#### INDEPENDENT AUDITORS' REPORT

To The Board of Education of the New Paltz Central School District New Paltz, New York

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the New Paltz Central School District, New York, as of and for the year ended June 30, 2020, which collectively comprise the District's basic financial statements as listed in the table of contents, and the notes to the financial statements.

#### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## **Auditors' Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence that we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Unmodified Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the New Paltz Central School District, New York, as of June 30, 2020, and the changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

#### **Other Matters**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information, on pages 4 through 10 and 52 through 57, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the New Paltz Central School District, New York's financial statements as a whole. The supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements. The supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The prior year summarized comparative information has been derived from the District's June 30, 2019 financial statements and, in our report dated September 20, 2019, we expressed an unmodified opinion on those financial statements.

# Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 13, 2020 on our consideration of the New Paltz Central School District, New York's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the New Paltz Central School District, New York's internal control over financial reporting and compliance.

#### MANAGEMENT DISCUSSION AND ANALYSIS

#### FOR THE FISCAL YEAR ENDED JUNE 30, 2020

This section of School District's annual financial report presents its discussion and analysis of the District's performance during the fiscal year ending June 30, 2020. The section is a summary of the School District's financial activities based on currently known facts, decisions, or conditions. It is also based on both the government-wide and fund-based financial statements. The results of the current year are discussed in comparison with the prior year, with an emphasis placed on the current year. This section is only an introduction. It should be read in conjunction with the School District's financial statements, which immediately follow this section.

#### **Financial Highlights**

- The District's financial reserves were utilized in 2019-2020 to fund unanticipated liabilities. However, as a result of the District's mandated shutdown in March 2020 due to the COVID-19 pandemic, fund balances increased from June 30, 2019. Details include:
  - o Increase in reserve for encumbrances from \$1,100,000 to \$1,545,000
  - o Increase of Appropriated Fund Balance from \$2,000,000 to \$2,200,000.
  - o Unappropriated fund balance near statutory limit of 4% (from \$1.848 M to \$2.519 M).
- The carryover encumbrances increased slightly from \$1.1 Million on June 30, 2019 to \$1.5 Million on June 30, 2020.
- After several years of losses due to new federal regulations and a resulting fund balance of essentially zero, the General Fund started (out of necessity) to support the Food Service program in 2013-2014. It should be noted that starting in 2014-15, all of the employee benefits attributable to the Food Service program were charged to the program. Many of these had been charged to the General Fund in the past.
  - Due to the statewide mandated school closures resulting from COVID-19 pandemic in March 2020, Food Service revenues discontinued, except for State and Federal reimbursements. Those subsidies are less than the cost of providing meals to students, resulting in a deficit balance much larger than usual. Additionally, school districts were mandated to continue to provide meals to students throughout the rest of the year. Consequently, revenues for the Food Service Program were \$980,000, which included \$388,000 of support from the General Fund, while expenses were \$1.080 Million.
- The District had one remaining bond outstanding which was paid off in 2018-2019. In March 2019, the School District issued a new \$50.0 Million bond, but due to a bond premium the amount to be repaid is down to \$47.45 Million. This will be paid off over 16 years.
  - \$700,000 from the Capital Reserve was used to offset a portion of the \$52.9 Million. Additionally, another \$900,000 was paid out of the general fund in 2017-2018 and an additional \$1.3 Million is was paid out of the 2018-2019 budget. The resulting amount to be borrowed was \$50.0 Million which is referenced above. The new debt payments will start in 2019-2020 and will align with retiring debt (mentioned above) from the previous bonds as well as remaining bond premium in the Debt Service Fund so there will be no increase on the tax levy in 2019-20, 2020-2021 or any future years due to the new bonds.
- The voters approved a \$52.9 Million bond referendum in March 2015. The project started in the 2014-2015 school year and is in the final stage at the time of this writing. This was financed through BANs during the years of construction and then the final cost was converted to a bond in 2019-20. The first \$15 Million in BANs was borrowed during the 2015-2016 school year. This was increased to \$30 Million in 2016-2017 and to \$45 Million in 2017-2018. \$47.45 Million in bonds were issued in March 2019.

#### **Overview of the Financial Statements**

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *District-wide financial statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in *more detail* than the District-wide statements.
- The *governmental funds statements* tell how basic services such as regular and special education were financed in the *short term* as well as what remains for future spending.
- <u>Fiduciary funds</u> statements provide information about the financial relationships in which the District acts solely as a *trustee* or *agent* for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year. Figure A-1 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

#### District-Wide Statements

The District-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's *net position* and how it has changed. Net position – the difference between the District's assets and liabilities – is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the District's overall health, you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities. In the Districtwide financial statements, the District's activities are Governmental activities. Most of the District's basic services are included here, such as regular and special education, transportation, and administration. Property taxes and state formula aid finance most of these activities.

#### **Fund Financial Statements**

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (such as a fund for scholarship monies) or to show that it is properly using certain revenues (such as federal grants).

#### The District has two kinds of funds:

- Governmental Funds: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the District-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or differences) between them.
- *Fiduciary funds:* The District is the trustee, or *fiduciary*, for assets that belong to others, such as the scholarship fund and the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong.

The District excludes these activities from the District-wide financial statements because it cannot use these assets to finance its operations.

# Financial Analysis of the District's Funds

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a General Fund balance of \$6.56 Million; a \$0.88 Million increase over last year's ending fund balance of \$5.68 Million.

#### **General Fund Budgetary Highlights**

The District's budget for the General Fund anticipated that revenues would be \$2 Million less than expenditures. The actual results for the year were showed that revenues exceeded expenditures by \$0.88 Million. This is due, in part, to the mandated closure of schools statewide in March 2020 in response to the COVID-19 pandemic.

- Actual revenues were \$62.46 Million, \$0.82 Million more than budgeted
- Actual expenditures were \$61.59 Million, \$1.9 Million less than the final budget,

#### **Long-Term Debt**

During the 2018-2019 school year the District paid off a final outstanding bond. The District issued a new \$47.45 Million bond during the 2018-19 school year. The total amount of long-term debt owed is reflected in Figure A-6

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the New Paltz Central School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

#### A. Financial Reporting Entity

The New Paltz Central School District is governed by the Education Law and other laws of the State of New York. The governing body is the Board of Education. The scope of activities included within the accompanying financial statements are those transactions which comprise School District operations, and are governed by, or significantly influenced by, the Board of Education.

Essentially, the primary function of the School District is to provide education for pupils. Services such as transportation of pupils, administration, finance, and plant maintenance support the primary function.

The financial reporting entity includes all funds, account groups, functions and organizations over which the School District officials exercise oversight responsibility. Oversight responsibility is determined on the basis of the financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters.

#### 1. Included in the Reporting Entity

Based on the foregoing criteria and the significant factors presented below, the following organizations, functions or activities are included in the reporting entity:

#### a. The Extraclassroom Activity Funds

The Extraclassroom Activity Funds of the New Paltz Central School District represent funds of the students of the School District. The Board of Education exercises general oversight of these funds. The Extraclassroom Activity Funds are independent of the School District with respect to its financial transactions, and the designation of student management. The cash balances are reported in the Agency Fund of the School District. Separate audited general purpose financial statements (cash basis) of the extraclassroom activity funds can be found at the School District's business office.

# NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### B. **Joint Venture**

The New Paltz Central School District is a component district in the Ulster County Board of Cooperative Educational Services (BOCES). A BOCES is a voluntary, cooperative association of School Districts in a geographic area that share planning, services, and programs which provide educational and support activities.

BOCES are organized under Section 1950 of the Education Law. A BOCES Board is considered a corporate body. All BOCES property is held by the BOCES Board as a corporation (Section 1950(6)). In addition, BOCES Boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under Section 119-n(a) of the General Municipal Law.

A BOCES budget is comprised of separate budgets for administrative, program and capital costs. Each component school district's share of administrative and capital costs is determined by resident public school district's enrollment as defined in Education Law Section 1950(4)(b)(7).

There is no authority or process by which a school district can terminate its status as a BOCES component. In addition, component School Districts pay tuition or a service fee for programs in which its students participate. Members of a BOCES Board are nominated and elected by their component member boards in accordance with provisions of Section 1950 of the Education Law. Separate audited financial statements can be obtained by contacting the BOCES' business office.

### C. Basis of Presentation

#### 1. District-wide statements:

The Statement of Net Position and the Statement of Activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, state aid, intergovernmental revenues, and other exchange and nonexchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants. The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function.

# NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Program revenues include charges paid by the recipients of goods or services offered by the programs, and grants and contributions that are restricted to meeting the operation or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

#### 2. Fund financial statements

The fund statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds each displayed in a separate column. The District reports the following major Governmental Funds:

#### a. General Fund

The General Fund is the principal operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund.

#### b. Special Revenue Fund

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts, or major capital projects) that are legally restricted to expenditure for specified purposes. Special revenue funds include the following funds:

- 1. Special Aid Fund used to account for special operating projects or programs supported in whole, or in part, with federal funds or state or local grants.
- 2. School Lunch Fund used to account for transactions of the School District lunch, breakfast, and milk programs.

#### c. Capital Projects Fund

The Capital Projects Fund is used to account for and report financial resources to be used for the acquisition, construction or renovation of major capital facilities or equipment.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### d. Debt Service Fund

The Debt Service Fund accounts for the accumulation of resources and the payment of principal and interest on long-term general obligation debt of governmental activities.

The District reports the following non-major governmental fund:

# a. Miscellaneous Special Revenue Fund

The Miscellaneous Special Revenue Fund is used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are restricted to expenditures for specified purposes.

Additionally, the District reports the following fund type:

#### a. Fiduciary Fund

This fund is used to account for fiduciary activities. Fiduciary activities are those in which the District acts as trustee or agent for resources that belong to others. These activities are not included in the District-wide financial statements because their resources do not belong to the District, and are not available to be used. There are two classes of fiduciary funds:

#### Private Purpose Trust Fund

These funds are used to account for trust arrangements in which principal and income benefit annual third party awards and scholarships for students. Established criteria govern the use of the funds and members of the District or representatives of the donors may serve on committees to determine who benefits.

#### Agency Fund

These funds are strictly custodial in nature and do not involve the measurement of results of operations. Assets are held by the District as agent for various student groups or extraclassroom activity funds and for payroll or employee withholding.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

# D. Basis of Accounting/Measurement Focus

The District-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place.

Non-exchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within one year after the end of the fiscal year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

# E. **Property Taxes**

#### 1. Calendar

Real property taxes are levied annually by the Board of Education no later than September 1<sup>st</sup>, and became a lien on September 1<sup>st</sup>. Taxes are collected during the period commencing September 1<sup>st</sup> and ending November 4<sup>th</sup>.

#### 2. Enforcement

Uncollected real property taxes are subsequently enforced by the County. An amount representing uncollected real property taxes transmitted to the County for enforcement is paid by the County to the School District no later than the forthcoming April 1<sup>st</sup>.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### F. Budgetary Procedures And Budgetary Accounting

# 1. <u>Budget Policies</u>

The budget policies are as follows:

a. The School District administration prepares a proposed budget for approval by the Board of Education for the following governmental fund types:

#### I. General Fund

- b. The proposed appropriation budget for the General Fund is approved by the voters within the District.
- c. Appropriations are adopted at the program level.
- d. Appropriations established by adoption of the budget constitute a limitation on expenditures and encumbrances which may be incurred. Appropriations lapse at the fiscal year end. Supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need which exists which was not determined at the time the budget was adopted. The District had no supplemental appropriations for the year ended June 30, 2020.

#### 2. Encumbrances

Encumbrances accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded for budgetary control purposes to reserve that portion of the applicable appropriations, is employed as a control in preventing over-expenditure of established appropriations. Open encumbrances do not constitute expenditures or liabilities and will be honored through budget appropriations in the subsequent year. Encumbrances are reported as assigned fund balance in the General Fund.

#### 3. Budget Basis of Accounting

Budgets are adopted annually on a basis consistent with generally accepted accounting principles. Appropriations authorized for the current year are increased by the amount of encumbrances carried forward from the prior year.

# NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

# G. Cash and Cash Equivalents

For financial statement purposes, the District considers all highly liquid investments of three months or less as cash equivalents.

# H. **Inventory**

Inventories of food and/or supplies in the School Lunch Fund are recorded at cost on a first-in, first-out basis or, in the case of surplus food, at stated value, which approximates market. Purchases of inventoriable items in other funds are recorded as expenditures at the time of purchase.

## I. Accounts Receivable

Accounts receivable are shown gross, with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since it is believed that such allowance would be immaterial.

# J. Capital Assets

The District has established a formal system of accounting for its capital assets. Purchased or constructed capital assets are reported at cost. Donated capital assets are valued at their acquisition value on the date received.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. The School District does not possess any infrastructure. The capitalization threshold used by the District is \$5,000.

All reported capital assets except for land and construction in progress are depreciated. Depreciation is computed using the straight-line method over the following estimated useful lives:

	ESTIMATED
ASSET CLASS	<b>USEFUL LIVES</b>
School Buildings	50
Site Improvements	20
Furniture & Equipment	5-20

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Fixed assets are not capitalized and related depreciation is not reported in the fund financial statements.

# K. <u>Unearned Revenue</u>

Unearned revenues arise when potential revenues do not meet both the measurable and available criteria for recognition in the current period. Unearned revenues also arise when sources are received by the School District before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both recognition criteria are met, or when the School District has legal claim to the resources, the liability for unearned revenues is removed and revenues are recognized.

#### L. <u>Vested Employee Benefits</u>

The District employees are granted vacation in varying amounts, based primarily on length of service and service position. Some earned benefits may be forfeited if not taken within varying time periods. Sick leave eligibility and accumulation is specified in negotiated labor contracts, and in individual employment contracts. Upon retirement, employees may receive a payment based on unused accumulated sick leave, based on contractual provisions.

Consistent with GASB Statement 16, Accounting for Compensated Absences, an accrual for accumulated sick leave is included in the compensated absences liability at year-end. The compensated absences liability is calculated on the pay rates in effect at year-end.

For the District-wide statements, the current portion is the amount estimated to be used in the following year, in accordance with GAAP. For the governmental funds, in the fund financial statements, all of the compensated absences are considered long-term and therefore, are not a fund liability and represents a reconciling item between the fund level and District-wide presentations.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

District employees participate in the New York State Employees' Retirement System and the New York State Teachers' Retirement System. In addition to providing pension benefits, the District provides health insurance coverage and survivor benefits for retired employees and their survivors. Substantially all of the District's employees may become eligible for these benefits if they reach retirement age while working for the District. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The cost of providing post-retirement benefits is shared between the District and the retired employee. The District recognizes the cost of providing health insurance in the fund financial statements by recording its share of insurance premiums as an expenditure in the year paid. In the District-wide statements, the liability is reported at actuarially calculated amounts (See Note 10).

## M. Interfund Activity

The amounts reported on the Statement of Net Position for due to and due from other funds represents amounts due between different fund types (governmental activities and fiduciary funds). Eliminations have been made for amounts due to and due from within the same fund type. A detailed description of the individual fund balances at year-end is provided subsequently in these Notes.

#### N. Equity Classifications

In the District-wide statements there are three classes of net position:

<u>Net investment in capital assets</u> – consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, construction or improvement of those assets.

<u>Restricted</u> – reports net position when constraints placed on the assets are either externally imposed by creditors (such as through debt covenants), grantors, contributors, laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

<u>Unrestricted</u> – reports all other net position that does not meet the definition of the above two classifications and is deemed to be available for general use by the District.

#### Order of Use of Net Position:

When an expense is incurred for which both restricted and unrestricted resources are available, the Board will assess the current financial condition of the District and determine which classification of net position will be charged.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In the fund basis statements there are five classifications of fund balance:

<u>Non-spendable</u> – includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. Non-spendable fund balance includes inventory recorded in the School Lunch Fund of \$52,264.

<u>Restricted</u> – includes amounts with constraints placed on the use of resources either externally imposed by creditors, grantors, contributors or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation. The District has established the following restricted fund balances:

#### **Unemployment Insurance**

Used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the employer has elected to use the benefit reimbursement method. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. This reserve is accounted for in the General Fund.

#### Repair

Used to pay the cost of repairs to capital improvements or equipment. The Board of Education may establish the reserve by majority vote. Voter approval is required to fund the reserve and expenditures may only be made after a public hearing. This reserve is accounted for in the General Fund.

#### Liability

Used to pay for liability claims incurred. This reserve may not in total exceed 3% of the annual budget or \$15,000, whichever is greater. This type of reserve fund may be utilized only by school districts with a population under 125,000.

#### Workers' Compensation

Used to pay for compensation benefits and other expenses authorized by Article 2 of the Workers' Compensation Law, and for payment of expenses of administering this self-insurance program. This reserve may be established by Board action, and is funded by budgetary appropriations and such other funds as may be legally appropriated. This reserve is accounting for in the General Fund.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Capital Projects

Proceeds of debt that are restricted for use per the specifics of the debt issue. This reserve is accounted for in the Capital Projects Fund.

<u>Committed</u> – includes amounts that can only be used for a specific purpose pursuant to constraints imposed by formal action of the District's highest level of decision making authority before the end of the fiscal year, and requires the same level of formal action to remove the constraint. The Board of Education is the decision making authority that can, by resolution prior to the end of the fiscal year, commit fund balance. The District has no committed fund balances as of June 30, 2020.

<u>Assigned</u> – includes amounts that are subject to a purpose constraint that represents an intended use established by the government's highest level of decision making authority, or by their designated official. The purpose of the assignment must be narrower than the purpose of the General Fund, and in funds other than the General Fund, assigned fund balance represents the residual amount of fund balance. Assigned fund balance generally includes encumbrances in the General Fund and appropriated fund balance.

The Board of Education is the decision making authority that can, by resolution, assign fund balance. The District reported encumbrances of \$1,544,528 as assigned fund balance in the General Fund as of June 30, 2020.

<u>Unassigned</u> – represents the residual classification for the General Fund, and could report a surplus or deficit. In funds other than the General Fund, the unassigned classification should be used only to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed or assigned.

NYS Real Property Tax Law 1318 limits the amount of unexpended surplus funds a school district can retain to no more than 4% of the district's General Fund budget for the ensuing fiscal year. Non-spendable and restricted fund balance of the General Fund are excluded from the 4% limitation. Amounts appropriated for the subsequent year and encumbrances are also excluded from the 4% limitation.

#### Order of Use of Fund Balance:

When resources are available from multiple fund balance classifications, the Board will assess the current financial condition of the District and then determine the order of application of expenditures to which fund balance classification will be charged.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

# O. <u>Use of Estimates</u>

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

# P. <u>New Accounting Standards</u>

The District has adopted all current Statements of the Governmental Accounting Standards Board (GASB) that are applicable. At June 30, 2020, the District implemented the following new standards issued by GASB:

GASB 95 – Postponement of the Effective Dates of Certain Authoritative Guidance.

# Q. Future Accounting Standards

The Governmental Accounting Standards Board (GASB) has issued the following standards that will become effective in future fiscal years:

- GASB 84 Fiduciary Activities, effective for the year ending June 30, 2021.
- GASB 87 *Leases*, effective for the year ending June 30, 2022.
- GASB 89 Accounting for Interest Cost Incurred Before the End of a Construction *Period*, effective for the year ending June 30, 2022.
- GASB 90 Majority Equity Interests An Amendment of GASB Statements No. 14 and No. 61, effective for the year ending June 30, 2021.
- GASB 91 Conduit Debt Obligations, effective for the year ending June 30, 2023.
- GASB 92 *Omnibus*, effective for the year ending June 30, 2022.

The District will evaluate the impact of each of these pronouncements may have on its financial statements and will implement them as applicable and when material.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### R. Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government has three items that qualify for reporting in this category. The first item is related to pensions reported in the district-wide Statement of Net Position. This represents the effect of the net change in the District's proportion of the collective net pension asset or liability and difference during the measurement period between the District's contributions and its proportionate share of total contributions to the pension systems not included in pension expense. The second item is the District contributions to the pension systems (TRS and ERS Systems) and OPEB subsequent to the measurement date. The third item relates to OPEB reporting in the district-wide Statement of Net Position. This represents the effect of the net change in the actual and expected experience. The District reports \$15,304,410 in deferred outflows of resources related to pensions and \$13,574,251 in deferred outflows of resources related to the Total OPEB Liability as of June 30, 2020.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has two items that qualify for reporting in this category. The first item is related to pensions reported in the district-wide Statement of Net Position. This represents the effect of the net change in the District's proportion of the collective net pension liability (ERS System) and difference during the measurement periods between the District's contributions and its proportionate share of total contributions to the pension system not included in pension expense. The second item is related to OPEB reported in the district-wide Statement of Net Position. This represents the effect of the net changes of assumptions or other inputs. The District reports \$5,163,951 in deferred inflows of resources related to pensions and \$25,165,459 in deferred inflows of resources related to the Total OPEB Liability as of June 30, 2020.

The reporting of deferred outflows of resources and deferred inflows of resources related to pensions resulted in a net increase of \$10,140,459 to unrestricted net position as of June 30, 2020.

The reporting of deferred outflows of resources and deferred inflows of resources related to the Total OPEB Liability resulted in a net decrease of \$11,591,208 to unrestricted net position as of June 30, 2020.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### S. <u>Insurance</u>

The District participates in a risk sharing pool to insure workers' compensation claims. This is a public entity risk pool created under Article 5 of the Workers' Compensation Law, to finance liability and risks related to workers' compensation claims. The District's estimated share of the liability for unbilled and open claims was \$616,083 as of June 30, 2020.

# NOTE 2 – EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENT

Due to the differences in the measurement focus and basis of accounting used in the governmental fund statements and the District-wide statements, certain financial transactions are treated differently. The differences result primarily from the economic focus of the Statement of Activities, compared with the current financial resources focus of the governmental funds. These differences are reconciled in the financial statements.

1. Total fund balances of governmental funds vs. net position of governmental activities:

Total fund balances of the District's governmental funds differs from "net position" of governmental activities reported in the Statement of Net Position. The difference primarily results from the additional long-term economic focus of the Statement of Net Position versus the solely current financial resources focus of the governmental fund balance sheet.

2. Statement of Revenues, Expenditures and Changes in Fund Balance vs. Statement of Activities:

Differences between the governmental funds Statement of Revenues, Expenditures and Changes in Fund Balance and the Statement of Activities fall into one of three broad categories:

a) Long-term revenue differences:

Long-term revenue differences arise because governmental funds report revenues only when they are considered "available", whereas the Statement of Activities report revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis, whereas the accrual basis of accounting is used on the Statement of Activities.

# NOTE 2 – EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENT (Continued)

### b) Capital related differences:

Capital related differences include the differences between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the Statement of Activities, and the difference between recording an expenditure for the purchase of capital items in the governmental fund statements and depreciation expense on those items as recorded in the Statement of Activities.

### c) Long-term debt transaction differences:

Long-term debt transaction differences occur because both interest and principal payments are recorded as expenditures in the governmental fund statements, whereas interest payments are recorded in the Statement of Activities as incurred, and principal payments are recorded as a reduction of liabilities in the Statement of Net Position.

### NOTE 3 – PARTICIPATION IN BOCES

During the year ended June 30, 2020, the New Paltz Central School District was billed \$5,260,046 for BOCES administrative and program costs.

The School District's share of BOCES aid amounted to \$1,082,792.

General purpose financial statements for Ulster County BOCES are available from the BOCES administrative office.

### NOTE 4 – CASH AND INVESTMENTS

The New Paltz Central School District's investment policies are governed by State statutes. In addition, the District has its own written investment policy. New Paltz Central School District monies must be deposited in FDIC-Insured commercial banks or trust companies located within the State. The treasurer is authorized to use demand accounts and certificates of deposit. Permissible investments include obligations of the U.S. Treasury and U.S. Agencies, repurchase agreements, and obligations of New York State or its localities.

# NOTE 4 – CASH AND INVESTMENTS (Continued)

Collateral is required for time deposits and certificates of deposit not covered by federal deposit insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of New York State and states other than New York and their municipalities and school districts.

The District's aggregate cash balances include balances not covered by depository insurance at year end, collateralized as follows:

Collateralized with securities held by the pledging financial institution, or its trust department, but not in the District's name. \$ 9,568,543

### NOTE 5 – CAPITAL ASSETS

Capital asset balances and activity for the year ended June 30, 2020 were as follows:

Governmental Activities:	BEGINNING BALANCE	<u>ADDITIONS</u>	RETIREMENTS/ RECLASSIFICATIONS	ENDING BALANCE
Capital assets that are not depreciated:

TOTALS	\$ 1,863,520	<u>\$ 1,863,520</u>	\$ 624,508	<u>\$ 624,508</u>

Interfund receivables and payables, other than between governmental activities and fiduciary funds, are eliminated on the Statement of Net Position.

The District typically transfers funds from the General Fund to the Capital Projects Fund to finance ongoing Capital Projects and to the Special Aid Fund to cover expenses that are not reimbursed by Federal or State Grants.

The District typically loans resources between funds for the purpose of relieving cash flow issues.

### NOTE 7 – INVENTORY

Inventory in the School Lunch Fund at June 30, 2020 consisted of the following:

Food & Supplies \$ 52,264

### NOTE 8 - LIABILITIES

### A. Pension Plans and Post-Employment Benefits

### 1. General Information

The New Paltz Central School District participates in New York State and Local Employee's Retirement System (ERS), and the New York State Teachers' Retirement System (TRS). These Systems are cost sharing multiple employer, public employee retirement systems.

### NOTE 8 – LIABILITIES (Continued)

The Systems offer a wide range of plans and benefits which are related to years of service and final average salary, vesting of retirement benefits, death and disability.

### 2. <u>Plan Descriptions</u>

### a. <u>Teachers' Retirement System (TRS)</u>

As an employer, you make contributions to the New York State Teachers' Retirement System, a cost sharing, multiple employer defined benefit pension plan administered by the New York State Teachers' Retirement Board. The System provides retirement, disability, withdrawal and death benefits to plan members and beneficiaries as authorized by the Education Law and Retirement and Social Security Law of the State of New York. The System issues a publicly available financial report that contains financial statements and required supplementary information for the System.

The report may be obtained by writing to the New York State Teachers' Retirement System, 10 Corporate Woods Drive, Albany, NY 12211-2395.

### b. Employees' Retirement System (ERS)

The New York State and Local Employees' Retirement System provides retirement benefits as well as death and disability benefits. Obligations of employers and employees to contribute, and benefits to employees are governed by the New York State Retirement and Social Security Law (NYRSSL).

The system issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the New York State and Local Retirement System, Gov. Alfred E. Smith State Office Building, Albany, New York 12244.

### 3. <u>Funding Policy</u>

Plan members who joined the Systems before July 27, 1976 are not required to make contributions. Those joining after July 27, 1976 and prior to January 1, 2010, with less than ten years of service, are required to contribute 3% of their salary.

### NOTE 8 – LIABILITIES (Continued)

Those joining the NYSERS on or after January 1, 2010 and before April 1, 2012, contribute 3% of their salary throughout their entire working career. Those joining after April 1, 2012 contribute 3% of their salary through March 31, 2013, and beginning April 1, 2013, contribute at rates ranging from 3% to 6%, dependent upon their salary, for their entire working career.

Those joining the NYSTRS on or after January 1, 2010 and before April 1, 2012 contribute 3.5% of their salary throughout their entire working career. Those joining on or after April 1, 2012 are required to contribute between 3% and 6%, dependent on their salary, for their entire working career.

For the NYSTRS, employers are required to contribute at an actuarially determined rate, currently 8.86% of the annually covered payroll for the fiscal year ended June 30, 2020. Rates applicable to the fiscal years ended June 30, 2019 and 2018, were respectively 10.62% and 9.80%. For the NYSERS, the NYS Comptroller annually certifies the actuarially determined rates expressed used in computing the employers' contributions based on salaries paid during the Systems' fiscal year ending March 31.

Contributions for the current year and two preceding years were equal to 100 percent of the contributions required, and were as follows:

	<u>ERS</u>	<u>TRS</u>
2020	\$ 1,052,826	\$ 2,016,753
2019	1,029,373	2,391,469
2018	1,024,721	2,102,971

### B. **Indebtedness**

### NOTE 9 – COMMITMENTS AND CONTINGENCIES

### A. Risk Financing and Related Insurance

The New Paltz Central School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; errors and omissions; natural disasters, etc. These risks are covered by commercial insurance purchased from independent third parties.

### B. Other Items

The School District has received grants that are subject to audit by agencies of the State and Federal governments. Such audits may result in disallowances and request a return of funds. Based on prior audits, the School District's administration believes disallowances, if any, will be immaterial.

### C. COVID - 19

In the early months of 2020, the COVID – 19 pandemic spread quickly around the world, causing significant shutdowns of economic activity. As a result, the District had to switch to remote learning and incurred unanticipated costs related to the conversion. Additionally, the District recognized some savings related to budgeted activity that was no longer needed. The ultimate cost of the shutdown and the effect, if any, on future tax levies and

### NOTE 9 – COMMITMENTS AND CONTINGENCIES (Continued)

State and Federal funding sources cannot be determined at this time. However, the District has been notified by NYS that certain State Aid payments will be reduced by 20% beginning with fiscal year end 2020 receivables and into fiscal 2021. The State may eventually turn over this money to the District depending on whether they receive assistance from the federal government. Since the receipt of this money is based on future events that are not within the District's control, the withheld money has not been included in the District's fiscal 2020 revenues, and will be recognized if, and when, the revenues are actually received. For the year ended June 30, 2020, the District's revenues have been reduced as a result of the NYS withholding as follows:

Revenue Source	<u>Amount</u>
Excess Cost Aid BOCES Aid	\$ 148,580 106,976
	<u>\$ 255,556</u>

#### NOTE 10 – POST EMPLOYMENT HEALTH INSURANCE BENEFITS

The District provides post employment coverage to retired employees in accordance with the provisions of various employment contracts. The benefit levels, employee contributions and employer contributions are governed by the District's contractual agreements.

### **General Information about the OPEB Plan**

*Plan Description* - The healthcare plan is a defined benefit OPEB plan that provides benefits for employees of the District who have reached certain levels of employment with the District. The plan is a pay as you go funding plan. The plan is a single-employer defined benefit OPEB plan administered by the District. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

*Benefits Provided* – The District provides healthcare benefits for retirees, their dependents and surviving spouses. Retirees with 10 years of service contribute 5% towards single coverage and 15% towards family coverage. Surviving spouses may participate in the plan by contributing 100% of the premiums.

### NOTE 10 – POST EMPLOYMENT HEALTH INSURANCE BENEFITS (Continued)

*Employees Covered by Benefit Terms* – At June 30, 2020, the following employees were covered by the benefit terms:

Inactive emp benefit payn	ployees or beneficiaries currently receiving nents	197
Inactive em benefit payn	aployees entitled to but not yet receiving ments	-
Active Emp	loyees	518
		<u>715</u>

### **Total OPEB Liability**

The District's total OPEB liability of \$113,033,847 was measured as of March 31, 2020, using an actuarial valuation as of June 30, 2020.

Actuarial Assumptions and Other Inputs – The total OPEB liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified.

Measurement Date	March 31, 2020
Salary Scale	3.22%
Discount Rate	2.48%
Initial Healthcare Cost Trend Rate	5.20%
Ultimate Healthcare Cost Trend Rate	4.18%

The actuarial cost method used was Entry Age Normal, Level Percent of Pay.

The discount rate was based on Fidelity Municipal Go AA 20 Year Bond rate.

Mortality rates were based on the Pub-2010 Public Retirement Plans Mortality Tables, Headcount-Weighted, without separate Contingent Survivor mortality, fully generational using scale MP-2019.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred</u> Inflows of Resources Related to Pensions

At June 30, 2020, the District reported the following asset/(liability) for its proportionate share of the net pension asset/(liability) for each of the Systems. The net pension asset/(liability) was measured as of March 31, 2020 for ERS and June 30, 2019 for TRS. The total pension asset/(liability) used to calculate the net pension asset/(liability) was determined by an actuarial valuation. The District's proportion of the net pension asset/(liability) was based on a projection of the District's long-term share of contributions to the Systems relative to the projected contributions of all participating members, actuarially determined. This information was provided by the ERS and TRS Systems in reports provided to the District.

net pension asset/(liability)	0.0218138%	0.134909%

For the year ended June 30, 2020, the District recognized pension expense of \$2,137,840 for ERS and \$4,329,812 for TRS. At June 30, 2020, the District reported deferred outflows/inflows of resources related to pensions from the following sources:

District contributions subsequent to the measurement date of \$267,706 for ERS and \$2,016,753 for TRS will be recognized as a reduction of the net pension liability in the year June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

TOTAL	\$ 3,862,704	\$ 4,173,296

### **Actuarial Assumptions**

The total pension liability as of the measurement date was measured by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date. The valuations used the following significant actuarial assumptions:

<u>ERS</u>	TRS
March 31, 2020	June 30, 2019
April 1, 2019	June 30, 2018
6.80%	7.10%
4.2%	1.90%-4.72%
April 1, 2010-March 31, 2015	July 1, 2009-June 30, 2014
System's Experience	System's Experience
2.5%	2.25%
	March 31, 2020 April 1, 2019 6.80% 4.2% April 1, 2010-March 31, 2015 System's Experience

For ERS, annuitant mortality rates are based on April 1, 2010-March 31, 2015 System's experience with adjustments for mortality improvements based on Society of Actuaries Scale MP-2014. For TRS, annuitant mortality rates are based on plan member experience with adjustments for mortality improvements based on Society of Actuaries Scale MP-2014, applied on a generational basis.

For ERS, the actuarial assumptions used in the April 1, 2019 valuation are based on the results of an actuarial experience study for the period April 1, 2010-March 31, 2015. For TRS, the actuarial assumptions used in the June 30, 2018 valuation are based on the results of an actuarial experience study for the period July 1, 2009-June 30, 2014.

# NOTE 11 – PENSION REPORTING FOR ASSETS/LIABILITIES AND DEFERRED OUTFLOWS/INFLOWS OF RESOURCES (Continued)

The long term rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by each the target asset allocation percentage and by adding expected inflation. Best estimates of the arithmetic real rates of return for each major asset class included in the target asset allocation are summarized below:

_	ERS	TRS
Measurement date	March 31, 2020	June 30, 2019
Asset Type:		
Domestic Equity	4.05%	6.3%
International Equity	6.15	7.8
Real Estate	4.95	4.6
Alternative Investments	2.0 - 3.0	-
Domestic Fixed Income	-	1.3
Global Bonds	-	0.9
Global Equities	-	7.2
Bonds and Mortgages	0.75	-
Inflation – Indexed Bonds	0.50	-
Private Equities	6.75	9.9
Private Debt	-	6.5
High Yield Bonds	-	3.6
Real Estate Debt	-	2.9
Cash Equivalents	0.00	0.3

### **Discount Rate**

The discount rate used to calculate the total pension liability was 6.80% for ERS and 7.10% for TRS. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employees will be made at statutorily required rates, actuarially. Based upon the assumptions, the Systems' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

# Sensitivity to the Proportionate Share for the Net Pension Liability to the Discount Rate Assumption

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 6.80% for ERS and 7.10% for TRS, as well as what the District's proportionate share of the net pension asset /(liability) would be if it were calculated using a discount rate that is 1-percentagepoint lower (5.80% for ERS and 6.10% for TRS) or 1-percentage point higher (7.80% for ERS and 8.10% for TRS) than the current rate:

### Payables to the Pension Plan

For ERS, employer contributions are paid annually based on the System's fiscal year which ends on March 31<sup>st</sup>. Accrued retirement contributions as of June 30 represent the projected employer contribution for the period of April 1 through June 30, based on paid ERS wages multiplied by the employer's contribution rate, by tier. Accrued retirement contributions as of June 30, 2020 amounted to \$267,706.

For TRS, employer and employee contributions for the fiscal year ended June 30 are paid to the System in September, October, and November through a state aid intercept. Accrued retirement contributions as of June 30 represent employee and employer contributions for the fiscal year based on paid TRS wages multiplied by the employer's contribution rate by tier, and employee contributions for the fiscal year as reported to the TRS System. Accrued retirement contributions as of June 30, 2020 amounted to \$2,176,167.

### NOTE 12 – TAX ABATEMENTS

The District is subject to a tax abatement agreement entered into by the Ulster County Industrial Development Agency pursuant to Title I of Article 18-A of the General Municipal Law of the State of New York. For the year ended June 30, 2020, the District received \$442,496 in tax abatement payments, which resulted in abated property taxes totaling \$382,399.

### NOTE 13 – EVENTS OCCURRING AFTER REPORTING DATE

The District has evaluated events and transactions that occurred between June 30, 2020 and October 13, 2020, which is the date the financial statements were available to be issued, for possible disclosure and recognition in the financial statements.

### NOTE 14 – RESTATED BALANCES

The beginning net position in the statement of activities has been decreased by \$849,834 to account for an adjustment to the District's estimated share of the liability related to the workers' compensation risk sharing pool, and increased by \$239,313 to account for overstated accrued interest reported in the prior year. The net decrease of \$610,521 has no effect on the governmental fund financial statements.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Education of the New Paltz Central School District New Paltz, New York

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the New Paltz Central School District, New York as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the New Paltz Central School District, New York's basic financial statements and have issued our report thereon dated October 13, 2020.

### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the New Paltz Central School District, New York's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the New Paltz Central School District, New York's internal control. Accordingly, we do not express an opinion on the effectiveness of the New Paltz Central School District, New York's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses, as defined above. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the New Paltz Central School District, New York's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Education of the New Paltz Central School District New Paltz, New York

### Report on Compliance for Each Major Federal Program

We have audited the New Paltz Central School District, New York's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the New Paltz Central School District, New York's major federal programs for the year ended June 30, 2020. The New Paltz Central School District, New York's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the New Paltz Central School District, New York's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the New Paltz Central School District, New York's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the New Paltz Central School District, New York's compliance with those requirements.

### **Opinion on Each Major Federal Program**

In our opinion, the New Paltz Central School District, New York complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

### **Report on Internal Control Over Compliance**

Management of the New Paltz Central School District, New York is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the New Paltz Central School District, New York's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the New Paltz Central School District, New York's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

# NEW PALTZ CENTRAL SCHOOL DISTRICT SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS JUNE 30, 2020

There were no audit findings in prior years.

### INDEPENDENT AUDITORS' REPORT

To the Board of Education of the New Paltz Central School District New Paltz, New York

We have audited the accompanying statements of assets, liabilities and fund balance – cash basis, of the Extraclassroom Activity Funds of the New Paltz Central School District as of June 30, 2020, and the related statements of cash receipts, disbursements and changes in fund balance – cash basis for the year then ended, and the related notes to the financial statements, which collectively comprise the financial statements of the Extraclassroom Activity Funds of the New Paltz Central School District as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the cash basis of accounting described in Note 2; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

### **Auditor's Responsibility**

Our responsibility is to express an opinion of these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

892 State Route 17B, P.O. Box 190 Mongaup Valley, NY 12762 — Phone: 845-796-1800 — Fax: 845-796-1826 — www.cooperarias.com

Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the financial statements referred to above presents fairly, in all material respects, the financial position – cash basis, of the Extraclassroom Activity Funds of the New Paltz Central School District as of June 30, 2020, and the changes in financial position – cash basis, for the year then ended in accordance with the basis of accounting described in Note 2.

### **Basis of Accounting**

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

This report is intended solely for the information and use of the school board governing body and management of the Extraclassroom Activity Funds of New Paltz Central School District, and for filing with the various offices and agencies of the State of New York. This restriction is not intended to limit the distribution of this report, which is a matter of public record.

# NEW PALTZ CENTRAL SCHOOL DISTRICT HIGH SCHOOL EXTRACLASSROOM ACTIVITY FUND NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2020

# NOTE 1 - DESCRIPTION OF OPERATIONS

Student activity funds are defined by the New York State Education Department as "funds raised other than by taxation, or through charges of a Board of Education, for, by or in the name of a school, student body or any subdivision thereof."

Activity funds are raised and expended by student bodies to promote the general welfare, education, and morale of all pupils, and to finance the normal, legitimate extracurricular activities of the student body organization.

The Superintendent of the District has responsibility and authority to implement all policies and rules pertaining to the supervision and administration of school activity funds in accordance with established policies and rules of the District's Board of Education.

### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### A. Basis of Accounting

The books and records of the High School Extraclassroom Activity Fund of New Paltz Central School District are maintained on the cash basis of accounting. Consequently, receipts and related assets are recognized when received rather than when earned, and disbursements are recognized when paid rather than when the obligation is incurred.

### B. <u>Interest Income</u>

Interest earned from the investment of the activity fund is posted to the Student Government Association.

### C. Bank Charges

All bank service charges have been charged to the respective activity fund.
