

Name _____

Date _____

Notes: Climate
The Water Cycle

Forms of precipitation include _____

Forms of condensation include _____

What will cause run off to occur?

What leads to greater evaporation of water?

During what time of year is potential evaporation and transpiration the greatest? _____

P/Ep ratio:

humid climate _____
semi-humid climate _____

semi-arid climate _____
arid climate _____

Ex:

Evaporation requires _____ cal/gm of water. This heat energy is later released during _____.
