Using Arts Materials and Resources
  Students will be knowledgeable about and make use of the
  materials and resources available for participation in the arts
  in various roles.
- Standard 3: Responding to and Analyzing Works of Art
  Students will respond critically to a variety of works in the
  arts, connecting the individual work to other works and to
  other aspects of human endeavor and thought.
- Standard 4: Understanding the Cultural Contributions of the Arts Students will develop an understanding of the personal and cultural forces that shape artistic communication and how the arts in turn shape the diverse cultures of past and present society.

# Career Development and Occupational Studies

- Standard 1: Career Development
  Students will be knowledgeable about the world of work, explore
  career options, and relate personal skills, aptitudes, and abilities to
- future career decisions.

  Standard 2: Integrated Learning
  Students will demonstrate how academic knowledge and skills
- Students will demonstrate how academic knowledge and skills are applied in the workplace and other settings.

  Standard 3a: Universal Foundation Skills
- Standard 3a: Universal Foundation Skills

  Students will demonstrate mastery of the foundation skills and competencies essential for success in the workplace.
- Standard 3b: Career Majors
  Students who choose a career major will acquire the careerspecific technical knowledge/skills necessary to progress
  toward gainful employment, career advancement, and success
  in postsecondary programs.

#### Social Studies

Standard 1: History of the United States and New York
Students will use a variety of intellectual skills to demonstrate their understanding of major ideas, eras, themes, developments, and turning points in the history of the United States and New York.

Standard 2: World History
Students will use a variety of intellectual skills to demonstrate their understanding of major ideas, eras, themes, developments, and turning points in world history and examine the broad sweep of history from a variety of perspectives.

Standard 3: Geography
Students will use a variety of intellectual skills to demonstrate their understanding of the geography of the interdependent world in which we live—local, national, and global—including the distribution of people, places, and environments over the Earth's surface.

Standard 4: Economics
Students will use a variety of intellectual skills to demonstrate their understanding of how the United States and other societies develop economic systems and associated institutions to allocate scarce resources, how major decision-making units function in the United States and other national economies, and how an economy solves the scarcity problem through market and nonmarket mechanisms.

Standard 5: Civics, Citizenship, and Government
Students will use a variety of intellectual skills to
demonstrate their understanding of the necessity for
establishing governments; the governmental system of the
United States and other nations; the United States
Constitution; the basic civic values of American constitutional
democracy; and the roles, rights, and responsibilities of
citizenship, including avenues of participation.
