

Math 8

Janine McNamee

CURRICULUM: Math 8:

- Laws of Exponents
- Scientific Notation & Scientific Operations
- Geometry I (Coordinate Geometry and Transformations)
- Solving Multi-step Equations
- Functions & Relations including Linear VS Non-Linear
- Linear Relationships (Linear Equations)
- Data & Statistics: (Bivariate Data and Two-Way Tables)
- Linear Systems (Systems of Equations)
- Triangle Properties and Pythagorean Theorem
- Geometry II (Volume of Cones, Cylinders, and Spheres)
- Rational Numbers and Radicals
