TODAY'S ISOBAR MAP

Map Date_____ Local Map Time_____

- Draw the isobars for the current barometric pressures using an interval of 4mb.
(...992, 996, 1000, 1004, 1008...)
- Identify the location of low pressure centers with an L and high pressure centers with an H.
- Identify the locations that are experiencing stronger winds by shading them in a yellow.
- Identify the locations that are likely experiencing precipitation or clouds by shading them in blue.
- Use dark arrows to show the direction of at least 6 winds found in the United States
