## Educational Master Plan

### Introduction and Rationale:

This *Educational Master Plan* is a shared and collaborative endeavor built around the concept of a “Transformational School Model.” This is an amalgamation of several pertinent concepts and models, including systems theory, professional learning communities, 21<sup>st</sup> century schools, transformational leadership, cognitive learning theory, and standards-based instruction.

Organizational research and education literature are quite clear about what these various models look and act like. The *Educational Master Plan* has incorporated all of these models into a framework to provide focus and direction for our decisions, actions, and programs for the future. The six areas of focus within the Plan and for our planning endeavors are:

- **A Core Intelligence:** the shared vision and mission developed from staff's steadfast commitment to students' learning and are consistently articulated and referenced for the staff's work. This area also includes the policies, regulations, beliefs and philosophical frameworks we hold as a school and a learning community.
- **Leadership Capacity:** effective schools require leaders who can guide and direct the learning process and empower all to excellence. This requires collegial and facilitative participation by school administrators, who share leadership through inviting staff input in decision making and learning.
- **Learning Environment:** incorporates collegial inquiry and collaborative learning among all staff, and the application of that learning to solutions that address students' diverse needs and improve student learning.

- Teaching Skills and Abilities: incorporates an instructional staff with an understanding of the curriculum content, learning theory, and teaching process, and who continuously seek to improve and learn.
- Resources: the appropriate and necessary facilities, instructional resources, materials, physical conditions, and the human capital that support an effective learning community, and
- Program Coherence: a comprehensive, coherent, standards-based curriculum.

Transformational schools are comprised of these six interacting elements which must be understood and considered together – holistically. An important point to emphasize is that **none of these elements stands alone and separate**. Because of the nature of systems, all of the parts and elements interact and these interrelationships often cause new elements to form and new phenomena, new structures, and new rules of behavior to occur. For example, the *learning environment* interacts with and alters the *program* which influences the leadership capacity which can influence the teacher capacity, etc. The relationships and the interactions become more important than the structures and activities.

Therefore, a school should not be perceived, as a machine comprised of parts and pieces which can be changed and altered from outside, or which can be “repaired” one part at a time. **It must be seen as a living organism with each component a vital and contributing member of the system.** We cannot change or tinker with one part without influencing the other parts or the whole system. In this way, the whole is greater than the sum of the component parts.

Achieving the concepts and ideals contained within this Plan will require a paradigm shift by the public, the administration, and by teachers themselves about the role of the teacher, the school, and the teaching and learning process. However, research demonstrates that this model does make a difference and produces the kind of learning outcomes and climate that we envision. For example, for staff the following results have already been observed in various research studies:

- A reduction in the isolation of teachers.
- An increased commitment to the mission and goals of the school and increased vigor in working to strengthen the mission and vision [core intelligence].
- A shared responsibility for the total development of students and collective responsibility for students' success.
- Powerful learning that defines good teaching and classroom practice and creates new knowledge and beliefs about teaching and learners.
- Increased meaning and understanding of the content that teachers teach and the roles they play in helping **all** students learn and achieve expectations.
- Higher likelihood that teachers are well-informed, professionally renewed, and motivated to inspire students.
- More satisfaction, higher morale, and lower rates of absenteeism.
- Significant advances in adapting teaching to the students, accomplished more quickly than in traditional schools.
- Commitment to making significant and lasting changes.
- Higher likelihood of undertaking fundamental systemic change.

As a result of the changes and learning for the teachers, the research shows the results of students’ participation include:

- Decreased dropout rate and fewer classes “skipped.”
- Lower rates of absenteeism.
- Increased learning that is distributed more equitably in the smaller high schools.
- Greater academic gains in math, science, history, and reading than in traditional schools.
- Smaller achievement gaps between students from different and diverse backgrounds. <sup>1</sup>

All of these outcomes are within our vision and goals, and within our grasp. It will require dedication, good planning, and lots and lots of communication and work. However, it is also important to note that, despite our greatest intentions, foresight, training, and knowledge, the future is impossible to predict. Change and growth in any human organization is not linear. One can only build a structure or scaffolding and a guide for the organization to “grow” upon.

The standards provided in this *Educational Master Plan* are the scaffolding for the district’s growth. If all proceeds as hoped, then, in the words of Michael Fullan, “More good things will result than bad things.”

**SUBJECT: DIGNITY FOR ALL STUDENTS**

The District seeks to create an environment free of harassment, bullying, and discrimination; to foster civility in its schools; and to prevent conduct that is inconsistent with its educational mission. The District, therefore, prohibits all forms of harassment and bullying of students by employees or other students on school property and at school functions. The District further prohibits discrimination against students, including, but not limited to, discriminatory acts based on a person's race, color, weight, body type national origin, ethnic group, religion, religious practice, disability, sex, sexual orientation, gender, and gender presentation by school employees or other students. In addition, other acts of harassment, bullying, or discrimination that can reasonably be expected to materially and substantially disrupt the education process may be subject to discipline or other corrective action.

**Dignity Act Coordinators**

In each of its schools, the District will designate at least one employee holding licenses or certifications as required by the Commissioner of Education to serve as the Dignity Act Coordinator (DAC). Each DAC will be thoroughly trained to handle human relations in the areas of race, color, weight, body type, national origin, ethnic group, religion, religious practice, disability, sexual orientation, sex, gender, and gender presentation, and sex. Training will also be provided for DACs which addresses: the social patterns of harassment, bullying, and discrimination, including, but not limited that to, those acts based on a person's race, color, weight, national origin, ethnic group, religion, religious practice, disability, sex, sexual orientation, gender, and gender presentation; the identification and mitigation of harassment, bullying, and discrimination; and strategies for effectively addressing problems of exclusion, bias, and aggression in educational settings. All DAC appointments will be approved by the Board.

The District will widely disseminate the name, designated school, and contact information of each DAC to all school personnel, students, and parents or persons in parental relation by:

- a) Listing it in the Code of Conduct, with updates posted on the District's website; and
- b) Including it in the Code of Conduct's plain language summary provided to all parents or persons in parental relation to students before the beginning of each school year; and
- c) Providing it to parents or persons in parental relation in at least one District or school mailing or other method of distribution, including, but not limited to, electronic communication and/or sending information home with each student. If the information changes, parents and persons in parental relation will be notified in at least one subsequent District or school mailing, or other method of distribution as soon as practicable thereafter; and
- d) Posting it in highly visible areas of school buildings; and
- e) Making it available at the District and school-level administrative offices.

If a DAC vacates their position, the District will immediately designate an interim DAC, pending approval from the Board within thirty (30) days. In the event a DAC is unable to perform their duties for an extended period of time, the District will immediately designate an interim DAC, pending the return of the previous individual to the position.

**Training and Awareness**

Each year, all employees will be provided with training to promote a supportive school environment that is free from harassment, bullying, and discrimination, and to discourage and respond to incidents of harassment, bullying, and discrimination. This training may be provided in conjunction with existing professional development, will be conducted consistent with guidelines approved by the Board, and will:

- a) Raise awareness and sensitivity to potential acts of harassment, bullying, and/or discrimination;
- b) Address social patterns of harassment, bullying, and discrimination and the effects on students;
- c) Inform employees on the identification and mitigation of harassment, bullying, and discrimination;
- d) Enable employees to prevent and respond to incidents of harassment, bullying, and/or discrimination;

- e) Make school employees aware of the effects of harassment, bullying, cyberbullying, and/or discrimination on students;
- f) Provide strategies for effectively addressing problems of exclusion, bias, and aggression;
- g) Include safe and supportive school climate concepts in curriculum and classroom management; and
- h) Ensure the effective implementation of school policy on conduct and discipline.

Rules against harassment, bullying, and discrimination will be included in the Code of Conduct, publicized District-wide, and disseminated to all staff and parents or persons in parental relation. Any amendments to the Code of Conduct will be disseminated as soon as practicable following their adoption. The District will provide new employees with a complete copy of the current Code of Conduct upon beginning their employment, and distribute an age-appropriate summary to all students at a school assembly at the beginning of each school year.

**Reports and Investigations of Harassment, Bullying, and/or Discrimination**

The District encourages and expects students who have been subjected to harassment, bullying, or discrimination; parents or persons in parental relation whose children have been subjected to this behavior; other students who observe or are told of this behavior; and all District staff who become aware of this behavior to timely report it to the principal, Superintendent, DAC, or designee.

The principal, Superintendent, DAC, or designee will lead or supervise a timely and thorough investigation of all reports of harassment, bullying, and discrimination. The DAC or other individual conducting the investigation, may seek the assistance of the District's Civil Rights Compliance Officer in investigating, responding to, and remedying complaints. The findings of the initial investigation may be appealed to the Superintendent in writing, by either the target or the accused within ten (10) days of receipt of the findings. If the Superintendent conducted the initial investigation the findings may be appealed to the Board of Education. The Superintendent's findings may be appealed to the Board of Education, by either the target or the accused within ten (10) days of receipt of the Superintendent's findings. The Board's findings may be appealed to the Commissioner of Education by either the target or the accused within thirty (30) days of receipt of the Board's findings.

Where necessary, the District will take immediate steps to protect complainants pending the final outcome of an investigation, including academic accommodations and other interim measures. These measures may include altering academic or bus schedules for either the complainant or the alleged perpetrator, changing locker locations, allowing the complainant to withdraw from or retake a class without penalty, providing an escort to ensure that the complainant can move safely between classes or other activities, and providing academic support (eg., tutoring).

In the event any investigation verifies that harassment, bullying, and/or discrimination occurred, the District will take prompt action reasonably calculated to end it, to eliminate any hostile environment, to create a more positive school culture and climate, to prevent recurrence of the behavior, and to ensure the safety of the student or students against whom the harassment, bullying, or discrimination was directed.

The Superintendent, Principal, DAC, or designee will notify the appropriate local law enforcement agency when there is a reasonable belief that an incident of harassment, bullying, or discrimination constitutes criminal conduct.

The District will timely collect information related to incidents involving harassment, bullying, and discrimination; provide required internal reports; and complete and submit any required report to the State Education Department in the manner and within the timeframe specified by the Commissioner.

**Prohibition of Retaliatory Behavior (Whistle-Blower Protection)**

Any person who has reasonable cause to suspect that a student has been subjected to harassment, bullying, or discrimination by an employee or student, and who acts reasonably and in good faith in reporting it to school officials, the Commissioner, or law enforcement authorities, or who otherwise initiates, testifies, participates, or assists in any formal or informal proceedings, will have immunity from any civil liability that may arise from making that report, or from initiating, testifying, participating, or assisting in those proceedings. The District also prohibits any retaliatory behavior directed against any complainant, victim, witness, or any other individual who participated in the reporting or investigation of an incident of alleged harassment, bullying, or discrimination.

## **Publication of District Policy**

At least once during each school year, all District employees, students, and parents or persons in parental relation will be provided with a written or electronic copy of this policy, or a plain-language summary of it. The policy or summary will include information relating to how students, parents or persons in parental relation, and District employees may report harassment, bullying, or discrimination. Additionally, the District will maintain a current version of this policy on its website at all times.

## **Application**

Nothing in this policy or its implementing regulations should be interpreted to preclude or limit any right or cause of action provided under any local, state, or federal ordinance, law or regulation including, but not limited to, any remedies or rights available under the Individuals with Disabilities Education Act, Title VII of the Civil Rights Law of 1964, Section 504 of the Rehabilitation Act of 1973, or the Americans with Disabilities Act of 1990.

## **SUBJECT:        CODE OF CONDUCT ON SCHOOL PROPERTY**

The Board of Education ("Board") is committed to providing a safe and orderly school environment where all participants in the educational process may focus on continuous growth and development. Responsible behavior by students, teachers, other District personnel, parents, guardians, and other visitors is essential to achieving this goal.

The District has a long-standing set of expectations for conduct on school property and at school functions. These expectations are based on the principles of mutual respect, citizenship, character, tolerance, civility, honesty and integrity.

The Board recognizes the need to clearly define these expectations for acceptable conduct on school property, to identify the possible consequences of unacceptable conduct, and to ensure that discipline when necessary is administered promptly and fairly.

**Unless otherwise indicated, the Code of Conduct applies to all students, school personnel, parents and other visitors when on school property or attending a school function.**

## **SUBJECT: CODE OF CONDUCT**

The Board of Education is committed to providing a safe, supportive, nurturing and fulfilling school environment where all members of the school community can learn and grow socially, emotionally and educationally. In accordance with law, the Board of Education will annually adopt a Code of Conduct. The District's Code of Conduct is applicable to all members of the school community - students, staff and guests - on school property and/or at school functions

By highlighting positive behaviors and recognizing the importance of sustaining students' connections to the classroom and by involving staff, parents and community, we can support the learning process and strengthen school-community-family bonds.

The Code of Conduct shall take a systemic and comprehensive approach to developing a learning environment built on the principles of mutual respect, citizenship, character, tolerance, civility, honesty and integrity.

The Code of Conduct will promote a system-wide school ethos that violence is not acceptable and is not tolerated in our school community.

The Code of Conduct will be based on the principle that everyone has an obligation to respect and protect the rights of others.

The Code of Conduct will focus on prevention and intervention, but will also include a bill of rights and responsibilities for students, penalties for code violations, alternative educational programs appropriate to individual student needs and other elements as required by law.

For purposes of this policy and for the Code of Conduct, the following definitions apply:

- a) "School Property" means in or within any building, structure, athletic playing field, playground, parking lot or land contained within the real property boundary line of a public elementary or secondary school, or in or on a school bus, as defined in Vehicle and Traffic Law Section 142.
- b) "School Function" means any school-sponsored extra-curricular event or activity whether on or off school property.
- c) "School Community" consists of students, parents/guardians, school personnel including administrators, teachers and non-instructional staff, involved members of the community and the Board of Education. All are essential partners in the education of the District's students. All are expected to cooperate and contribute to a safe, orderly, respectful, tolerant and effective educational environment in which children can learn and grow.
- d) "Violence" occurs whenever anyone inflicts or threatens to inflict physical or emotional injury or discomfort upon another person's body feelings, or possessions.

### **Dress Code**

Healthy and respectful attention to personal cleanliness and dress is expected. The Code of Conduct shall provide direction as may be necessary to assure that dress does not adversely impact on the educational environment and well-being of others. While all members of the school community are responsible for compliance with the dress code, adults should exemplify and reinforce acceptable dress as role models for students.

The school administration may require students and teachers participating in specialized classes (i.e., physical education) to wear certain types of clothing, but they may not prescribe a specific brand.

**Annual Review and Public Comment**

The Board of Education will review, and when necessary, update the Code of Conduct annually. To fulfill, in part, the Board's legal responsibility to assess whether the code has been effective and whether it has been applied fairly and consistently, the Code of Conduct will be disseminated to students, staff and parents at the beginning of the school year or upon the registration of a student or hiring of staff. In each instance an invitation to comment on the Code of Conduct shall be included on the acknowledgement form to be returned to the District.

The Board welcomes comment, advice, and research on the topic of school safety throughout the year. Each year before the Board adopts the Code of Conduct for the ensuing year, at least one public hearing shall be held for the purposes of seeking input from the school community.

If the matter cannot be resolved at the individual level, complaints should be made in accordance with standards below identified. Included in such announcement will be the name, address and telephone number of the Title IX/Section 504/ADA Coordinator. The Title IX/Section 504/ADA Coordinator shall also be responsible for handling complaints and grievances regarding discrimination based on race, color, creed, religion, national origin, political affiliation, sexual orientation, age, military status, or marital status.

**Complaints by Students**

Such adult shall bring the matter to the attention of proper individuals as identified herein.

**Complaints by Employees**

Complaints or grievances not covered under employee contracts shall be handled and resolved, whenever possible, as close to their origin as possible. The Superintendent is responsible for implementing regulations for the redress of complaints or grievances through proper administrative channels. In accordance with provisions of General Municipal Law and the collective bargaining agreements, all District personnel shall have the opportunity to present their complaints or grievances free from interference, coercion, restraint, discrimination, or reprisal. The District shall provide at least two (2) procedural stages and an appellate stage for the settlement of any grievance.

**Complaints by Members of the School Community**

If the complaint and related concerns are not resolved at the individual level to the satisfaction of the complainant, the complainant is encouraged to speak with the supervisory administrator (i.e. Building Principal, School Nurse, Athletic Nurse, Athletic Director, etc.).

### **Unresolved Complaints**

Notwithstanding any overriding contractual requirements and/or legal/regulatory obligations, complaints and related concerns not resolved at the individual or supervisory level may be carried to the Superintendent of Schools and/or one of his/her assistants. The Superintendent may require the statement of the complainant in writing.

Unresolved complaints at the Superintendent level must be reported to the Board of Education by the Superintendent. The Board of Education reserves the right to require prior written reports from appropriate parties. ### **SUBJECT: AMERICANS WITH DISABILITIES ACT (ADA)/SECTION 504 REHABILITATION ACT**

The Board recognizes that qualified individuals with disabilities, with records of disabilities, as well as those regarded as having disabilities, are entitled to enjoy equal access to School District programs and activities. It is the policy of the School District to comply with the requirements of Section 504 of the Rehabilitation Act of 1973 (29 USC Section 794) [hereinafter "Section 504], the Americans with Disabilities Act [hereinafter "ADA"] and their implementing regulations (34 CFR Part 104) in affording the rights and benefits called for in accordance with the law.

The Board hereby designates the Director of Pupil Personnel Services as the responsible person {or you can call the individual the Compliance Officer or Complaint Officer) to coordinate compliance efforts under the law, and regulations cited above. Said Responsible Person shall cause notices to be issued periodically, but at least twice each school year, stating that the School District does not discriminate on the basis of disability, as set forth in Section 504 and Title II of ADA, and provides equal access to programs and activities of the School District to qualified individuals with disabilities. The notice shall also state the name or office title of the employee designated by the Board to serve as the Responsible Person. Such notice shall be posted conspicuously in each school building, in student handbooks and publications issued to parents, if any. The School District shall conduct and/or maintain evidence of a previously conducted self-evaluation, as prescribed in the regulations (34 CFR Part 104.6[6]).

### **Due Process Procedure**

In the event that a qualified individual with a disability believes that there has been a violation of this Policy, Section 504, Title II of the ADA or the regulations (34 CFR Section 194) affecting his/her rights, such grievance may be placed in writing and investigated by the School District's Responsible Person who shall report his/her findings within twenty (20) days to the grievant, referencing a personal interview where appropriate. In the event of a finding of one or more violations, the report will be forwarded to the Board for its consideration and action.

If the qualified individual with a disability is not satisfied, in whole or in part, with the findings of the Responsible Person, an appeal, in writing, shall lie to the Board of Education, who may designate a hearing officer to make findings of fact regarding substantial factual disputes, or shall otherwise rule upon the matter within thirty (30) days of receipt of an appeal. If the qualified individual with a disability is not satisfied with the Board's response, recourse may be had pursuant to procedures available through the New York State Education Department, Office for the Education of Children with Handicapping Conditions, the U.S. Department of Education, or the courts having jurisdiction over such matters.

Notwithstanding the above, where the complaint is in the nature of the identification, evaluation, or educational placement of a student as required by IDEA and/or Article 89 of the Education Law, the Commissioner's Regulations (Part 200.5) shall serve as the due process procedure for challenging alleged violations of Section 504 and its implementing regulations. Persons who file a complaint pursuant to this policy shall not be discriminated against for such filing or for any appeal therefrom.

**SUBJECT: SEXUAL HARASSMENT OF DISTRICT PERSONNEL**

The Board of Education recognizes that harassment of employees (including all staff, applicants for employment, both paid and unpaid interns, exempt and non-exempt status, part-time, seasonal, and temporary workers, regardless of immigration status) and certain "non-employees" (which includes contractors, subcontractors, vendors, consultant and other persons providing services pursuant to a contract, or their employees) on the basis of sex, gender, gender presentation, and/or sexual orientation is abusive and illegal behavior that harms targets and negatively impacts the school culture by creating an environment of fear, distrust, intimidation and intolerance. The Board further recognizes that preventing and remedying such harassment in schools is essential to ensure a healthy, nondiscriminatory environment in which employees and "non-employees" can work productively.

**Sexual Harassment**

Sexual harassment is a form of sex discrimination and is unlawful under federal, state, and (where applicable) local law. Sexual harassment includes harassment on the basis of gender or gender presentation, or self-identified sex, sexual orientation, gender identity, gender expression, and transgender status.

Sexual harassment includes unwelcome conduct which is either of a sexual nature, or which is directed at an individual because of that individual's sex, when:

- a. submission to that conduct is made either explicitly or implicitly a term or condition of an individual's employment;
- b. submission to or rejection of such conduct is used as the basis for decisions affecting an individual's employment;
- or
- c. the conduct has the purpose or effect of unreasonably interfering with an employee's or "non-employee's" work or creating an intimidating, hostile or offensive work environment, even if the complaining individual is not the intended target of the sexual harassment;

Sexual harassment can include unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature, or verbal, nonverbal or physical aggression, intimidation or hostility that is based on gender presentation and sexual stereotypes.

**Prohibited Conduct**

The Board is committed to providing an educational and working environment that promotes respect, dignity, and equality and that is free from all forms of sexual harassment. To this end, the Board condemns and strictly prohibits all forms of sexual harassment on school grounds, school buses and at all school-sponsored activities, programs and events, including those that take place at locations outside the District, or outside the school setting if the harassment impacts the individual's employment in a way that violates their legal rights, including when employees and "non-employees" travel on District business, or when harassment is done by electronic means (including on social media). Sexual harassment is considered a form of employee misconduct.

Retaliation against individuals who complain of sexual harassment or who testify or assist in any investigation or proceeding involving sexual harassment is unlawful. Remedial and/or disciplinary action will be taken against all those who engage in sexual harassment, and against supervisory and managerial personnel who knowingly allow such behavior to continue or engage in retaliation. Sexual harassment may subject the District to liability for harm done to targets. Harassers may also be individually subject to civil liability if sued in a court of law or criminal liability if prosecuted.

Under various state and federal laws, employees and “non-employees” have legal protections against sexual harassment in the school environment as described above. Those laws are listed in the references section. Additionally, local laws (e.g., county, city, town, village) may apply to the District. The District’s Code of Conduct also addresses appropriate behavior in the school environment. Sexual harassment can occur between persons of all ages and genders.

In order for the Board to enforce this policy effectively and to take prompt corrective measures, it is essential that all targets of sexual harassment and persons with knowledge of sexual harassment report the harassment immediately. The District will promptly investigate all complaints of sexual harassment, whether formal or informal, verbal or written. To the extent possible, all complaints will be treated in a confidential manner. Limited disclosure may be necessary to complete a thorough investigation. If the complainant reports that they feel unsafe at school due to the nature of the complaint, the District will determine if accommodations need to be made until the issue is resolved.

Complaints will be investigated based upon the totality of circumstances noting that not all unacceptable conduct will rise to the level of sexual harassment. Behaviors must be sufficiently severe and/or pervasive (and may even be based upon a single severe incident), and objectively offensive in the context of this policy to give rise to findings of sexual harassment.

Managers and supervisors are required to report any complaint that they receive, or any harassment that they observe to a Title VII Compliance Officer.

If, after appropriate investigation that should be conducted within a 30 calendar day time period, absent exigent circumstances, the District finds that a an employee, “non-employee” or a third party has violated this policy, prompt corrective action will be taken in accordance with the applicable collective bargaining agreement, contract, District policy and state law. Individual nondisclosure agreements may only be used as permitted by law, described in the accompanying regulation. Mandatory arbitration clauses are prohibited in all District contracts and agreements.

All complainants and those who participate in sexual harassment complaints or the investigation of a complaint of sexual harassment have the right to be free from retaliation of any kind, when they do so with a good faith belief that sexual harassment has occurred. Such prohibited retaliation can include, but is not limited to, discipline, discrimination, demotion, denial of privileges, or any action that would keep a person from coming forward to make or support a sexual harassment claim. Such actions need not be job- or education-related, or occur in the workplace or educational environment, to constitute unlawful retaliation.

The Superintendent of Schools is directed to develop and implement regulations for reporting, investigating and remedying allegations of sexual harassment. These regulations are to be attached to this policy. In addition, training programs shall be established annually for employees, to raise awareness of the issues surrounding sexual harassment and to implement preventative measures to help reduce incidents of sexual harassment.

This policy shall be posted in a prominent place in each District facility, on the District’s website, and shall also be published in staff informational materials, employee handbooks, and other appropriate school publications.

A committee of administrators, teachers, parents and the school attorney shall be convened periodically to review this policy’s effectiveness and compliance with applicable state and federal law, and to recommend revisions to the Board of Education.

### **External Remedies**

In addition, targets have the right to register sexual harassment complaints with the U.S. Department of Education’s Office for Civil Rights (OCR). The OCR can be contacted at (800) 421-3481, 400 Maryland Avenue SW, Washington, DC 20202-1100, or at <https://www2.ed.gov/about/offices/list/ocr/docs/howto.html>.

Employee targets also have the right to register complaints with the federal Equal Employment Opportunity Commission (EEOC) and the New York State Division of Human Rights (DHR). The DHR can be contacted at (888) 392-3644, [www.dhr.ny.gov/complaint](http://www.dhr.ny.gov/complaint), or at 1 Fordham Plaza, Fourth Floor, Bronx, NY 10458. The EEOC can be contacted at (800) 669-4000, <https://www.eeoc.gov/employees/howtofile.cfm>, [info@eeoc.gov](mailto:info@eeoc.gov), or at 33 Whitehall Street, 5th Floor, New York, NY 10004 or 300 Pearl Street, Suite 450, Buffalo, NY 14202.

Nothing in these regulations shall be construed to limit the right of the complainant to file a lawsuit in either state or federal court, or to contact law enforcement officials if the sexual harassment involves unwanted physical touching,

coerced physical confinement or coerced sex acts, which may constitute a crime. No District contract or collective bargaining agreement entered into after July 11, 2018 may include a binding arbitration clause for sexual harassment requiring arbitration before bringing the matter to court.

In any case where it is alleged the child was abused by an employee or volunteer of a school other than a school within the school district of the child's attendance, the report of such allegations shall be promptly forwarded to the Superintendent of Schools of the school district of the child's attendance and the school district where the abuse allegedly occurred.

Any employee or volunteer who reasonably and in good faith makes a report of allegations of child abuse in an educational setting in accordance with the reporting requirements of the law shall have immunity from civil liability which might otherwise result by reason of such actions.

Upon receipt of a written report alleging child abuse in an educational setting, the school administrator or Superintendent must then determine whether there is "reasonable suspicion" to believe that such an act of child abuse has

occurred. Where there has been a determination as to the existence of such reasonable suspicion, the school administrator or Superintendent must follow the notification/reporting procedures mandated in law and further enumerated in administrative regulations including parental notification. When the school administrator receives a written report, he/she shall promptly provide a copy of such report to the Superintendent.

Where the school administrator or Superintendent has forwarded a written report of child abuse in an educational setting to law enforcement authorities, the Superintendent shall also refer such report to the Commissioner of Education where the employee or volunteer alleged to have committed such an act of child abuse holds a certification or license issued by the State Education Department.

Any school administrator or Superintendent who reasonably and in good faith makes a report of allegations of child abuse in an educational setting, or reasonably and in good faith transmits such a report to a person or agency as required by law, shall have immunity from civil liability which might otherwise result by reason of such actions.

Reports and other written material submitted pursuant to law with regard to allegations of child abuse in an educational setting, and photographs taken concerning such reports that are in the possession of any person legally authorized to receive such information, *shall be confidential and shall not be re-disclosed except* to law enforcement authorities involved in an investigation of child abuse in an educational setting or as expressly authorized by law or pursuant to a court-ordered subpoena. School administrators and the Superintendent shall exercise reasonable care in preventing such unauthorized disclosure.

Additionally, teachers and all other school officials shall be provided an annual written explanation concerning the reporting of child abuse in an educational setting, including the immunity provisions as enumerated in law. Further, the Commissioner of Education shall furnish the District with required information, including rules and regulations for training necessary to implement District/staff responsibilities under the law.

**Prohibition of "Silent" (Unreported) Resignations**

The Superintendent and other school administrators are prohibited from withholding from law enforcement authorities, the Superintendent or the Commissioner of Education, where appropriate, information concerning allegations of child abuse in an educational setting against an employee or volunteer in exchange for that individual's resignation or voluntary suspension from his/her position.

Superintendents (or a designated administrator) who reasonably and in good faith report to law enforcement officials information regarding allegations of child abuse or a resignation as required pursuant to the law shall have immunity from any liability, civil or criminal, which might otherwise result by reason of such actions.

**SUBJECT: CHILDREN'S INTERNET PROTECTION ACT: INTERNET CONTENT  
FILTERING/SAFETY POLICY**

In compliance with the Children's Internet Protection Act (CIPA) and Regulations of the Federal Communications Commission (FCC), the District has adopted and will enforce this Internet safety policy that ensures the use of technology protection measures (i.e., filtering or blocking of access to certain material on the Internet) on all District computers with Internet access. Such technology protection measures apply to Internet access by both adults and minors with regard to visual depictions that are obscene, child pornography, or, with respect to the use of computers by minors, considered harmful to such students. The District will provide for the education of students regarding appropriate online behavior including interacting with other individuals on social networking websites and regarding cyberbullying awareness and response. Further, appropriate monitoring of online activities of minors, as determined by the building/program supervisor, will also be enforced to ensure the safety of students when accessing the Internet.

Further, the Board of Education's decision to utilize technology protection measures and other safety procedures for staff and students when accessing the Internet fosters the educational mission of the schools including the selection of appropriate teaching/instructional materials and activities to enhance the schools' programs; and to help ensure the safety of personnel and students while online.

However, no filtering technology can guarantee that staff and students will be prevented from accessing all inappropriate locations. Proper safety procedures, as deemed appropriate by the applicable administrator/program supervisor, will be provided to ensure compliance with the CIPA.

In addition to the use of technology protection measures, the monitoring of online activities and access by minors to inappropriate matter on the Internet and World Wide Web *may* include, but shall not be limited to, the following guidelines:

- a) Ensuring the presence of a teacher and/or other appropriate District personnel when students are accessing the Internet including, but not limited to, the supervision of minors when using electronic mail, chat rooms, instant messaging and other forms of direct electronic communications. As determined by the appropriate building administrator, the use of e-mail, and social networking websites, may be blocked as deemed necessary to ensure the safety of such students;
- b) Monitoring logs of access in order to keep track of the web sites visited by students as a measure to restrict access to materials harmful to minors;
- c) In compliance with this Internet Safety Policy as well as the District's Responsible Use Policy, unauthorized access (including so-called "hacking") and other unlawful activities by minors are prohibited by the District; and student violations of such policies may result in disciplinary action; and
- d) Appropriate supervision and notification to minors regarding the prohibition as to unauthorized disclosure, use and dissemination of personal identification information regarding such students.

The determination of what is "inappropriate" for minors shall be determined by the District and/or designated school official(s). It is acknowledged that the determination of such "inappropriate" material may vary depending upon the circumstances of the situation and the age of the students involved in online research.

The terms "minor," "child pornography," "harmful to minors," "obscene," "technology protection measure," "sexual act," and "sexual contact" will be as defined in accordance with CIPA and other applicable laws/regulations as may be appropriate and implemented pursuant to the District's educational mission.

Under certain specified circumstances, the blocking or filtering technology measure(s) may be disabled for adults engaged in bona fide research or other lawful purposes. The power to disable can only be exercised by an administrator, supervisor, or other person authorized by the School District.

The School District shall provide certification, pursuant to the requirements of CIPA, to document the District's adoption and enforcement of its Internet Safety Policy, including the operation and enforcement of technology protection measures (i.e., blocking/filtering of access to certain material on the Internet) for all School District computers with Internet access.

**Internet Safety Instruction**

In accordance with New York State Education Law, the School District may provide, to students in grades K through 12, instruction designed to promote the proper and safe use of the Internet. The Commissioner shall provide technical assistance to assist in the development of curricula for such course of study which shall be age appropriate and developed according to the needs and abilities of students at successive grade levels in order to provide awareness, skills, information and support to aid in the safe usage of the Internet.

Under the *Protecting Children in the 21st Century Act*, students will also be educated on appropriate interactions with other individuals on social networking websites and cyberbullying awareness and response.

The District shall also provide age appropriate instruction to students regarding appropriate online behavior including but not limited to interacting on social networks, websites and instant messaging, and cyberbullying awareness and response. Such instruction will be provided even if the District prohibits students from accessing social networking sites and instant messaging on District technology.

**Access to Inappropriate Content/Material and Use of Personal Technology or Electronic Devices**

Despite the existence of District policy, regulations and guidelines, it is impossible to completely prevent access to content or material that may be considered inappropriate for students. Students may have the ability to access such content or material from their home, other locations off school premises and/or with a student's own personal technology or electronic device on school grounds or at school events.

The District is not responsible for inappropriate content or material accessed via a student's own personal technology or electronic device or via an unfiltered Internet connection received through a student's own personal technology or electronic device.

Student use of the District's computer system (DCS) is conditioned upon written agreement by all students and their parents/guardians that student use of the DCS will conform to the requirements of this policy and any regulations adopted to ensure responsible use of the DCS. All such agreements shall be kept on file in the District Office.

**Notification/Authorization**

The District's Responsible Use Policy and accompanying Regulations will be disseminated to parents and students in order to provide notice of the school's requirements, expectations, and student's obligations when accessing the Internet.

The District's Internet Safety/Internet Content Filtering Policy must be made available to the FCC upon request.

Furthermore, appropriate actions will be taken to ensure the ready availability to the public of this policy as well as any other District policies relating to the use of technology.

**SUBJECT: FAMILY AND MEDICAL LEAVE ACT**

The Board of Education, in accordance with the Family and Medical Leave Act of 1993 (as amended) (FMLA), gives "eligible" employees of the District the right to take unpaid leave for a period of up to twelve (12) workweeks in a twelve-month period as determined by the District. The District designates a twelve (12) month period measured forward from the date of the employee's first FMLA leave usage as the applicable twelve-month period.

Employees are "eligible" if they have been employed by the District for at least twelve (12) months and for at least 1,250 hours of service during the previous twelve-month period. Full-time teachers are deemed to meet the 1,250 hour test. However, a break in employment for military service (i.e., call to active duty) will not interrupt the twelve (12) month/1,250 hours of employment requirement and should be counted toward fulfilling this prerequisite. The law covers both full-time and part-time employees. Qualified employees may be granted leave for one (1) or more of the following reasons:

- a) The birth of a child and care for the infant;
- b) Adoption of a child and care for the infant;
- c) The placement with the employee of a child in foster care;
- d) To care for a spouse, child or parent who has a "serious health condition" as defined by the FMLA; and/or

e) A "serious health condition" of the employee, as defined by the FMLA, that prevents the employee from performing his/her job. A "serious health condition" is defined as an illness, injury, impairment or physical or mental condition that involves inpatient care or continuing treatment by a health care provider that renders the employee incapacitated for more than three (3) consecutive calendar days and where the employee is required to see the health care provider at least twice. A "serious health condition" is also defined as any period of incapacity related to pregnancy or for prenatal care.

### **Medical Treatment for Serious Health Conditions**

The first visit to a health care provider for an employee claiming a "serious health condition" under FMLA must occur within seven (7) days of the aforementioned incapacity with the second required visit occurring within thirty (30) of the incapacitating event. If the employee claiming FMLA under the "serious health condition" rationale is sustaining continuous treatment, their first visit to a health care provider must take place within seven (7) days of the claimed incapacitating event. Chronic "serious health conditions" require periodic visits; the employee must see a health care provider a minimum of two (2) times per year.

### **Implementation/Benefits/Medical Certification**

At the District's or employee's option, certain types of paid leave may be substituted for unpaid leave.

An employee on FMLA leave is entitled to have health benefits maintained while on leave. If an employee was paying all or part of the premium payments prior to leave, the employee will continue to pay his/her share during the leave period. In most instances, an employee has a right to return to the same position or an equivalent position with equivalent pay, benefits and working conditions at the conclusion of the leave.

The District has a right to thirty (30) days advance written notice of the FMLA leave from the employee where practicable. In addition, the District may require an employee to submit certification from a health care provider to substantiate that the leave is due to the "serious health condition" of the employee or the employee's immediate family member. Under no circumstance should the employee's direct supervisor or a human resource professional contact any health care provider regarding the employee's condition without the employee's written consent; all contact in this manner must be made by a health care provider (employed at the District such as the School Physician), or the designated leave administrator. If the medical certification requested by the employer is found to be deficient, the District must indicate where the errors are, in writing, and give the employee seven (7) days to provide corrected materials to cure any deficiency prior to any action being taken.

### **Military Family Leave Entitlements**

#### **A. Military Caregiver Leave**

An eligible employee who is the spouse, son, daughter, parent, or next of kin (defined as the nearest blood relative of that individual) of a "covered service member" (the Armed Forces including a member of the National Guard or Reserves) who is recovering from a serious illness or injury sustained in the line of duty while on active duty is entitled to up to 26 weeks of leave in a single 12-month period to care for the service member. This military caregiver leave is available during a single 12-month period during which an eligible employee is entitled to a combined total of 26 weeks of all types of FMLA leave. Military Caregiver Leave may be combined with other forms of FMLA-related leave providing a combined total of twenty-six (26) weeks of possible leave for any single twelve (12) month period; however, the other form of FMLA leave when combined cannot exceed twelve (12) of the twenty-six (26) weeks of combined leave. Military Caregiver Leave has a set "clock" for calculating the twelve (12) month period for when FMLA leave begins and tolling starts at the first day of leave taken.

#### **B. "Qualifying Exigency" Leave/Call to Active Duty**

An "eligible" employee is entitled to FMLA leave because of "a qualifying exigency" arising out of circumstances where the spouse, son, daughter, or parent of the employee is serving in either the National Guard or the Reserves and is on active duty during a war or national emergency called for by the President of the United States or Congress, or has been notified of an impending call to active duty status, in support of a contingency operation.

A "qualifying exigency" related to families of the Army National Guard of the United States, Army Reserve, Navy Reserve, Marine Corps Reserve, Air National Guard of the United States, Air Force Reserve and Coast Guard Reserve personnel on (or called to) active duty to take FMLA protected leave to manage their affairs is defined as any one of the following reasons:

- a) Short-notice deployment;
- b) Military events and related activities;
- c) Childcare and school activities;
- d) Financial and legal arrangements;
- e) Counseling;
- f) Rest and recuperation;
- g) Post-deployment activities; and
- h) Any additional activities where the employer and employee agree to the leave.

In any case in which the necessity for leave due to a qualifying exigency is foreseeable, the employee shall provide such notice to the employer as is reasonable and practicable. This military-related leave is for up to twelve (12) weeks during a single 12-month period.

### **Special Provisions for School District Employees**

An instructional employee is an employee whose principal function is to teach and instruct students in a class, a small group, or an individual setting (e.g., teachers, certain teaching assistants, coaches, and special education assistants, etc.). The following employees are not considered instructional employees: guidance counselors, school psychologists, social workers, curriculum specialists, non-instructional personnel and certain teaching assistants or aides, unless their principal job is actually teaching or instructing. Periods of one or more weeks when school is closed and employees are not expected to report to work do not count toward FMLA leave. Examples include school recesses (e.g., winter recess, spring recess), summer vacation, or closings for maintenance and repairs. However, when a particular holiday falls during a week taken as FMLA leave, the entire week is counted as FMLA leave.

#### **Intermittent Leave Taken By Instructional Employees**

FMLA leave that is taken at the end of the school year and resumes at the beginning of the next school year is not regarded as intermittent leave but rather continuous leave. The period in the interim (i.e., summer vacation) is not counted as part of FMLA leave and the employee must continue to receive any benefits that are customarily given over the summer break.

Intermittent leave is defined as leave that is taken in separate blocks of time, rather than continuously, broken down to units upon the same basis as the breakdown employed for sick leave use (e.g., for medical appointments, chemotherapy, radiation, physical therapy for severe arthritis and dialysis). Intermittent leave must meet certain criteria. If the instructional employee requesting intermittent leave will be on that leave for more than twenty percent (20%) of the number of working days during the period for which the leave would extend, the following criteria may be required by the employer:

- a) Take leave for a period or periods of a particular duration, not greater than the duration of the planned treatment; or
- b) Transfer temporarily to an available alternative position for which the employee is qualified, which has equivalent pay and benefits and which better accommodates recurring periods of leave than does the employee's regular position.

Appropriate notice from the employee for foreseeable FMLA leave (30 days advance written notice) still applies and all employees must be returned to an equivalent position within the school district. Additional work-related certifications, requirements and/or training may not be required of the employee as a condition of their return to work.

There is no legal entitlement to intermittent leave for the purposes of child care, foster care and adoption.

#### **Leave Taken by Instructional Employees Near the End of the Instructional Year**

There are special requirements for instructional employees taking leave close to the end of a term.

- 1) If the instructional employee is taking leave more than five (5) weeks prior to the end of the term, the District may require that the employee take the leave until the end of the term if the leave lasts more than three (3) weeks and the employee was scheduled to return prior to three (3) weeks before the end of the term.
- 2) If the instructional employee is taking leave less than five (5) weeks prior to the end of the term for any of the FMLA-related reasons except qualifying exigency, the District may require that the employee remain out for the rest of the term if the leave lasts more than two (2) weeks and the employee would return to work during the two (2) week period at the end of the instructional term.
- 3) If the instructional employee begins taking leave during the three (3) weeks prior to the end of the term for any reason except qualifying exigency, the District may require that the employee continue leave until the end of the term if the leave is scheduled to last more than five (5) working days.

If FMLA leave is extended at the employer's option, the extension is considered to be FMLA leave time as well, including health benefits and restoration rights; however, such time will not be charged against the employee as FMLA leave because it was the employer who requested that the leave extend until the end of the term.

### **FMLA Notice**

A notice which explains the FMLA's provisions and provides information concerning the procedures for filing complaints of violations of the FMLA shall be posted in each school building and a notice of an employee's FMLA rights and responsibilities shall be provided to employees with the required annual notices or furnished to each new employee within five days from the date of hire.

### **SUBJECT:      SCHOOL SAFETY PLANS**

The District-wide and building-level school safety plans have been adopted by the School Board only after at least one (1) public hearing that provided for the participation of school personnel, parents, students, and any other interested parties. Each plan shall be reviewed by the appropriate school safety team on at least an annual basis, updated as needed by July 1 and recommended to

the Board of Education for approval. These plans will be designed to prevent or minimize the effects of serious violent incidents and emergencies and to facilitate the coordination of schools and the School District with local and county resources in the event of such incidents or emergencies.

### **District-Wide School Safety Plan**

*District-wide school safety plan* means a comprehensive, multi-hazard school safety plan that covers all school buildings of the School District, that addresses prevention and intervention strategies, emergency response and management at the District level and has the contents as prescribed in Education Law and Commissioner's Regulations.

The District-wide school safety plan shall be developed by the District-wide school safety team appointed by the Board of Education. The District-wide team shall include, but not be limited to, representatives of the School Board, student, teacher, administrator, and parent organizations, school safety personnel and other school personnel.

### **Building-Level School Safety Plans**

*Building-level school safety plan* means a building-specific school emergency response plan that addresses prevention and intervention strategies, emergency response and management at the building level and has the contents as prescribed in Education Law and Commissioner's Regulations. As part of this plan the District will define the chain of command in a manner consistent with the National Incident Management System (NIMS)/Incident Command System (ICS).

The building-level plan shall be developed by the building-level school safety team. The building-level school safety team means a building-specific team appointed by the Building Principal, in accordance with regulations or guidelines prescribed by the Board of Education. The building-level team shall include, but not be limited to, representatives of teacher, administrator, and parent organizations, school safety personnel, other school personnel, community members, local law enforcement officials, local ambulance or other emergency response agencies, and any other representatives the School Board deems appropriate.

If the District receives federal preparedness funds, the District requires appropriate personnel to complete the IS-700 NIMS (National Incident Management System) introductory course.

### **Filing/Disclosure Requirements**

The District shall file a copy of its comprehensive District-wide school safety plan and any amendments thereto with the Commissioner of Education no later than thirty (30) days after their adoption. A copy of each building-level school safety plan and any amendments thereto shall be filed with the appropriate local law enforcement agency and with the state police within thirty (30) days of its adoption. Building-level emergency response plans shall be confidential and shall **not** be subject to disclosure under the Freedom of Information Law or any other provision of law.

### **SUBJECT: SAFETY AND SECURITY**

The Board of Education of the New Paltz Central School District hereby declares that it is the policy of this School District to provide a safe and secure environment to all those persons, students, staff and visitors, who lawfully enter upon District property or who travel in District vehicles for the purposes of the District.

It shall be the responsibility of the Superintendent to establish and carry out written regulations that will:

- a) Identify those staff members who will be responsible for the effective administration of the regulations;
- b) Provide staff time and other necessary resources for the effective administration of the regulations;
- c) Establish periodic written review of the activities of the staff to ensure compliance with applicable laws and regulations;
- d) Provide an on-going mechanism for the effective review of safety and security concerns of the staff, students and affected public;
- e) Provide for reports to the Board of Education regarding the significant aspects of safety and security of the District.

### **Student Safety**

All staff who are made aware of physical and/or verbal threats to students must immediately report these threats against students to the next level of supervisory authority for prompt action. The immediate supervisor must then inform the Superintendent/designee, including any action taken, after learning of such threats to students.

The District shall disseminate this policy to all employees in order to ensure staff awareness.

## **SUBJECT: HAZARDOUS MATERIALS**

The Board of Education of the New Paltz Central School District hereby declares that it is the policy of this School District to provide a safe and secure environment to all those persons, students, staff and visitors, who lawfully enter upon District property or who travel in District vehicles for the purposes of the District. The Board, therefore, directs the Superintendent of Schools and all District personnel to comply with the following safety and health laws and regulations:

### **Hazard Communication Standard**

The Superintendent will direct appropriate personnel (e.g., Director of Facilities and Operations or Director of Buildings and Grounds) to develop and oversee a written hazard communications program, which will include the following:

- a) Acquisition, maintenance and review of Material Safety Data Sheets (MSDS's) for all known hazardous materials on District property;
- b) Compilation of a hazardous materials inventory;
- c) Employee training in hazardous materials management and protection;
- d) Recording of all incidents involving exposure to known hazardous materials. Records of employees who have been exposed to known hazardous enforceable exposure standards shall be kept for 40 years; and
- e) Establishing procedures to maintain confidentiality of trade secret information.

It is the responsibility of the entire school community, including staff and students, to report any unsafe building or equipment conditions to a Building Administrator or Superintendent of Schools as soon as possible. In addition, designated administrators will provide notice of hazardous materials within 72 hours of an employee request.

All personnel shall be provided with applicable training to comply with the New York State "Right-to-Know" Law and the Hazard Communication Standard.

The Superintendent or designee shall maintain a current record of the name, address and social security numbers of every employee who handles or uses toxic substances and which substance(s) were handled or used by the employee.

Rules and regulations will be developed to insure District implementation of this policy.

The New Paltz Central School District recognizes its duty of ensuring the safety and welfare of all employees, students and visitors taking part in scientific laboratory activities. The Board of Education directs the Superintendent of Schools to develop regulations that meet or exceed the minimum standards required by the federal and state government, including a written program to provide direction for the safe use of any hazardous chemicals used in laboratories as part of the school curriculum or academic program and protection against occupational exposure to hazardous chemicals.

### **Safe Use of Hazardous Chemicals**

All participants in any hazardous laboratory activity must wear an eye safety device and all schools must provide safe storage and protection of all chemicals and prepare annual inventory reports.

### **Pest/Pesticide Management Plan**

Structural and landscape pests can pose significant problems for people and property. Weeds and infestations can destroy playing fields and playgrounds and more importantly, cause severe allergic reactions. Pesticides can pose risks to people, property, and the environment. It is therefore the policy of the School District to incorporate Integrated Pest Management (IPM) procedures for control of weeds, structural and landscape pests. The objective of this program is to provide necessary pest control while using the least toxic approach to all pests, weeds and infestations.

The District will manage weeds and pests to:

- a) Reduce any potential human health hazard or threat to public safety.
- b) Prevent loss or damage to school structures or property.
- c) Prevent pests from spreading into the community, or to plant and animal populations beyond the site.
- d) Enhance the quality of life for students, staff, and others.

### **Integrated Pest Management (IPM) Coordinator**

An IPM Coordinator will be appointed by the Superintendent of schools. The Coordinator will be responsible for implementing the IPM policy and plan. The coordinator's responsibilities will include the following:

- a) Recording all pest sightings by school staff and students.
- b) Recording all pesticide use and utilizing the least toxic approach.
- c) Meeting with a local pest control expert, such as a pesticide contractor to share information on what pest problems are present in the school.
- d) Assuring that all of the expert's recommendations on maintenance and sanitation are carried out where feasible.
- e) Assuring that pesticide use is done when school is not in session or when the area can be completely secured against access by school staff and students for a standard seventy-two (72) hours, or as required by the pesticide being used.
- f) Evaluating the school's progress in the IPM plan.
- g) Notifying parents, staff and neighbors of any applications of pesticides forty-eight (48) hours before they occur. The IPM Coordinator will serve as the District's Pesticide Representative.

### **Pesticide Use on Common Areas**

Pesticides will not be used on playgrounds, turf, athletic or playing fields, and all lawn areas of the schools, except in an emergency that threatens public health, as determined by the Board of Education. In these common areas where children gather and play, pesticide alternatives will be used whenever possible and effective. The prohibition does not apply to indoor use or the application to building structures.

An exception may be made for emergency applications of pesticide only when approved in advance by the School Board. The Board may consult with the local Health Department on public health related emergency determinations. They may also consult with the Department of Environmental Conservation (DEC) for environmental emergency determinations. Emergency determinations should only be sought for one-time pesticide application in a specific situation, which presents a true emergency. The guidance document from DEC provides clarification on emergency determinations. It can be found at

[http://www.dec.ny.gov/docs/materials\\_minerals\\_pdf/guidancech85.pdf](http://www.dec.ny.gov/docs/materials_minerals_pdf/guidancech85.pdf)

Some types of pesticides and alternatives, those deemed safe in federal regulation, may be allowable on playing fields and playgrounds in certain circumstances. The District will develop regulations governing the use of pesticides and their alternatives on school grounds.

### **Fertilizer Use**

New requirements and restrictions regarding the use of phosphorus fertilizers on school grounds have been developed. Chapter 205 of the Laws of 2010 dictates the requirements which must be adhered to regarding grounds maintenance starting on January 1, 2012.

- a) Fertilizer use is prohibited between December 1 and April 1 annually.
- b) The use of fertilizers is prohibited within twenty (20) feet of any surface water except:
  - 1. Where a continuous natural vegetation buffer, at least ten (10) feet wide, separates lawn and water.
  - 2. Where a spreader guard, deflector shield or drop spreader is used, then the application may not occur within three feet of any surface water.
- c) The use of phosphorus fertilizers are prohibited on lawns or other non-agricultural turf with the following exceptions: (Continued)
  - 1. The use of phosphorus fertilizers are needed to establish a new lawn; or
  - 2. A soil test shows that phosphorus fertilizers are needed for growth.
- d) Fertilizer cannot be used on any impervious surfaces and if such an application occurs, it must be cleaned immediately and legally applied or placed in an appropriate container.

### **Notification**

The District's IPM Coordinator or designated Pesticide Representative will give prior written notice of all pesticide applications to anyone who has asked to receive such notice. The District will also notify parents, students and staff of periodic pesticide applications. The District will maintain a list of those people who wish to receive forty-eight (48) hour notice before pesticide applications and will ensure that a system is developed to deliver such notice in a timely fashion to all affected. The notification system may be by mail or email, and will ensure that a back-up method is available to notify those for whom the regular system is unworkable. The name and contact information for the District Pesticide Representative will be made available to all requesting it.

Sample forms for forty-eight (48) hour prior notification can be obtained at:

[http://www.emsc.nysed.gov/facplan/documents/PesticideNeighborNotificationGuidelineforSchools\\_091001.pdf](http://www.emsc.nysed.gov/facplan/documents/PesticideNeighborNotificationGuidelineforSchools_091001.pdf)

The District must also provide additional written notification to all parents and staff three (3) times per year to inform them of any pesticide applications that have occurred: within ten (10) days of the end of the school year, within two (2) school days of the end of winter recess and within two (2) days of the end of spring recess.

### **Recordkeeping**

Records of pesticide use will be maintained on site for three (3) years. Records will be completed on the day of pesticide use. In addition, pest surveillance records will be maintained to help verify the need for pesticide treatments. Annual reports of any applications must be sent to DEC.

**SUBJECT: EXPOSURE CONTROL PROGRAM**

The District shall establish an exposure control program designed to prevent and control exposure to blood borne pathogens. - a) Guidelines for maintaining a safe, healthy school environment to be followed by staff and students alike.
- b) Written standard operating procedures for blood/body fluid clean-up.
- c) Appropriate staff education/training.
- d) Evaluation of training objectives.
- e) Documentation of training and any incident of exposure to blood/body fluids.
- f) A program of medical management to prevent or reduce the risk of pathogens, specifically hepatitis B and Human Immunodeficiency Virus (HIV).
- g) Written procedures for the disposal of medical waste.
- h) Provision of protective materials and equipment for all employees who perform job-related tasks involving exposure or potential exposure to blood, body fluids or tissues.

**SUBJECT: EMERGENCY DRILLS**

**Fire (Evacuation) Drills**

The administration of each school building shall provide instruction for and training of students, and staff through fire drills, in procedures for leaving the building in the shortest possible time and without confusion or panic.

Fire drills shall be held at least eight (8) times in each school year; eight (8) of these shall be held between September 1 and December 31. At least one-third (1/3) of all such required drills shall be through use of the fire escapes on buildings where fire escapes are provided. At least one (1) of the eight (8) drills shall be held during each of the regular lunch periods, or shall include special instruction on the procedures to be followed if a fire occurs during a student's lunch period.

At least two (2) additional drills shall be held during summer school in buildings where summer school is conducted and one (1) of these drills shall be held during the first week of summer school.

After-School Programs

The Building Principal or his/her designee shall require those in charge of after-school programs, attended by any individuals unfamiliar with the school building, to announce at the beginning of such programs the procedures to be followed in the event of an emergency.

**Lock-Down Drills**

Lock-down drills shall provide instruction for and training of students and staff to respond to the highest level of threat with the most urgent action and the least margin for error. The goal is for schools to practice their ability to put the building into a protective posture as quickly as possible, including clearance of hallways, locking of doors and staff and students taking positions out of sight.

Lock-down drills shall be held at least four (4) times throughout the school year.

## **Evacuation or Shelter in Place**

### Bomb Threats

A bomb threat, even if later determined to be a hoax, is a criminal action. No bomb threat should be treated as a hoax when it is first received. The school has an obligation and responsibility to ensure the safety and protection of the students and other occupants upon the receipt of any bomb threat. This obligation must take precedence over a search for a suspect object. Prudent action is dependent upon known information about the bomb threat - location, if any; time of detonation; etc. If the bomb threat is targeted at the school parking lot or the front of the school, building evacuation may not be an appropriate response. If the bomb threat indicates that a bomb is in the school, then building evacuation is necessary unless the building has been previously inspected and secured in accordance with State Education Department Guidelines. Specific procedures can be found in the building level school plan, as required by project Safe Schools Against Violence in Education (SAVE).

The decision to evacuate a building or to take shelter is dependent upon information about where the bomb is placed and how much time there is to reach a place of safety. Prudent action dictates that students and other occupants be moved from a place of danger to a place of safety. Routes of egress and evacuation or sheltering areas must be thoroughly searched for suspicious objects before ordering an evacuation. Failure to properly search evacuation routes before an evacuation takes place can expose students and staff to more danger than remaining in place until the search has taken place. Assistance is available from local police agencies and the New York State Police to train staff to check evacuation routes.

### Police Notification and Investigation

A bomb threat to a school is a criminal act, which is within the domain and responsibility of law enforcement officials. Appropriate State, county, and/or local law enforcement agencies must be notified of any bomb threat as soon as possible after the receipt of the threat. Law enforcement officials will contact, as the situation requires, fire and/or county emergency coordinators according to the county emergency plan.

Therefore, the building administrator or designee is to notify local law enforcement officials and follow established procedures to move all occupants out of harm's way.

### Implementation

The Board of Education directs the Superintendent or his/her designee to develop administrative regulations to implement the terms of this policy. Additionally, such regulations are to be incorporated in the District-wide School Safety Plan and the building level school safety plan, with provisions to provide written information to all staff and students regarding emergency procedures by October 1 of each school year, an annual drill to test the emergency response procedures under each of its building level school safety plans; and the annual updating of the District-wide and building level school safety plans, by July 1, as mandated pursuant to law and/or regulation.

## **Bus Emergency Drills**

The Board of Education directs the administration to conduct a minimum of three (3) emergency drills to be held on each school bus during the school year. The first drill is to be conducted during the first seven (7) days of school, the second drill between November 1 and December 31, and the third drill between March 1 and April 30. No drills shall be conducted when buses are on routes.

Students who ordinarily walk to school shall also be included in the drills. Students attending public and nonpublic schools who do not participate in regularly scheduled drills shall also be provided drills on school buses, or as an alternative, shall be provided classroom instruction covering the content of such drills.

Each drill shall include instruction in all topics mandated by the Education Law and the Commissioner's Regulations and shall include, but will not be limited to, the following:

- a) Safe boarding and exiting procedures with specific emphasis on when and how to approach, board, disembark, and move away from the bus after disembarking;
- b) The location, use and operation of the emergency door, fire extinguishers, first aid equipment and windows as a means of escape in case of fire or accident;

- c) Orderly conduct as bus passengers.

Instruction on Use of Seat Belts

When a school bus is equipped with seat safety belts, the District shall insure that all students who are transported on such school bus owned, leased or contracted for by the District or BOCES shall receive instruction on the use of seat safety belts. Such instruction shall be provided at least three (3) times each year to both public and nonpublic school students who are so transported and shall include, but not be limited to:

- a) Proper fastening and release of seat safety belts;
- b) Acceptable placement of seat safety belts on students;
- c) Times at which the seat safety belts should be fastened and released; and
- d) Acceptable placement of the seat safety belts when not in use.

**SUBJECT:     ANTHRAX AND OTHER BIOLOGICAL TERRORISM: PREVENTION PROTOCOLS/PROTOCOLS FOR MAIL HANDLING**

The School District shall assess and review their protocols for handling mail or packages. Common sense and care should be used in inspecting and opening mail or packages. Whenever feasible, the opening of mail should be limited to one (1) individual staff member in an area that is separate from other accessible areas within the school building, including the Main Office.

Additionally, precautions will be taken for those staff members responsible for handling letters or packages such as making available protective gloves to be worn when handling mail and providing appropriate training and protocols for the handling of mail and identifying suspicious envelopes or packages.

The building administrator should limit the area and persons exposed to the threat. Immediately after identifying the threat, the building administrator/designee shall notify the Superintendent/designee, dial 911 and/or the local law enforcement authorities according to the procedures identified in the applicable School Safety Plan (whether District-wide or building-level plans). The local Federal Bureau of Investigation (FBI) field office and the county health department will also be notified, if not otherwise provided for in the applicable School Safety Plan.

As far as possible, the school will attempt to limit the area and the persons exposed to the threat and will not allow anyone other than qualified emergency personnel to enter. Custodial and maintenance personnel will follow established procedures for quickly shutting down the building(s) heating/air conditioning/and ventilation systems if possible and as may be deemed necessary.

Furthermore, the building administrator/designee shall, as soon as possible, make a list of all persons who have been identified as having actual contact with the powder or other suspicious element, such as anthrax, for investigating authorities.

Administration shall review and revise, as appropriate, their school safety plans; and provide information regarding applicable

safety prevention and response procedures to all staff.

All threats to school buildings and/or its occupants shall be treated seriously. All threats shall be treated as criminal actions and measures shall be taken to preserve the evidence.

**SUBJECT: STUDENT PRIVACY PROTECTION UNDER ESSA AND PPRA AND FERPA**

In compliance with the Protection of Pupil Rights Amendment (PPRA), the Every Student Succeeds Act (ESSA) the Family Educational Rights and Privacy Act (FERPA) and any and all other such state and federal mandates concerning student privacy, the School District is committed to protecting the rights and privacy interests of parents/guardians and students to the fullest extent possible.

The Superintendent of Schools is charged with administering such mandates in a manner that achieves compliance while fully empowering parents/guardians and students to protect their privacy and in a manner least disruptive or burdensome to effective administration of District schools.

**Military Recruitment and Institutions of Higher Education**

Pursuant to mandates of the Every Student Succeeds Act (ESSA), the School District is required, under penalty of losing federal aid, to disclose to Military Recruiters and institutions of higher learning, upon request, the names, addresses, and telephone numbers of high school students. The mandate requires the District to notify parents of their right and the right of their child to request that the District not release such information without prior written consent.

It is the objective of the Board of Education to ensure that the parents and students fully understand the responsibility placed upon them to affirmatively act, in a timely fashion, to protect their right to privacy, if they so choose.

The Superintendent of Schools is charged with the responsibility to comply with this mandate in a manner designed to fully empower parents/guardians and students. Such compliance program shall be designed to:

- a) Clearly articulate that personal information will be released to Military Recruiters and/or institutions of higher education unless parents and/or students affirmatively choose to "opt out" in writing;
- b) Clearly articulate that privacy protection require timely action and highlight language which informs that private information will be shared unless the form is returned by the stated date;
- c) Provide specific check-off opportunities for opting out (personal information will NOT be shared) in each category of (1) institutions of higher education of higher learning and (2) Military Recruiters;
- d) Provide for both parent and student signatures;
- e) Include a copy of this policy with notice.

**Surveys, Physical Exams, and other Disclosure Options**

The Superintendent of School shall establish regulations consistent with PPRA and this policy for the administration of surveys funded by the USDOE and other sources.

Unless mandated/authorized in accordance with Federal or State law and/or regulations, it is policy of the Board of Education, to **not permit** the collection, disclosure, or use of personal information (the term "*personal information*" is defined as individually identifiable information including a student's or parent/guardian's first and last name; home address; telephone number; social security number; email address(es); health information; test scores; evaluations; academic records; or student directory information defined under FERPA) collected from students for the purpose of marketing or for selling that information (or otherwise providing that information to others for that purpose), *unless otherwise exempted pursuant to law*. Questions regarding the collection, disclosure, or use of personal information collected from students for such marketing purposes may be referred to the school attorney as deemed necessary by the Superintendent/designee.

No third party in authorized possession of personal information may use those data for any purpose beyond those expressly enumerated by the Superintendent/designee or defined by law. Requests for additional usage of those data must be approved by the Superintendent/designee.

The Protections of Pupil Rights Amendment (PPRA) governs the administration to students for a survey, analysis, or evaluation that concerns one or more of the following **eight protected areas**:

- a) Political affiliations or beliefs of the student or the student's parent/guardian;
- b) Mental or psychological problems of the student or the student's family;
- c) Sex behavior or attitudes;
- d) Illegal, anti-social, self-incriminating or demeaning behavior;
- e) Critical appraisals of other individuals with whom respondents have close family relationships;
- f) Legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers; g) Religious practices, affiliations, or beliefs of the student or student's parent/guardian; or
- h) Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program). Parental Authorization Required for Participation PPRA also concerns marketing surveys and other areas of student privacy, parental access to information, and the administration of certain physical examinations to minors.

If a child's participation is sought in any of these activities, the District shall notify the parents/guardians and obtain written authorization for each such participation in the eight protected areas listed above.

### **Annual Parental Notification of Policies**

The School District shall provide for reasonable notice of the adoption or continued use of this policy directly to the parents/guardians of students enrolled in the District. At a minimum, the District shall provide such notice at least annually, at the beginning of the school year, and within a reasonable period of time after any substantive change in this policy.

These requirements do not apply to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating or providing educational products or services for, or to, students or educational institutions, such as the following:

- a) Book clubs, magazines, and programs providing access to low-cost literary products;
- b) Curriculum and instructional materials used by elementary schools and secondary schools;
- c) Tests and assessments used by elementary schools and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students (or to generate other statistically useful data for the purpose of securing such tests and assessments) and the subsequent analysis and public release of the aggregate data from such tests and assessments;
- d) The sale by students of products or services to raise funds for school-related educational related activities;
- e) Student recognition programs.

### **Student Directory Information**

The District shall publish an annual public notice informing parents or eligible students of their right to refuse the release of student directory information and indicating a time period for their response. Following such public notice and a reasonable response period, the District may, in accordance with stipulations set forth in this policy, release such information to an outside group without individual consent.

In accordance with the Family Educational Rights and Privacy Act (FERPA), the District defines student directory information as the following: name; address; telephone listing; date and place of birth, enrollment status; major field of study; grade level; participation in officially recognized activities and sports; weight and height (if members of athletic teams), dates of attendance; honors, degrees and awards received; electronic mail address; photograph; the name of the education agency or institution most recently previously attended by the student; and photographic/digital images, voiceprints, video and streaming video for instructional and school purposes.

## **SUBJECT: STUDENT RECORDS: ACCESS AND CHALLENGE**

### **Student Records**

The School District shall comply with the provisions of the Family Educational Rights and Privacy Act of 1974 (FERPA). Under its provisions, "parents/guardians and noncustodial parent(s), whose rights are not limited by court order or formal agreement, of a student under eighteen (18), or a student who is eighteen (18) years of age or older or who is attending an institution of post-secondary education, have a right to inspect and review any and all official records, files, and data, including all material that is incorporated into each student's cumulative record folder and intended for school use or to be available to parties outside the school or School System and specifically including, but not necessarily limited to, identifying data; academic work completed; level of achievement (grades, standardized achievement test scores); attendance data; scores on standardized intelligence, aptitude, and psychological tests; interest inventory results; health data; family background information; teacher or counselor ratings and observations; and verified reports of serious or recurrent behavior patterns."

### **Access to Student Records**

The Board directs that administrative regulations and procedures be formulated to comply with the provisions of federal law relating to the availability of student records. The purpose of such regulations and procedures shall be to make available to the parents/guardians of students and noncustodial parent(s) whose rights are not limited by court order or formal agreement, or students who are eighteen (18) years of age or older or who are attending an institution of post-secondary education, student records, and files on students, and to ensure the confidentiality of such records with respect to third parties.

Under FERPA, unless otherwise exempted in accordance with law and regulation, the District may release personally identifiable information contained in student records only if it has received a "signed and dated written consent" from a parent or eligible student. Signed and dated written consent may include a record and signature in electronic form provided that such signature:

- a) Identifies and authenticates a particular person as the source of the electronic consent; and
- b) Indicates such person's approval of the information contained in the electronic consent.

### **Challenge to Student Records**

Parents/guardians of a student under the age of eighteen (18), or a student who is eighteen (18) years of age or older or who is attending an institution of post-secondary education, shall have an opportunity for a hearing to challenge the content of the school records, to ensure that the records are not inaccurate, misleading, or otherwise in violation of the privacy or other rights of students, and to provide an opportunity for the correction or deletion of any such inaccurate, misleading, or otherwise inappropriate data contained therein.

### **Education Records**

The term "education records" is defined as all records, files, documents and other materials containing information directly related to a student; and maintained by the education agency or institution, or by a person acting for such agency or institution (34 Code of Federal Regulations (CFR) Section 99.3). This includes all records regardless of medium, including, but not limited to, handwriting, videotape or audiotape, electronic or computer files, film, print, microfilm, and microfiche.

In addition, for students who attend a public school district, all records pertaining to services provided under the Individuals with Disabilities Education Act (IDEA) are considered "education records" under FERPA. As such, they are subject to the confidentiality provisions of both Acts.

Personal notes made by teachers or other staff, on the other hand, are not considered education records if they are:

- a) Kept in the sole possession of the maker;
- b) Not accessible or revealed to any other person except a temporary substitute, and
- c) Use only as a memory aid.

Records created and maintained by a law enforcement unit for law enforcement purposes are also excluded.

### **Release of Information to Another Educational Institution**

The District may disclose any and all educational records, including disciplinary records and records that were created as a result of a student receiving special education services under Part B of IDEA, to another school or postsecondary institution at which the student seeks or intends to enroll. Parental consent is not required for transferring education records; however, the school's annual FERPA notification should indicate that such disclosures have been made. In the absence of information about disclosures in the

annual FERPA notification, school officials must make a reasonable attempt to notify the parent about the disclosure, unless the parent initiated the disclosure. Additionally, upon request, schools must provide a copy of the information disclosed and an opportunity for a hearing.

**SUBJECT: CONFIDENTIALITY OF COMPUTERIZED INFORMATION**

The development of centralized computer banks of educational data gives rise to the question of the maintenance of confidentiality of such data while still conforming to the New York State Freedom of Information Law. The safeguarding of confidential data from inappropriate use is essential to the success of the District's operation. Access to confidential computerized data shall be limited only to authorized personnel of the School District.

It shall be a violation of the District's policy to release confidential computerized data to any unauthorized person or agency. Any employee who releases or otherwise makes improper use of such computerized data shall be subject to disciplinary action.

However, if the computerized information sought is available under the Freedom of Information Law and can be retrieved by means of existing computer programs, the District is required to disclose such information.

**SUBJECT: RELEASE OF INFORMATION TO THE NONCUSTODIAL PARENT**

The District may presume that the noncustodial parent has the authority to request information concerning his/her child and release such information upon request. If the custodial parent wishes to limit the noncustodial parent's access to the records, it would be his/her responsibility to obtain and present to the school a legally binding instrument that prevents the release of said information. **SUBJECT: CONCUSSION MANAGEMENT POLICY**

New Paltz Central School District has always taken the approach that student safety is of the highest priority.

The Board of Education and the New Paltz School District recognizes that concussions and head injuries are commonly reported injuries in children and adolescents who participate in sports and recreational activities and can have serious consequences if not managed carefully. Therefore, the District adopts the following policy to support the proper evaluation and management of head injuries.

Concussion is a mild traumatic brain injury. Concussion occurs when normal brain functioning is disrupted by a blow or jolt to the head. Recovery from a concussion will vary. Avoiding re-injury until fully recovered are the cornerstones of proper concussion management.

While district staff will exercise reasonable care to protect students, head injuries may still occur. Physical education teachers, coaches, nurses, and other appropriate staff will receive training to recognize the signs, symptoms and behaviors consistent with a

concussion. Any student exhibiting those signs, symptoms, or behaviors while participating in a school sponsored class, recess, extracurricular activity, or intramural/interscholastic athletic activity **shall be immediately removed** from the game or activity and be evaluated as soon as possible by an appropriate health care professional. The coach, school nurse, or other District employee in charge of or supervising the activity will notify the student's parents or guardians.

If a student sustains a concussion at a time other than when engaged in a school-sponsored activity, the district requires the parent/legal guardian to report the condition to the appropriate school nurse so that the district can support the proper management of the condition.

In the event of any concussion, regardless of where it was sustained, **the student shall not return to school or activity until he/she is symptom free for at least 24 hours**, has been evaluated by and provides written authorization from an appropriate health care professional. The school's chief medical officer or their designee will have the final decision on return to activity including recess, physical education class and after-school sports. Any student who continues to exhibit signs or symptoms upon return to activity must be removed from play and reevaluated by his/her health care provider.

The district will establish a concussion management team which may consist of, but not be limited to the Athletic Director, School Physician, School Nurse, and representatives from the administration, faculty and coaching staff. Any changes or modifications to the policy and procedures will be reviewed with the athletic department staff and appropriate school personnel verbally and in writing.

Those who come in contact with our students including but not limited to school nurses, physical education teachers, coaches, and athletic trainers will be required to complete biennially a course related to recognizing the symptoms of a mild traumatic brain injury, and monitoring and seeking proper medical treatment for pupils who suffer one. The school district will provide education to the public on mild traumatic brain injury in student handbooks, athletic codes of conduct and on the website.

The Superintendent, in consultation with appropriate district staff, including the chief school medical officer, will develop regulations and protocols to guide the return to activity.

# The New Paltz Central School District Code of Conduct

## Approved by the Board of Education June 2, 2021

### I. INTRODUCTION

The New Paltz Board of Education hopes that our students will become passionate learners who are empowered to achieve their dreams and act as good citizens of the world.

To achieve that goal, the Board strives to provide safe schools for all students regardless of actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender or sex and prohibit denigration of a student’s physical size/shape where all members of the school community behave with personal responsibility and mutual respect. The Board recognizes that to maintain such an environment, we must all live within certain boundaries and that inappropriate action by one person can infringe upon the rights of another. When conflicts arise, we are committed to nonviolent resolutions that encourage personal growth, responsibility and that treat each individual with respect and dignity.

This Code of Conduct describes the behavior that the Board expects from all members of the school community, identifies interventions if those standards are not met, and establishes procedures to ensure that discipline, when necessary, is prompt, fair and effective.

**Attachment A** defines the terms used in this Code.

### II. STUDENT RIGHTS AND RESPONSIBILITIES

All members of the school community should respect the rights and welfare of others, act ethically, and care for school facilities and equipment. The Board expects respectful behavior and civil conduct on all school property, including buses, and at all school functions, whether on or off school property.

The Board will not tolerate:

- Possession or use of weapons or illegal materials.
- Possession, distribution, use, or being under the influence of alcohol or illegal substances (including synthetic drugs).
- Behaviors that infringe on the physical, mental or emotional well-being of others, or that disrupt the safe and supportive educational environment.
- Intimidation, harassment or discrimination on the basis of, for example, actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender or sex, and prohibit denigration of a student’s physical size/shape or for any other reason.

- Violation of any federal, state or local law, or Board policy.

**Attachment B** describes the specific expectations for staff, parents/legal guardians and visitors. **Attachment C** describes the specific expectations for students. **Attachment D** describes interventions for infractions of the Code.

### IV. DIGNITY FOR ALL STUDENTS ACT

The Board of Education recognizes that a learning environment that is safe and supportive can increase student attendance and improve academic achievement. A student’s ability to learn and achieve high academic standards, and a school’s ability to educate students, is compromised by incidents of discrimination or harassment, including but not limited to bullying, taunting, hazing and intimidation. The District will strive to create an environment free of discrimination and harassment and will foster civility in the schools to prevent and prohibit conduct which is inconsistent with the District’s educational mission.

The District condemns and prohibits all forms of discrimination and harassment of students based on actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender or sex and prohibit denigration of a student's physical size/shape by school employees or students on school property or at school-sponsored events and activities that take place on or off of school property. In addition, any act of discrimination or harassment outside of school-sponsored events, including cyberbullying, which can reasonably be expected to materially and substantially disrupt the educational process where it is foreseeable that the conduct might reach school property, may be subject to discipline. See **Attachment E - DASA Policy**

## V. DRESS CODE

All students and staff should show healthy and respectful attention to their personal cleanliness and clothing. Adults should model and reinforce acceptable dress for students. **Attachment F** lists the specific dress code rules.

## VI. REPORTING CODE VIOLATIONS

Each individual in the school community has the responsibility to report code violations that he or she witnesses. Violations involving weapons, alcohol or illegal substances (including synthetic drugs such as synthetic cannabinoids) must be reported immediately. Students should report violations to the building principal or a school counselor, social worker, teacher or any adult they trust. Adults should report violations in accordance with District Policy 7310 When code violations break not only school policy but the law, the school principal or designee must promptly notify the appropriate law enforcement agency.

## VII. DISCIPLINE

The Board believes that the best discipline is self-imposed. Adults should model self-discipline and help students accept responsibility for their actions.

Disciplinary action should be used only when necessary and in accordance with applicable contracts, laws, regulations and policies. Such actions should not just punish, but should encourage personal growth and individual responsibility. Staff members authorized to impose discipline should act in a prompt, fair and problem-solving manner.

School personnel administering student discipline should consider:

- The student's age, and prior disciplinary record.
- The nature and circumstances of the offense.
- The effectiveness of any prior discipline.
- Information from parents/legal guardians, teachers or others, as appropriate.
- Other extenuating circumstances.

**Interventions.** For students, these can range from an oral warning to permanent school suspension.

Disciplinary action for staff will conform to law and applicable contracts. Visitors will be asked to leave the building. **Attachment D** more fully describes the possible interventions.

**Procedures.** All disciplinary action should adhere to District contracts, regulations and policies. Students accused of misconduct should be told by authorized personnel of the nature of the accusation. If necessary, authorized school staff should investigate the facts surrounding the alleged misconduct. Students will have an opportunity to tell their version of the events. Depending on the nature of the misconduct, students may be entitled to additional rights before an intervention is imposed. **Attachment G** more fully describes disciplinary procedures.

**Minimum suspensions.** A student who brings a weapon to school (including but not limited to a weapon under the Gun Free Schools Act) will be suspended for at least one calendar year, unless the Superintendent modifies the penalty based upon the student's age, prior disciplinary record, the belief that other forms of discipline may be more effective, other relevant information from parent(s)/legal guardian(s), teacher(s) or others, or other extenuating circumstances. A student who commits any other violent act or who repeatedly and substantially disrupts the educational process will be suspended for at least five days, unless the Superintendent modifies the penalty, based upon the factors listed above. **Attachment H** more fully describes minimum suspensions.

**Alternative instruction for disciplined students.** The District will provide immediate, alternative instruction to all students removed from classes by teachers or suspended from school.

**Referrals.** Students may be referred for counseling, a Person in Need of Supervision (PINS) petition through Family Court, or juvenile delinquency proceedings. **Attachment I** describes when students may be referred to such counseling or proceedings.

**Disciplining students with disabilities.** Students with known or suspected disabilities who are determined to have committed an act of misconduct may be referred to the District's Committee on Special Education (CSE). A student will not be punished if the CSE determines that the conduct stems from the student's disability. But when the CSE determines that discipline is allowed, it will conform to the federal and state laws and regulations governing the discipline of students with disabilities. Such students will not receive harsher punishments than students who are not disabled. **Attachment J** describes the specific policies for disciplining students with disabilities.

**Use of physical force.** Corporal, or physical punishment, is strictly forbidden. However, reasonable physical force may be used to:

- Protect oneself or others from physical injury.
- Protect another student, teacher or any other person from physical injury.
- Protect the property of the school or of others.
- Restrain or remove a disruptive or violent student who refuses to refrain from disruptive or violent acts where methods not involving the use of physical force cannot be reasonably employed to achieve the aforementioned purposes.

The District will file reports on incidents of the use of physical force with the Commissioner of Education in accordance with Commissioner's Regulations. The Building Principal or designee is responsible for enforcing these rules, as described in **Attachment K**.

## **VIII. STUDENT SEARCHES AND INTERVIEWS**

**Searches.** The superintendent, building principals and assistant principals, may search students and their possessions for illegal matter, matter that threatens the health, safety, welfare or morals of fellow students or matter that violates this code, if there is reasonable individualized suspicion to believe a student is violating a law or this code of conduct. If a search is warranted, it must be reasonable in scope.

School computers, desks, lockers and storage spaces are school property and may be opened and inspected by school officials from time to time without prior notice or student consent, but mindful of the student's rights and the nature of the school as an educational institution.

**Questioning.** School officials may question students about possible violations of school rules. The student's parents/legal guardians may be contacted, however, there is no right for a student's parents/legal guardians to be contacted while school officials are investigating violations of school rules.

Law enforcement may enter the schools if a crime has been committed on school property, if they have an arrest or search warrant, or if they have been invited by school officials. Prior to questioning students, law enforcement must give students their "Miranda rights" and school administrators or law enforcement must diligently try to notify the student's parents/legal guardians and give them the opportunity to be present.

Child Protective Services (CPS) may interview students on school property without notification to the parents/legal guardians regarding allegations of suspected child abuse, maltreatment or neglect (including educational neglect).

**Attachment L** more fully describes the rules governing student searches and questioning.

## **IX. SCHOOL VISITORS**

The Board encourages parents/legal guardians and other community members to visit our schools to observe the work of students, teachers and other staff. All visitors must first report to the office and obtain authorization for being on school premises. The building principal or his or her designee is responsible for all persons in the building and on the grounds. **Attachment M** more fully describes the policy governing school visitors.

## **X. PUBLIC CONDUCT ON SCHOOL PROPERTY**

The District is committed to providing an orderly, respectful and safe environment that is conducive to learning. All persons on school property or attending a school function, whether on or off of school property, shall conduct themselves in a respectful and orderly manner.

No person, either alone or with others, while on school property or attending a school function, shall:

- Intentionally injure or threaten to injure any person.
- Intentionally damage or destroy school property or the property of others, or remove or use such property without authorization.
- Disrupt the orderly conduct of classes, school programs and activities.
- Distribute or wear materials that are obscene, advocate illegal action, appear libelous, obstruct the rights of others or are disruptive to the school program.
- Intimidate, harass or discriminate against any person on the basis of, for example, actual or perceived race, color, creed, weight, national origin, ethnic group, religion, religious practice, age, gender, sexual orientation or disability, prohibit denigration of a student's physical size/shape or any other discriminatory reason.
- Harass, which includes a sufficiently severe action or a persistent, pervasive pattern of actions or statements (verbal, by electronic or other means), an identifiable individual or group which is intended to be, or which a reasonable person would perceive as ridiculing or demeaning.
- Intimidate, which includes engaging in actions or statements that put an individual in fear of bodily harm, including threats.
- Enter any school property without authorization or remain in any school premises after it is closed.
- Obstruct the free movement of any person.
- Violate traffic laws, parking regulations or other vehicle restrictions.

- Possess, consume, solicit a sale, sell, buy, distribute or exchange alcoholic beverages, any form of tobacco including but not limited to, cigarettes, smokeless tobacco, e-cigarettes and electronic smoking devices, or controlled substances (including but not limited to synthetic drugs such as synthetic cannabinoids), or be under the influence of the above.
- Possess, display or use weapons (unless specifically authorized by the District).
- Loiter, gamble, litter or spit.
- Refuse to comply with reasonable directives of school officials while they are performing their duty.
- Willfully incite others to commit any acts prohibited by the Code of Conduct.

## **XI. DISSEMINATION AND REVIEW OF CODE**

The school district will educate the community about this Code of Conduct by:

- Providing the code to all students and parents/legal guardians at the beginning of each school year.

## DIGNITY FOR ALL STUDENTS: PROHIBITING DISCRIMINATION AND HARASSMENT OF STUDENTS

The District seeks to create an environment free of harassment, bullying, and discrimination; to foster civility in its schools; and to prevent conduct that is inconsistent with its educational mission. The District, therefore, prohibits all forms of harassment and bullying of students by employees or other students on school property and at school functions. The District further prohibits discrimination against students, including, but not limited to, discriminatory acts based on a person's actual or perceived race, color, weight, body type national origin, ethnic group, religion, religious practice, disability, sex, sexual orientation, gender, and gender presentation by school employees or other students. In addition, other acts of harassment, bullying, or discrimination that can reasonably be expected to materially and substantially disrupt the education process may be subject to discipline or other corrective action.

### Dignity Act Coordinators

In each of its schools, the District will designate at least one employee holding licenses or certifications as required by the Commissioner of Education to serve as the Dignity Act Coordinator (DAC). Each DAC will be thoroughly trained to handle human relations in the areas of race, color, weight, body type, national origin, ethnic group, religion, religious practice, disability, sexual orientation, sex, gender, and gender presentation, and sex. Training will also be provided for DACs which addresses: the social patterns of harassment, bullying, and discrimination, including, but not limited that to, those acts based on a person's actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sex, sexual orientation, gender, and gender presentation; the identification and mitigation of harassment, bullying, and discrimination; and strategies for effectively addressing problems of exclusion, bias, and aggression in educational settings. All DAC appointments will be approved by the Board.

The District will widely disseminate the name, designated school, and contact information of each DAC to all school personnel, students, and parents/legal guardians by:

- a) Listing it in the *Code of Conduct*, with updates posted on the District website; and
- b) Including it in the *Code of Conduct's* plain language summary provided to all parents/legal guardians to students before the beginning of each school year; and
- c) Providing it to parents/legal guardians in at least one District or school mailing or other method of distribution, including, but not limited to, electronic communication and/or sending information home with each student. If the information changes, parents/legal guardians will be notified in at least one subsequent District or school mailing, or other method of distribution as soon as practicable thereafter; and
- d) Posting it in highly visible areas of school buildings; and
- e) Making it available at the District and school-level administrative offices.

If a DAC vacates their position, the District will immediately designate an interim DAC, pending approval from the Board within thirty (30) days. In the event a DAC is unable to perform their duties for an extended period of

time, the District will immediately designate an interim DAC, pending the return of the previous individual to the position.

### **Training and Awareness**

Each year, all employees will be provided with training to promote a supportive school environment that is free from harassment, bullying, and discrimination, and to discourage and respond to incidents of harassment, bullying, and discrimination. This training may be provided in conjunction with existing professional development, will be conducted consistent with guidelines approved by the Board, and will:

- a) Raise awareness and sensitivity to potential acts of harassment, bullying, and discrimination;
- b) Address social patterns of harassment, bullying, and discrimination and the effects on students;
- c) Inform employees on the identification and mitigation of harassment, bullying, and discrimination;
- d) Enable employees to prevent and respond to incidents of harassment, bullying, and discrimination;
- e) Make school employees aware of the effects of harassment, bullying, cyberbullying, and discrimination on students;
- f) Provide strategies for effectively addressing problems of exclusion, bias, and aggression;
- g) Include safe and supportive school climate concepts in curriculum and classroom management; and
- h) Ensure the effective implementation of school policy on conduct and discipline.

Rules against harassment, bullying, and discrimination will be included in the *Code of Conduct*, publicized District-wide, and disseminated to all staff and parents/legal guardians. Any amendments to the *Code of Conduct* will be disseminated as soon as practicable following their adoption. The District will provide new employees with a complete copy of the current *Code of Conduct* upon beginning their employment, and distribute an age-appropriate summary to all students at a school assembly at the beginning of each school year.

### **Reports and Investigations of Harassment, Bullying, and/or Discrimination**

The District encourages and expects students who have been subjected to harassment, bullying, or discrimination; parents/legal guardians whose children have been subjected to this behavior; other students who observe or are told of this behavior; and all District staff who become aware of this behavior to timely report it to the principal, superintendent, DAC, or designee.

The principal, superintendent, DAC, or designee will lead or supervise a timely and thorough investigation of all reports of harassment, bullying, and discrimination. The DAC or other individual conducting the investigation, may seek the assistance of the District's Civil Rights Compliance Officer in investigating, responding to, and remedying complaints. The findings of the initial investigation may be appealed to the superintendent in writing, by either the target or the accused within ten (10) days of receipt of the findings. If the superintendent conducted the initial investigation the findings may be appealed to the Board of Education. The superintendent's findings may be appealed to the Board of Education, by either the target or the accused within ten (10) days of receipt of the superintendent's findings. The Board's findings may be appealed to the Commissioner of Education by either the target or the accused within thirty (30) days of receipt of the Board's findings.

Where necessary, the District will take immediate steps to protect the person harmed pending the final outcome of an investigation, including academic accommodations and other interim measures. These measures may include altering academic or bus schedules for either the person harmed or the alleged person who caused the harm, changing locker locations, allowing the complainant to withdraw from or retake a class without penalty, providing an escort to ensure that the person harmed can move safely between classes or other activities, and providing academic support (e.g., tutoring).

In the event any investigation verifies that harassment, bullying, and/or discrimination occurred, the District will take prompt action reasonably calculated to end it, to eliminate any hostile environment, to create a more positive school culture and climate, to prevent recurrence of the behavior, and to ensure the safety of the student or students against whom the harassment, bullying, or discrimination was directed.

The superintendent, principal, DAC, or designee will notify the appropriate local law enforcement agency when there is a reasonable belief that an incident of harassment, bullying, or discrimination constitutes criminal conduct.

The District will timely collect information related to incidents involving harassment, bullying, and discrimination; provide required internal reports; and complete and submit any required report to the State Education Department in the manner and within the timeframe specified by the Commissioner.

### **Prohibition of Retaliatory Behavior (Whistle-Blower Protection)**

Any person who has reasonable cause to suspect that a student has been subjected to harassment, bullying, or discrimination by an employee or student, and who acts reasonably and in good faith in reporting it to school officials, the Commissioner, or law enforcement authorities, or who otherwise initiates, testifies, participates, or assists in any formal or informal proceedings, will have immunity from any civil liability that may arise from making that report, or from initiating, testifying, participating, or assisting in those proceedings. The District also prohibits any retaliatory behavior directed against any complainant, victim, witness, or any other individual who participated in the reporting or investigation of an incident of alleged harassment, bullying, or discrimination.

### **Publication of District Policy**

At least once during each school year, all District employees, students, and parents/legal guardians will be provided with a written or electronic copy of this policy, or a plain-language summary of it. The policy or summary will include information relating to how students, parents/legal guardians, and District employees may report harassment, bullying, or discrimination. Additionally, the District will maintain a current version of this policy on its website at all times.

School staff shall be trained and able to use body positive language to explain the Dress Code and to address violations. To ensure effective and equitable enforcement of the Dress Code, school staff shall enforce the Dress Code consistently and shall not have the discretion to vary the requirements in ways that lead to discriminatory - impact. Any student found to have violated the Dress Code may be asked to put on their own alternative clothing, if available, or may be given temporary school clothing to be in compliance with the Dress Code for the remainder of the day. If necessary, students' parents/legal guardians may be called to bring alternative clothing for the student to wear.

It is essential that students not be shamed or required to display their bodies in front of others in school.

Shaming includes but is not limited to:

- Kneeling or bending over to check attire fit
- Measuring straps or skirt length
- Asking students to account for their attire in front of others
- Calling out students in open spaces in front of others about perceived Dress Code violations

- Accusing students of distracting other students with their clothing

Students at the Middle/High School level should contact the Principal, Assistant Principal, or any member of the Counseling staff to discuss any concerns related to the Dress Code.

Students at the Elementary schools should contact the Principal, Coordinator of Student Support Services, the Social Worker or School Psychologist to discuss any concerns related to the Dress Code.

# ATTACHMENT G: PROCEDURES

Students who are to receive interventions other than an oral warning, written referral or written notification to their parents/legal guardians are entitled to additional rights before the consequence is imposed. These additional rights are explained below:

- 1) **Detention:** Teachers, building administrators, principals and the Superintendent may impose after-school detention where removal from the classroom or suspension would be appropriate. Detention will be imposed only after the student’s parent/legal guardian has been notified to confirm that there is no parental objection and the student has appropriate transportation home following detention.
- 2) **Suspension from Transportation<sup>2</sup>:** Bus drivers should inform building principals and the director of transportation about any serious behavior problems. In such circumstances, the principal or transportation director can suspend the student’s bus privileges, and the student’s parents/legal guardians will be responsible for providing or arranging timely and safe transportation to and from school. If the parents/legal guardians cannot provide such transportation, the district will make appropriate arrangements to provide for the student’s education.

A student subjected to a suspension from transportation is not entitled to a full hearing pursuant to Education Law

§3214 but the student and/or the student’s parents/legal guardians will be provided with a reasonable opportunity for an informal conference with the district official imposing the suspension from transportation to discuss the conduct and the consequence prior to the suspension being imposed.

- 3) **Suspension from athletic participation, extra-curricular activities and other privileges:** A student subjected to a suspension from athletic participation, extra-curricular activities or other privileges (including but not limited to class trip, prom, graduation) is not entitled to a full hearing pursuant to Education Law §3214. However, the student and/or the student’s parents/legal guardians will be provided with a reasonable opportunity for an informal conference with the district official imposing the suspension to discuss the conduct and the *consequence* involved prior to the suspension being imposed.

- 4) **In-School Suspension:** The Board recognizes the school must balance the need of students to attend school and the need for order in the classroom. Therefore, the Board authorizes building principals and the superintendent to place students, who would otherwise be suspended from school as the result of a Code of Conduct violation in, “in-school suspension.” The in-school suspension room will be under the supervision of a certified teacher.

A student subjected to an “in-school suspension” is not entitled to a full hearing pursuant to Education Law §3214. However, the student and/or the student’s parents/legal guardians will be provided with a reasonable opportunity for an informal conference with the district official imposing the in-school suspension to discuss the conduct and the consequence involved prior to the suspension being imposed.

- 5) **Teacher removal of disruptive students:** A student’s behavior can undermine a teacher’s ability to teach and other students’ ability to learn. Teachers can usually control behavior by using good classroom management including, in some cases, briefly removing the student from the classroom by, for example,

---

<sup>2</sup> See Section X – Discipline of Students with Disabilities

giving the student a “time-out” in the hallway or with a school administrator, social worker or guidance counselor. Such techniques do not constitute disciplinary removals for purposes of this code.

However, when a student substantially disrupts the educational process or interferes with the teacher’s classroom authority by persistently refusing to comply with the teacher’s instructions or repeatedly violating classroom rules, the teacher may remove the student for longer periods of time.

Secondary students (grades 6 through 12) may be removed for the remainder of the class upon the first event and for two days of class upon the second or third event. At the fourth or subsequent event of removal, a suspension is required by law. Elementary students (kindergarten through grade 5) may be removed for a lesson not to exceed 45 minutes per incident for the first three events. For the fourth event or subsequent event of removal, a suspension is required by law

If the disruptive student does not pose a danger or ongoing threat of disruption to the academic process, the teacher must provide the student with an explanation for why he or she is being removed and an opportunity to explain his or her version of the relevant events before the student is removed. Only after the informal discussion may a teacher remove a student from class.

If the student poses a danger or ongoing threat of disruption, the teacher may order the student to be removed immediately. The teacher must, however, explain to the student why he or she was removed from the classroom and give the student a chance to present his or her version of the relevant events within 24 hours of the removal.

The teacher must complete a district-established disciplinary removal form and meet with the principal or his or her designee as soon as possible, but no later than the end of the school day of the removal, to explain the circumstances of the removal and to present the removal form. If the principal or designee is not available by the end of the same school day, the teacher must leave the form with the secretary and meet with the Principal or designee prior to the beginning of classes on the next school day.

Within 24-hours after the student’s removal, the principal or another district administrator designated by the principal must notify in writing the student’s parents/legal guardians that the student has been removed from the class and why. The notice must also inform the parents/legal guardians that he or she has the right, upon request, to meet informally with the principal or the principal’s designee to discuss the reasons for the removal.

The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the student’s removal at the last known address for the parents/legal guardians. Where possible, notice will also be provided by telephone if the school has been provided with a contact phone number.

The principal may require the teacher who ordered the removal to attend the informal conference. If the student denies the charges, the principal or the principal’s designee must explain why the student was removed and give the student and the student’s parents/legal guardians a chance to present the student’s version of the relevant events. The informal meeting must be held within 48 hours of the student’s removal. The timing of the informal meeting may be extended by mutual agreement of the parents/legal guardians and principal.

The principal or the principal’s designee may overturn the student’s classroom removal if he or she determines that:

- a. The charges against the student are not supported by substantial evidence.
- b. The student's removal is otherwise in violation of law, including the district's Code of Conduct.
- c. The conduct warrants suspension from school pursuant to Education law §3214 and a suspension will be imposed.

The principal or his or her designee may overturn a removal at any point between receiving the teacher referral form and the close of business on the day following the 48-hour period for the informal conference, if a conference is requested. No student removed from the classroom by the teacher will be permitted to return to the classroom until the principal makes a final determination or the period of removal expires, whichever comes first.

Any disruptive student removed from the classroom by the classroom teacher shall be offered continued educational programming and activities until he or she is permitted to return to the classroom.

Each teacher must keep a log (on a District-provided form) for all cases of students removed from his or her class.

The principal must keep a log on all removals of students from the class.

Removal of a student with a disability, under certain circumstances, may constitute a change in the student's placement. Accordingly, no teacher may remove a student with a disability from his or her class until he or she has verified with the principal or the chairperson of the Committee on Special Education that the removal will not violate the student's rights under state or federal law or regulation.

6) **Suspension from School:** Suspension from school may be imposed only upon students who are insubordinate, disorderly, disruptive or violent, or whose conduct otherwise endangers the safety, morals, health or welfare of others.

The Board retains its authority to suspend students, but places primary responsibility for the suspension of students with the Superintendent and the building principals.

Any staff member may recommend to the superintendent or the principal that a student be suspended. All recommendations and referrals shall be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention. In such cases the person recommending the suspension should write the referral as soon as possible.

The superintendent or principal, upon receiving a recommendation or referral for suspension or when processing a case for suspension, shall gather the facts relevant to the matter and record them for subsequent presentation, if necessary.

- a. **Short-term (5 school days or less) Suspension from School:** When the superintendent or principal (the "suspending authority") proposes to suspend for five school days or less pursuant to Education Law §3214 (3), the suspending authority must immediately notify the student orally. If the student denies the misconduct, the suspending authority must explain the basis for the proposed suspension. The suspending authority must also notify the student's parents/legal guardians in writing that the student may be suspended from school. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the decision to propose suspension at the last known address for the parents/legal guardians. Where possible, notice should also be provided by telephone if the school has a contact phone number.

The notice shall provide a description of the alleged incident and the charges against the student and inform the parents/legal guardians of their right to an informal conference with the principal and their right to question complaining witnesses at the informal conference. Both the notice and informal conference shall be in the dominant language or mode of communication used by the parents/legal guardians. At the conference, the parents/legal guardians shall be permitted to ask questions of complaining witnesses under procedures established by the principal.

The notice and opportunity for an informal conference shall take place before the student is suspended unless the student's presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student's presence does pose such a danger or threat of disruption, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

After the conference, the principal shall promptly advise the parents/legal guardians in writing of his or her decision. If the parents/legal guardians wish to pursue the matter, they must file a written appeal to the superintendent within thirty calendar days of the principal's decision, unless they can show extraordinary circumstances preventing them from doing so. The superintendent shall issue a written decision regarding the appeal within 10 business days of receiving the appeal. If the parents/legal guardians are not satisfied with the superintendent's decision, they must file a written appeal to the Board of Education with the district clerk within 30 calendar days of the date of the superintendent's decision, unless they can show extraordinary circumstances preventing them from doing so. Only final decisions of the Board may be appealed to the Commissioner of Education within 30 days of the Board's decision.

**b. Long-term (more than 5 school days) Suspension from School:** When the superintendent or building principal determines that a suspension for more than five school days may be warranted, he or she shall give reasonable notice to the student and the student's parents/legal guardians of their right to a fair hearing. At the hearing the student shall have the right to be represented by counsel, question witnesses against him or her, and present witnesses and other evidence on his or her behalf.

The superintendent shall personally hear and determine the proceeding or designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him or her. A record of the hearing shall be maintained, but no stenographic transcript shall be required. An audio recording shall be deemed a satisfactory record. If a hearing officer is designated, the hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the superintendent. The report of the hearing officer shall be advisory only, and the superintendent may accept all, any or none thereof.

An appeal of the decision of the superintendent must be made to the Board that will make its decision based solely upon the hearing record before it. All appeals to the Board must be in writing and submitted to the district clerk within 30 days of the date of the superintendent's decision, unless the parents/legal guardians can show that extraordinary circumstances precluded them from doing so. The Board may adopt in whole or in part or may reject or modify the decision of the superintendent. Final decisions of the Board may be appealed to the Commissioner of Education within 30 days of the Board's decision.

**c. Permanent Suspension:** Permanent suspension is reserved for extraordinary circumstances such as where a student's conduct poses a very real life-threatening danger to the safety and well-being of other students, school personnel or any other person lawfully on school property or attending a school function.

# ATTACHMENT H: MINIMUM PERIODS OF SUSPENSION

**1. Students who bring a weapon to school:** Any student found guilty of bringing a weapon onto school property will be suspended for at least one calendar year, unless the Superintendent modifies the suspension. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law §3214. In deciding whether to modify the suspension, the superintendent may consider the following:

- a. The student's age
- b. The student's school grade.
- c. The student's prior disciplinary record.
- d. The superintendent's belief that other forms of discipline may be more effective.
- e. Input from parents/legal guardians, teachers, or others.
- f. Other extenuating circumstances.

A student with a disability may be suspended only in accordance with the requirements of state and federal law and there are circumstances in which a student with a disability is prohibited from being suspended from school for at least one calendar year for bringing a weapon onto school property.

**2. Students who commit violent acts other than bringing a weapon to school:** Any student, other than a student with a disability in certain circumstances, who is found to have committed a violent act, other than bringing a weapon onto school property, will be suspended from school for at least five days, unless the superintendent modifies the suspension. In addition, the student may be subject to a suspension for more than five school days after a §3214 hearing is conducted. If the proposed suspension is for just five school days, the student and the student's parents/legal guardians will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed suspension is for more than five school days, the student and the student's parents/legal guardians will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. In deciding whether to modify the consequence, the superintendent may consider the same factors considered in modifying a one calendar year suspension for bringing a weapon onto school property.

**3. Students who are repeatedly substantially disruptive of the educational process or repeatedly substantially interfere with the teacher's authority over the classroom:** Any student, other than a student with a disability in certain circumstances, who repeatedly and substantially disrupts the educational process or substantially interferes with the teacher's authority over the classroom, will be suspended from school at least five days, unless the Superintendent modifies the suspension. For purposes of this code of conduct, "repeatedly is substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by teacher(s) pursuant to Education Law §3214(3-a) and this Code on four or more occasions during a semester. If the proposed suspension is for just five school days, the student's parents/legal guardians will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed suspension is for longer than five school days, the student and the student's parents/legal guardians will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. In deciding whether to modify the suspension, the superintendent may consider the same factors considered in modifying a one calendar year suspension for bringing a weapon onto school property.

# ATTACHMENT I: REFERRALS

**1.Counseling:** The Social Worker, School Counselor, Nurse, and/or School Psychologist shall handle referrals of students to appropriate human service agencies such as counseling and social services.

**2.PINS Petitions:** The district may file a PINS (person in need of supervision) petition in Family Court on any student under the age of 18 who demonstrates that he or she requires supervision and treatment by:

- a. Being habitually truant and not attending school as required by part one of Article 65 of the Education Law.
- b. Engaging in an ongoing or continual course of conduct which makes the student ungovernable, or habitually disobedient and beyond the lawful control of the school.
- c. Knowingly and unlawfully possesses marijuana in violation of Penal Law §221.05. A single violation of §221.05 will be sufficient basis for filing a PINS petition.

**3. Juvenile Delinquents and Juvenile Offenders:** The superintendent is required to refer the following students to the County Attorney for a juvenile delinquency proceeding before Family Court:

Any student under the age of 16 who is found to have brought a weapon to school, or any student 14 or 15 years old who qualifies for juvenile offender status under the Criminal Procedure Law §1.20(42)

The superintendent is required to refer students aged 16 and older or any student 14 or 15 years old who qualifies for juvenile offender status under the Criminal Procedure Law §1.20(42) who has been found to have brought a weapon to school to the appropriate law enforcement authorities.

# **ATTACHMENT J: DISCIPLINE OF STUDENTS WITH DISABILITIES**

It may sometimes be necessary to suspend, remove or otherwise discipline students with disabilities to address disruptive or problem behavior. Students with disabilities are entitled to certain procedural protections beyond those available to students without disabilities whenever school authorities intend to impose discipline upon them. The school is committed to ensuring that the procedures for suspending, removing or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations.

This Code of Conduct affords students with disabilities subject to disciplinary action no greater or lesser rights than those expressly afforded by applicable federal and state law and regulations.

## **A. Authorized Suspensions or Removals of Students with Disabilities.**

- 1) For purposes of this section of the Code of Conduct, the following definitions apply.
  - a) A “suspension” means a suspension from school pursuant to Education Law §3214.
  - b) A “removal” means a removal for disciplinary reasons from the student’s current educational placement other than a suspension and change in placement to an interim alternative educational setting (IAES) ordered by an impartial hearing officer because the student poses a risk of harm to himself/herself or others or placement in an IAES for behavior involving serious bodily injury, weapons, illegal drugs or controlled substances or other disciplinable behaviors.
  - c) An “IAES” means a temporary educational placement, other than the student’s current placement at the time the behavior precipitating the IAES placement occurred, that enables the student to continue to receive educational services so as to enable the student to continue to participate in the general curriculum, although in another setting, and to progress towards meeting the goals set out in such IEP, and receive, as appropriate, a functional behavioral assessment and intervention services and modifications that are designed to address the behavior violation so that it does not recur.
- 2) School personnel may, following the procedures set forth in Education Law Section 3214, order the suspension or removal of a student with a disability from his or her current educational placement as follows:
  - a) The School Board, the district BOCES Superintendent, Superintendent of Schools or a building principal may order the placement of a student with a disability into an IAES, another setting or suspension for a period not to exceed five consecutive school days and not to exceed the amount of time a non-disabled student would be subject to suspension for the same behavior.
  - b) The superintendent may order the placement of a student with a disability into an IAES, another setting or suspension for up to 10 consecutive school days, inclusive of any period in which the student has been suspended or removed in subparagraph (a) above for the same behavior, if the Superintendent determines that the student has engaged in behavior that warrants a suspension and the suspension or removal does not exceed the amount of time a non-disabled student would be subject to suspension for the same behavior.
  - c) The superintendent may order additional suspensions of not more than 10 consecutive school days in the same school year for separate incidents of misconduct, as long as those removals do not constitute a pattern which is equivalent to a change of placement when considering the proximity of time and duration of such suspension. If those suspensions constitute a change of placement for a student, then only if a manifestation is not found can the student be suspended and placed in an IAES as determined by the Committee on Special Education (CSE).

- d) The superintendent may order the placement of a student with a disability in an IAES to be determined by the Committee on Special Education (CSE), for the same amount of time that a student without a disability would be subject to discipline, but not more than 45 school days, when the conduct is a manifestation of the student's disability, and the student possesses or carries a weapon to school or to a school function, or the student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function or has inflicted serious bodily injury upon another person while at school, on school premises or at a school function.
1. "Weapon" means the same as "dangerous weapon" under 18U.S.C. §930 (g)(w) which includes "a weapon, device, instrument, materials or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except...[for] a pocket knife with a blade of less than 2 ½ inches in length."
  2. "Controlled substance" means a drug or other substance identified in certain provisions of the federal Controlled Substances Act specified in both federal and state law and regulations applicable to this policy.
  3. "Illegal drugs" means a controlled substance except for those legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under the Controlled Substances Act or any other federal law.
  4. "Serious bodily injury" means bodily injury which involves a substantial risk of death, extreme physical pain, protracted or obvious disfigurement or protracted loss or impairment of the function of a bodily member, organ or mental faculty.
  5. Subject to specified conditions required by both federal and state law and regulations, an impartial hearing officer may order the placement of a student with a disability in an IAES setting for up to 45 school days at a time, if the IHO:
- e). determines that the District has demonstrated by substantial evidence that maintaining the current placement of the student is substantially likely to result in injury to the student or others.
- f). The superintendent may order the placement of a student with a disability in an IAES to be determined by the Committee on Special Education (CSE), for the same amount of time that a student without a disability would be subject to discipline, including a suspension of more than 10 consecutive school days, when the conduct is found not to be a manifestation of the student's disability.

## **B. Change of Placement Rule**

A disciplinary change in placement means a suspension or removal from a student's current educational placement that is either:

- a) for more than 10 consecutive school days; or
- b) for a period of 10 consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than 10 school days in a school year and because of such factors as the similarity of the student's behavior in previous incidents, the length of each suspension or removal, the total amount of time the student is removed and the proximity of the suspensions or removals to one another.

School personnel may not suspend or remove a student with disabilities if imposition of the suspension or removal would result in a disciplinary change in placement based on a pattern of suspension or removal. However, the district may impose a suspension or removal, which would otherwise result in a disciplinary change in placement, based on a pattern of suspensions or removals if the manifestation team has determined that the behavior was not a manifestation of the student's disability, or the student is placed in an IAES for

behavior involving weapons, illegal drugs or controlled substances, or behavior resulting in serious bodily injury.

### **C. Special Rules Regarding the Suspension or Removal of Students With Disabilities**

1) The District's Committee on Special Education shall:

a) Conduct functional behavioral assessments, as appropriate, to determine why a student engages in behaviors that impede learning and how the student's behavior relates to the environment, and develop or review behavioral intervention plans whenever the District is first suspending or removing a student with a disability for more than 10 school days in a school year or imposing a suspension or removal that constitutes a disciplinary change in placement, including a change in placement to an IAES for misconduct involving weapons, illegal drugs, controlled substances or serious bodily injury. If subsequently, a student with a disability who has a behavioral intervention plan and who has been suspended or removed from his or her current educational placement for more than 10 school days in a school year is subjected to a suspension or removal that constitutes a disciplinary change in placement, the members of the manifestation team shall review the behavioral intervention plan and its implementation to determine if modifications are necessary. If one or more members of the CSE believe that modifications are needed, the meeting of the manifestation team shall include the modification of such plan and its implementation, to the extent the committee determines necessary.

2) A manifestation team shall conduct a determination review of the relationship between the students' disability and the behavior subject to disciplinary action whenever a decision is made to place a student in an IAES either for misconduct involving weapons, illegal drugs, controlled substances or serious bodily injury or a decision is made by an IHO to place a student in an IAES in a dangerous situation or a decision is made to impose a suspension that constitutes a disciplinary change in placement.

- a) A manifestation team shall include a representative of the District knowledgeable about the student and the interpretation of information about child behavior, the parents/legal guardians and relevant members of the CSE as determined by the parents/legal guardians and the District
- b) The manifestation team shall review all relevant information in the student's file, including the student's IEP, any teacher observation and any relevant information provided by the parents/legal guardians to determine if the conduct in question:
1. was caused by or had a direct and substantial relationship to the student's disability;  
or
  2. was the direct result of the District's failure to implement the IEP.

3) The parents/legal guardians of a student who is facing disciplinary action, but who has not been determined to be eligible for services under Individuals with Disabilities Education Act (IDEA) and Article 89 at the time of misconduct, shall have the right to invoke applicable procedural safeguards set forth in federal and state law and regulations if, in accordance with federal and state statutory and regulatory criteria, the school district is deemed to have had knowledge that their child was a student with a disability before the behavior precipitating disciplinary action occurred. If the District is deemed to have had such knowledge, the student will be considered a student presumed to have a disability for discipline purposes.

- a) The superintendent, building principal or other school official imposing a suspension or removal shall be responsible for determining whether the student is a student presumed to have a disability.
- b) A District shall be deemed to have knowledge that such student had a disability if prior to the time the behavior occurred:
1. The parents/legal guardians of such student has expressed concern in writing to supervisory administrative personnel or to a teacher of the student that the student is in need of special education; however, the expression may be oral if the parents/legal

guardians does not know how to write or has a disability that prevents a written statement; or

2. The parents/legal guardians of the student has requested an evaluation of the student in accordance with Part 200 of the Commissioner's Regulations; or
3. A teacher of the student, or other personnel of the District has expressed specific concerns about a pattern of behavior demonstrated by the student, directly to the District's Director of Special Education or to other supervisory personnel of the District.

c) A student will not be considered a student presumed to have a disability for disciplinary purposes if, upon receipt of information supporting a claim that the district had knowledge the student was a student with a disability:

1. it was determined that the student is not a student with a disability, or
2. the parents/legal guardians of the student did not allow an evaluation of the student, or
3. the parents/legal guardians of the student have refused special education services.

d) If there is no basis for knowledge that the student is a student with a disability or a student presumed to have a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors. However, if a request for an individual evaluation is made while such non-disabled student is subjected to disciplinary removal, an expedited evaluation shall be conducted and completed in the manner prescribed by applicable federal and state law and regulations. Until the expedited evaluation is completed, the non-disabled student who is not a student presumed to have a disability for discipline purposes shall remain in the educational placement determined by the district, which can include suspension.

4) The District shall provide parents/legal guardians with notice of disciplinary removal no later than the date on which a decision is made to change the placement of a student with a disability to an IAES for either misconduct involving weapons, illegal drugs, controlled substances or serious bodily injury or because maintaining the student in his/her current educational setting poses a risk of harm to the student or others: or a decision is made to impose a suspension or removal that constitutes a disciplinary change in placement. The procedural safeguards notice prescribed by the Commissioner shall accompany the notice of disciplinary removal.

5) The parents/legal guardians of a student with disabilities subject to a suspension of five consecutive school days or less shall be provided with the same opportunity for an informal conference available to parents/legal guardians of non-disabled students under the Education Law.

6) Superintendent hearings on disciplinary charges against students with disabilities subject to a suspension for more than five school days shall include a guilt/no guilt phase and if guilt is found and a manifestation determination in accordance with § 201.4 of the Commissioner's Regulations results in a "No" manifestation determination or a "Yes" manifestation determination when the conduct involves weapons, illegal drugs, controlled substances or serious bodily injury, then a penalty phase in accordance with the procedures set forth in the Commissioner's regulations incorporated into this code.

7) The removal of a student with disabilities other than a suspension or placement in an IAES shall be conducted in accordance with the due process procedures applicable to such removals of non-disabled students, except that school personnel may not impose such removal for more than 10 consecutive days or for a period that would result in a disciplinary change in placement, unless the manifestation team has determined that the

behavior is not a manifestation of the student's disability or the behavior is a manifestation of the student's disability but involves weapons, illegal drugs, controlled substances or serious bodily injury.

8) During any period of suspension or removal, including placement in an IAES, students with disabilities shall be provided with a Free Appropriate Public Education (FAPE) as required by federal and state law and the Commissioner's regulations incorporated into this code.

#### **D. Expedited Due Process Hearing**

1) An expedited due process hearing shall be conducted in the manner specified by the Commissioner's regulations incorporated into this code, if:

a) The District requests such a hearing to obtain an order of an impartial hearing officer placing a student with a disability in an IAES where school personnel maintain that it is dangerous for the student to be in his or her current educational placement, or during the pendency of due process hearings where school personnel maintain that it is dangerous for the student to be in his or her current educational placement during such proceedings.

b) The parents/legal guardians request such a hearing from a determination that the student's behavior was not a manifestation of the student's disability, or relating to any decision regarding placement pursuant to a disciplinary suspension or removal, including but not limited to any decision to place the student in an IAES.

1. During the pendency of an expedited due process hearing or appeal regarding the placement of a student in an IAES for behavior involving weapons, illegal drugs, controlled substances or serious bodily injury, or on grounds of dangerousness, or regarding a determination that the behavior is not a manifestation of the student's disability for a student who has been placed in an IAES, the student shall remain in the IAES pending the decision of the impartial hearing officer or until expiration of the IAES placement, whichever occurs first, unless the parents/legal guardians and the district agree otherwise.

2. If school personnel propose to change the student's placement after expiration of an IAES placement, during the pendency of any proceeding to challenge the proposed change in placement, the student shall remain in the placement prior to removal to the IAES, except where the student is again placed in an IAES.

c) An expedited due process hearing shall be completed within 20 school days of receipt of the request for a hearing. Although the impartial hearing officer may grant specific extensions of such time period, he or she must mail a written decision to the district and the parents/legal guardians within 10 school days after the last hearing date without exceptions or extensions.

#### **E. Referral to law enforcement and judicial authorities**

In accordance with the provisions of IDEA and its implementing regulations:

1) The District may report a crime committed by a child with a disability to appropriate authorities, and such action will not constitute a change of the student's placement.

2) The superintendent may transmit copies of the special education and disciplinary records of a student with disabilities for consideration to the appropriate authorities to whom a crime is reported only to the extent that transmission is permitted by FERPA.

#### **F. Section 504/Title II ADA Disability**

Before discipline may be meted out for a student with a disability or suspected disability founded solely under §504 of the Rehabilitation Act of 1973 (hereinafter "§504") or Title II of the Americans with Disabilities Act (hereinafter the "ADA"), the §504 multi-disciplinary committee (hereinafter the "§504 committee") must make a determination of whether the conduct underlying the charge(s) was a manifestation of the disability.

- 1) If a nexus is found between the disability and the conduct underlying the charges, the §3214 proceeding must be discontinued and the matter placed under the jurisdiction of the §504 Committee for any further consideration. The record of subject discipline to be imposed shall be expunged. The §504 Committee must register a referral and bring about an evaluation of a student with a suspected disability or, if the student is already eligible under §504, it must consider possible program modification and disposition on a non-disciplinary basis.
- 2) If no nexus is found, yet a disability is indicated or has been identified, discipline may be imposed upon remand to the §3214 Hearing Officer. Students whose sole disabilities are founded under §504 and for whom no nexus is found shall be disciplined in the same manner as their non-disabled peers.
- 3) Students with a recognized 504/ADA disability who are currently illegally using drugs or using alcohol may be disciplined regardless of their disability status in the same manner and to the same extent as their non-disabled peers, provided that the students are currently engaged in the illegal use of drugs or alcohol.

Any penalty imposed may not be based on past behavior for which a nexus determination was not made or made but in the affirmative.

## **ATTACHMENT K: ENFORCEMENT AND PUBLIC CONDUCT ON SCHOOL PROPERTY**

The building principal or his or her designee shall be responsible for enforcing the conduct required by this Code. When the building principal or his or her designee sees an individual engaged in prohibited conduct, which in his or her judgment does not pose any immediate threat of injury to persons or property, the principal or his or her designee shall tell the individual that the conduct is prohibited and attempt to persuade the individual to stop. The principal or his or her designee shall also warn the individual of the interventions for failing to stop. If the person refuses to stop engaging in the prohibited conduct, or if the person's conduct poses an immediate threat of injury to persons or property, the principal or his or her designee shall have the individual removed immediately from school property or the school function. If necessary, local law enforcement authorities will be contacted to assist in removing the person. The District shall initiate disciplinary action against any student, staff member or visitor, as appropriate, in accordance with the "Interventions" section above. In addition, the District reserves its right to pursue a civil or criminal legal action against any person violating the Code.

# ATTACHMENT L: SEARCHES AND QUESTIONING

The superintendent shall establish regulations regarding personal searches and interrogations of students, with due regard for the needs of parental knowledge and involvement, in accordance with this policy and the law.

**A. Student searches:** Involuntary personal searches of students and their possessions shall only be conducted by the police, unless there is a serious and immediate threat as well as reasonable suspicion for a search by school personnel. In that case, the Board authorizes the Superintendent of Schools, building principals and assistant principals to search students and their possessions for illegal materials, matters which otherwise constitute a threat to the health, safety, welfare or morals of students attending our schools and matters that violate this code. Searches that require removal of clothing other than outer coats and jackets will be conducted only if the school attorney or, in his or her absence, the school superintendent, determines that such a search is justified.

Such searches must conform to state and federal laws, and must be based on reasonable individualized suspicion and must be reasonable in scope. The reasonableness of the search will depend upon the:

- Student's age, gender, and school history and record.
- Seriousness and nature of the alleged infraction.
- Urgency of an immediate search.
- Reliability of the information used to justify the search and the likelihood that the search will produce evidence that the student is violating a law or this code.

Students must be told by school administration that school desks, lockers, storage spaces and computers belong to the school district, not the student, and thus may be opened and inspected from time to time by school officials without student permission. But school officials will respect the privacy of such spaces as much as possible.

**B. Questioning of Students by School Officials:** School officials have the right to conduct investigations and question students regarding any violations of school rules and/or illegal activity. The student's parents/legal guardians may be contacted depending upon the nature and reasoning for the questioning and the necessity for further action which may result. However, there is no right for a student's parents/legal guardians to be contacted while school officials are investigating violations of this code.

School officials are not required to give students "Miranda warnings" prior to questioning them.

The questioning of students by school officials does not preclude subsequent questioning by law enforcement as otherwise permitted by law.

**C. Questioning of Students by Law Enforcement:** It is the policy of the District to cooperate with law enforcement agencies. While law enforcement do not have general power to interview children in school, or to use school facilities in connection with law enforcement work, law enforcement may enter the schools of the District if a crime has been committed on school property, they have a warrant for arrest or search or if they have been invited by school officials.

When law enforcement has properly entered the school and desire to interview students in the school, the students must be afforded the same rights they have outside the school. They must be informed of their legal rights, may remain silent if they so desire, may request the presence of an attorney and must be protected from coercion and illegal restraint. When a student is under the age of 16 and law enforcement are present for an interview or investigations, school officials must make every reasonable effort to notify the student's parents/legal guardians, unless law enforcement indicate that such interview concerns a student's parents/legal guardians or other household member and it is pursuant to a report regarding suspected child abuse, maltreatment or neglect.

**D. Child Protective Services Investigations:** Child Protective Services may in some cases desire to conduct interviews of students on school property. Such interviews generally pertain to allegations of suspected child abuse, maltreatment or neglect. A school official should be present during the interview unless it is decided that the presence of the school official is not essential to protect the interests of the pupil and that the Department of Social Services worker's job can best be accomplished by conducting the interview without the school official present.

# **ATTACHMENT M: VISITORS TO THE SCHOOLS**

Parents/legal guardians and other District citizens are encouraged to visit the district's schools and classrooms to observe the work of students, teachers and other staff. Since schools are a place of work and learning, however, certain limits must be set for such visits. The building principal or his or her designee is responsible for all persons in the building and on the grounds. For these reasons, the following rules apply to visitors to the schools:

- A. Anyone who is not a regular staff member or student of the school will be considered a visitor.
- B. All visitors to the school must report to the sign in desk upon arrival at the school. There they will be required to sign the visitor's register and will be issued a visitor's identification badge, which must be worn at all times while in the school or on school grounds. The visitor must return the identification badge to the sign in desk before leaving the building.
- C. Visitors attending school functions that are open to the public, such as parent-teacher organization meetings or public gatherings, are not required to register.
- D. Parents/legal guardians or citizens who wish to observe a classroom while school is in session are required to arrange such visits in advance with the classroom teacher(s) and principal(s), so that class disruption is kept to a minimum.
- E. Teachers are expected not to take class time to discuss individual matters with visitors.
- F. Any unauthorized person on school property will be reported to the principal or his or her designee. Unauthorized persons will be asked to leave. Law enforcement may be called if the situation warrants.
- G. All visitors are expected to abide by the rules for public conduct on school property contained in this Code of Conduct.

# ATTACHMENT N: DISSEMINATION AND REVIEW OF CODE

The District will ensure that the community is aware of this Code of Conduct by:

- Mailing a summary of the Code of Conduct written in plain language to all parents/legal guardians of district students before the beginning of the school year and making this summary available later upon request.
- Making full copies of the District Code available to all parents/legal guardians at the beginning of the school year.
- Providing a summary of the Code of Conduct written in a plain-language age-appropriate matter to students at a school assembly held at the beginning of the school year.
- Providing a copy of the Code, and subsequent amendments to the Code, to all current teachers, and other staff members, and to newly hired employees when first hired as soon as practical after adoption.
- Making copies of the Code available for review by students, parents/legal guardians and community members.
- The Code is available on the District website, in the District Office and the main offices of each school.
- Providing an in-service education program for district staff members.
- Reviewing the Code of Conduct every year and updating it as necessary.
- Holding a public hearing before adopting any Code revisions.
- Filing any amendments to the Code with the Commissioner of Education.

**A building's regulations, procedures, Code of Conduct or Dress Code must be consistent with and non-contradictory to the District Code of Conduct / Dress Code. Distribution of regulations and procedures relating to the individual building Code of Conduct/ Dress Code, is the responsibility of the building principal.**

## Review of Code

An in-service education program for all District staff members to ensure the effective implementation of the Code of Conduct will be provided. The Superintendent may solicit the recommendations of the district staff, particularly teachers and administrators, regarding in-service programs pertaining to the management and discipline of students.

The Board of Education will review this Code of Conduct every year and update it as necessary. In conducting the review, the Board will consider how effective the Code's provisions have been and whether the Code has been applied fairly and consistently.

An advisory committee will be appointed to assist in reviewing the Code and the District's response to Code of Conduct violations. The committee will be made up of representatives of student, teacher, administrator, and parent organizations, school safety personnel and other school personnel.

At a regularly scheduled Board meeting the Code of Conduct Committee will present any Code revisions for review. The Board will vote on the Code approximately thirty days later after conducting a public hearing. The Code of Conduct and any amendments to it will be filed with the Commissioner no later than 30 days after adoption.

# **DISTRICT-WIDE SAFETY PLAN** — approved by the Board of Education on August 18, 2021

## **Introduction**

*While schools remain among the safest places for our students, one incident of violence is too much. This plan seeks to insure the safety of students, staff, and visitors to our school.*

Emergencies and violent incidents in school districts are critical issues that must be addressed in an expeditious and effective manner. Districts are required to develop a District-Wide School Safety Plan designed to prevent or minimize the effects of serious violent incidents and emergencies and to facilitate the coordination of the district with local and county resources in the event of such incidents or emergencies. The District-Wide School Safety Plan is responsive to the needs of all schools within the agency and is consistent with the more detailed emergency response plans required at the school building level. School districts and other educational agencies stand at risk from a wide variety of acts of violence, natural, and technological disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (SAVE) law. Project SAVE is a comprehensive planning effort that addresses risk reduction/ prevention, response, and recovery with respect to a variety of emergencies in the school district and its schools.

School personnel and community representatives serve on the District-Wide Health Advisory Committee, (once known as the SAVE committee). Members of this committee are approved by the Board of Education.

The New Paltz Central School District supports the SAVE Legislation and an ongoing planning and review process. The Superintendent of Schools encourages and advocates on-going district-wide cooperation with and support for Project SAVE.

## **Section I: General Considerations and Planning Guidelines**

The New Paltz Central School District has policies and procedures which incorporate New York State Homeland Security measures. Protocols reflected in the District-Wide School Safety Plan will guide the development and implementation of individual Building-Level Emergency Response Plans. All plans will be based upon the Incident Command System.

In the event of an emergency or violent incident, the initial response to all emergencies at an individual school will be by the School Emergency Response Team. Upon the activation of the School Emergency Response Team, the Superintendent of Schools, or his/her designee, will be notified and, where appropriate, local emergency officials will also be notified.

The District is a member of the Local Town/Village Emergency Planning Committee. Through this committee information, communication and training will be cooperatively accomplished with the recommended local agencies. The District has direct communication capabilities with local emergency services and has developed interagency protocols for emergent situations. County and State resources through existing protocols are also available and will be used to supplement response efforts. (BOE Policy 3120)

## **Plan Review and Public Comment**

Pursuant to Commissioner's Regulation 155.17 (e)(3), the New Paltz Central School District safety plan is made available for public comment. The District-Wide plan will be adopted by the School Board after one public hearing that provides for the participation of school personnel, parents, students and any other interested parties.

This District-Wide plan will be reviewed annually and/or after all critical incidents and will be maintained by the District-Wide School Safety Team. The required annual review will be completed on or before July 1 of each year after its adoption by the Board of Education (policy 5618). The communication procedures were also revised to include use of media, including radio, television (local cable), public meetings to address questions and concerns, and letters sent to parents and community members. Working relationships with Local, County and State Police regarding the implementation of school safety and security are well established. State and Federal Officials also made presentations to staff members on procedures and safety measures when confronted with threats, intruders and crisis situations.

## **Vital Educational Agency Information**

Each individual educational program within the New Paltz Central School District collects and maintains vital educational information such as student enrollment, and the number of staff and teaching stations.

Transportation needs are assessed by the Transportation Department in conjunction with agency administrators. Internal divisions (e.g. the Business Office) maintain and update listings of home and business telephone numbers for key personnel throughout the District and school buildings. The following table indicates location of students and adults in the district:

## **Early Detection of Potentially Violent Behaviors or Acts of Violence**

- The early detection of potentially violent student behaviors shall be accomplished through professional development workshops for New Paltz Central School District instructional staff.
- The District is currently investigating instituting alternative methods of detecting potentially unsafe behaviors. ➤ Crisis Assessment Procedures plans are constantly under revision.
- “Emotionally Safe Learning Communities” training for all Pre K-2 staff and faculty being implemented.
- Where a student is deemed by an appropriate staff member to require attention in this area the school principal, guidance counselor, and/or the CSE Chairperson of the district in which the student is enrolled shall be notified. Police shall be notified in the event of any crime, violent act, or threat of violence to another. Parents/guardians will be notified and family court may also be contacted. If concerns are raised about a student’s mental health, parents/guardians and school district personnel shall be contacted.
- The District Wide Code of Conduct identifies conduct which has been deemed inappropriate and/or dangerous to the school community.
- Professional development opportunities will include warning signs and ways to help potentially violent students. “Warning Signs” will be included in handbooks.
- Student files are reviewed upon entrance to the district. Conferences are held with parents, students, guidance staff (middle and high school, and an administrator). There are guidance counselors, social workers, psychologists, a student assistance counselor (HS), and nurses who provide information and referral and counseling information to students and their families. The district also works with Family of Woodstock, UCMHS, MHA, Public Health Dept., Social Services, BOCES, Police and local hospitals/treatment centers.

## **Detection of Suicidal/Self-Injurious Behaviors**

- The District Guidelines for Suicide/self-injurious Assessment outlines procedures to be taken by faculty and staff to identify behaviors which indicate a student may be at risk of personal injury. In accordance Section 155.17 of the Commissioner’s Regulations regarding School Safety Plans the specifics of these protocols qualifies for inclusion in the building plan, but not the public, district-wide Safety plan.

## **Hazard Identification**

- Each of the buildings within the New Paltz Central School District has been evaluated for the location of potential hazards, both on and off school grounds. This hazard identification shall be updated at least once each year. The hazard identification list shall be incorporated into each Building-Level School Safety Plan. Field trip locations should also be evaluated for hazards prior to each trip taking place. The District maintains site plans for each of the facilities.
- Building systems and structures are evaluated through the Building Conditions Survey (every 5 years by a licensed architect or engineer) and the annual visual inspections which are performed in years in which the Building Conditions Survey does not occur. (performed by members of the health and safety sub-committee of the Health Advisory Committee in conjunction with Ulster BOCES risk management)
- There is a SUNY Campus in town, a Central Hudson Storage facility about 5 miles away, and the New York State Thruway. There are no major industries in the school community that would create hazardous situations. The High School is however, within ¼ miles of the New York State Thruway. Any hazard that would occur would be dealt with in conjunction with local, county and state emergency services.
- Blood Borne pathogen and Right to Know trainings occur each year for staff members.

- The following Hazard mitigation plans are reviewed yearly:
 

Exposure Control	Chemical Hygiene	Energy Control
Hazard Communications	Respiratory Protection	

## Section III: Response

### Notification and Activation (Internal and External Communications)

- In the event of a violent incident, either implied or direct, New Paltz Central School District shall utilize the Ulster County’s 911 system to contact available appropriate emergency response personnel.
- In the event of an emergency or disaster that may impact school facilities or programs, New Paltz Central School District will use the following means to communicate with all educational facilities:
 

Telephone/Cell Phone	Fax/Email	Radio Systems
----------------------	-----------	---------------

chain

Local Media	Hand held radios walkie-talkies	Current Snow
Current Parent Phone trees within buildings	Transportation	Emergency
Messages	District Emergency Message Phone Lines	Auto- Dialer -
School Messenger		

- The New Paltz Central School District requires emergency information transportation sheets to be completed by parents/guardians for all students. This emergency notification information must be updated whenever changes are made.
- In the event of a non-emergency situation in one/more of the District buildings when the building(s) becomes uninhabitable, an Early Dismissal will be enacted. An Early Dismissal is defined as any Dismissal which is outside the School Buildings’ designated dismissal times.
- Emergency Evacuation is defined as the need to Leave a building(s) as quickly as possible. This is an emergent situation and students will be relocated to designated buildings/areas as per building level safety plans.
- In the event of an early dismissal, or other event that warrants such action, persons in parental relation shall be notified via the local media and/or the use of auto-dialing, text messaging, email, emergency hotline, and/or parent phone trees.
- Parent, staff and the community are provided information on District safety procedures through the annual calendar mailing, district mailings and the District web-site.
- The district acknowledges that student and staff safety is paramount and that this may preclude getting information to parents as the incident is unfolding. The district recognizes the need to provide Timely and Accurate information as soon as it becomes available and is prudent to release this information. Information will not be released which jeopardizes students, staff or the ability of the authorities to conduct an investigation into any incident.

## Situational Responses

### Multi-Hazard Response Protocols

- New Paltz Central School District has developed multi-hazard response plans, based on the Incident Command System, and the National Incident Management System (NIMS) for the following emergency situations:

## **Procedures for Obtaining Advice and Assistance from Local Government Officials**

When deemed appropriate, the Superintendent or his/her designee will contact the appropriate local government agency or agencies for advice or assistance during an emergency situation including the county or city official responsible for implementing Article 2-B of the Executive Law.

## **District Resources Available for Use in an Emergency**

Each New Paltz Central School District Building is equipped with resources available for use during emergency situations. These include communication devices, first aid and medical supplies, AEDs, food/water, fire extinguishers, flashlights, batteries, and emergency phone number lists. Additional resources (e.g. tools, duct tape, hardware) are located in the maintenance shops and with the supplies of the Head Custodian of each building. Each school building of the New Paltz Central School District can serve as a Relocation/Sheltering site, if required, during emergencies.

## **Procedures to Coordinate the Use of School District Resources and Manpower during Emergencies**

The use of manpower and resources during an emergency shall be coordinated at each building by the building administrator or director with direction from the Superintendent or his/her designee. The coordination of manpower may be further broken down into internal departments or divisions. An inventory of resources will be made periodically but no less than annually and following each activation of the Building-Level Safety Plan.

## **NYS Homeland Security Definitions for Protective Action**

**Clear and Sanitized Area:** An assembly space, such as the gymnasium, that is used to shelter students, faculty and staff after it has been thoroughly searched by school volunteers and law enforcement for suspicious packages and objects.

**Emergency Response Team:** Designation of an emergency response team comprised of school personnel, local law enforcement officials and representatives from local, regional and/or state emergency response agencies, other appropriate incident response teams and a post-incident response team that includes appropriate school personnel, medical personnel, mental health counselors and others who can assist the school community in coping with the aftermath of a violent incident. (see individual building plans)

**Incident Command System:** The Incident Command System, also known as ICS, is defined as a standardized on-scene emergency management system that allows multi-agencies to work together without any jurisdictional boundary problems. ICS defines the chain of command as a series of management positions in order of authority. Individuals in the chain of command are from different agencies and positions.

**Lockdown:** A procedure used when there is an immediate and imminent threat to the school building population. School staff and students are secured in the rooms they are currently in and no one is allowed to leave until the situation has been curtailed. This allows the school to secure the students and staff in place and remove any innocent bystanders from immediate danger. Most commonly used when building has an intruder. (See Lockdown instructions and procedures.)

**Lockout:** Allows no unauthorized personnel into the building. All exterior doors are locked and main entrance is monitored by administrators, security or school resource officer. This procedure allows the school to continue with the normal school day, but curtails outside activity. Most commonly used when incident is occurring outside school building, on or off school property. (See Lockout instructions and procedures.)

**Short-Term Shelter in Place:** A procedure whereby the entire school population is moved to a single (or multiple) location(s) in the school (depending on building population) that has been clear and sanitized. Most commonly used during bomb threats and weather emergencies. (See Short-Term Shelter in Place instructions and procedures.)

## National Terrorism Advisory System (NTAS) \*

The National Terrorism Advisory System, or NTAS, replaces the color-coded Homeland Security Advisory System (HSAS). This new system will more effectively communicate information about terrorist threats by providing timely, detailed information to the public, government agencies, first responders, airports and other transportation hubs, and the private sector.

It recognizes that Americans all share responsibility for the nation's security, and should always be aware of the heightened risk of terrorist attack in the United States and what they should do.

### NTAS Alerts

#### Imminent Threat Alert

Warns of a credible, specific, and impending terrorist threat against the United States.

#### Elevated Threat Alert

Warns of a credible terrorist threat against the United States.

After reviewing the available information, the Secretary of Homeland Security will decide, in coordination with other Federal entities, whether an NTAS Alert should be issued. NTAS Alerts will only be issued when credible information is available.

These alerts will include a clear statement that there is an **imminent threat** or elevated **threat**. Using available information, the alerts will provide a concise summary of the potential threat, information about actions being taken to ensure public safety, and recommended steps that individuals, communities, businesses and governments can take to help prevent, mitigate or respond to the threat.

The NTAS Alerts will be based on the nature of the threat: in some cases, alerts will be sent directly to law enforcement or affected areas of the private sector, while in others, alerts will be issued more broadly to the American people through both official and media channels.

### **Sunset Provision**

An individual threat alert is issued for a specific time period and then automatically expires. It may be extended if new information becomes available or the threat evolves. NTAS Alerts contain a **sunset provision** indicating a specific date when the alert expires - there will not be a constant NTAS Alert or blanket warning that there is an overarching threat. If threat information changes for an alert, the Secretary of Homeland Security may announce an updated NTAS Alert. All changes, including the announcement that cancels an NTAS Alert, will be distributed the same way as the original alert.

## **NEW PALTZ PROTECTIVE ACTION OPTIONS**

### **Emergency Procedures**

The school district realizes that knowing your child is safe is paramount. In emergency situations District personnel's first response is to attend directly to this safety. This precludes getting information out at the moment an incident occurs. The District does recognize the need to provide **TIMELY** and **ACCURATE** information to our parents. We ask your patience with the brief lag between incident and information availability as inaccurate information can cause more harm than good. Emergency situations are dangerous to all, and by going to your child's building it impedes emergency services response. Students will be released to parents as soon as the situation is deemed safe to move students by emergency personnel. Should there be an emergency situation, as soon as information is available it can be found by calling our emergency hotline at (845) 256-4099 and/or listening to one of the radio stations listed in the District Calendar and or web-site. Information provided will include where to pick up your child and the protocols for doing so.

### **School Cancellation or Delay**

The cancellation or delay of New Paltz Central School District educational programs shall take place pursuant to New Paltz Central School District policy 3510.

### **Early Dismissal**

Early dismissal shall be implemented under conditions when it is imperative to return students to their homes as quickly as possible (e.g. an impending blizzard). The decision to dismiss school early shall be made by the Superintendent or his/her designee. The New Paltz Central School District Transportation Supervisor is then notified to contact school bus drivers (during impending weather notifications, school bus drivers are instructed to be available and within easy reach of the Transportation Department). Persons in parental relation are notified via the local media, auto-dialer, e-mail and/or telephone chains.

### **Emergency Evacuation**

Emergency evacuation is implemented under conditions when it is no longer safe for students and staff to remain in the building (e.g. a hazardous materials spill). The decision to evacuate is made by the building administrator or his/her designee. Evacuation areas will be checked for safety prior to exiting the building, as per individual building emergency plans.. Once out of the building students will be assembled by class groups, or some other means, and at designated areas to be accounted for by staff members. In some cases students will be taken to an alternative location off site. All students and staff shall remain outside the building until it

has been deemed safe for them to return by local emergency responders and the New Paltz Central School District administration. If the decision is made to dismiss for the day, the conditions of Early Dismissal apply. Drills will be conducted yearly.

### **Relocation/Sheltering**

Relocation/Sheltering, inside the school, is implemented under conditions when it is safer for students and staff to remain inside the building than to evacuate or be dismissed early (e.g. a tornado warning). The decision to shelter students on site is made by the building administrator or his/her designee. Where to shelter students and staff on site will depend upon the nature of the emergency. During a high wind advisory or tornado warning, for example, sheltering should take place at the building's lowest level in interior rooms or corridors (preferably away from windows & doors). Other emergencies may call for students and staff to remain where they are (i.e. lockdown). A code or similar system is in place to inform staff members what actions to take. If the sheltering period is to be extended more than a few hours, arrangements to meet basic human needs (toilet facilities, water, food) must be accounted for.

Relocation/Sheltering off site may be required when students and staff cannot remain in the building or on school grounds but also cannot be dismissed. Such conditions require that an alternative site be available and that a means of moving or transporting students be arranged. Arrangements to seek approval for off-site Relocation/Sheltering will begin as soon as possible and may include, but not be limited to SUNY New Paltz, BOCES, Elks Lodge, St. Joseph's, Church of Nazarene, New Paltz Christian Church, New Paltz Reformed Church, Christ the King Church.

### **Hold-in-Place**

Hold-in-place is used if there is an internal incident or administrative matter such as students fighting in a hallway, a maintenance issue, or medical emergency that requires students and staff movement be limited. This is intended to keep students and staff out of the affected area until the situation can be rectified.

### **Lockout**

Lockout is implemented when an incident is occurring outside the school building or off school property. (i.e. NYS Thruway incident) No unauthorized personnel allowed into the building. All exterior doors will be locked. All students outside the building will return inside. Appropriate monitoring of the main entrance and all doors will occur. All normal school day activities will continue with no outside activities. **NO** cell phone activity is allowed.

### **Lockdown**

Lockdown is implemented when there is an immediate or imminent threat to the school building population. (i.e. intruder) All building doors are locked, including classrooms and offices. Students in activities outside the building will be instructed either to reenter the building or move to a secure area away from the building. School staff and students are to remain in the rooms they are currently in until the situation is resolved. **NO** movement in the building is allowed. **NO** one will enter or leave the building until the situation is resolved. Campus will be secure, **NO** Unauthorized personnel will be allowed onto the site or into the building. **NO** cell phone activity is allowed. Drills will be conducted yearly.

## **New Paltz Specific Protective Action Plans and Training**

### **Fire Lanes**

The New Paltz Central School Board of Education has established fire lanes around each school facility, hereby prohibits the parking of vehicles in the prescribed fire lanes and uses the assistance of the New Paltz Police

Department in the enforcement of this policy. The Superintendent of Schools is directed to ensure that such lanes are appropriately designated, and clearly marked.

## Cross Walks

In conjunction with NYS Department of Transportation and local police cross walks have been established in various high pedestrian areas in both parking lots and across streets adjacent to school building

## After-School Programs

The building principal or his/her designee shall require those in charge of after-school programs, attended by any individuals unfamiliar with the school building, to announce at the beginning of such programs the procedures to be followed in the event of an emergency.

## Outside User Groups

The Director of Facilities and Operations shall require those in charge of after-school programs, attended by any individuals unfamiliar with the school building, to announce at the beginning of such programs the procedures to be followed in the event of an emergency.

## single Point of Entry Protocols

Visitors to the District's buildings will be required to be "buzzed in" from a single point of entry. Visitors will be required to show ID to the front desk personnel and sign both in and out of the building. Visitors will be instructed to allow no one else through the door with them. Visitors will wait for their child at the front desk or be instructed to go directly to the room they are visiting.

Staff and students will be constantly reminded that they are not to open the door to anyone for entry into the building. HS students and all District staff will be issued proximity cards and assigned specific doors that they may enter through. Faculty and staff will need permission to enter the building when school is not in regular session from their building administrator.

## **CIVIL DISTURBANCE**

**NPCSD** Utilizes the NYS Homeland Security Guidelines. For Lockdown, Lock out, Intruders, Evacuation, Relocation , Sheltering and Bomb Threat. Training is provided for employees and students. Incident directions are posted in each classroom and located in all substitute teacher folders.

## Bomb Threats

In an effort to ensure the safety and protection of the students, staff and other occupants of the District's buildings and facilities while minimizing the potential disruption to the educational programs, the New Paltz Central School District directs the School

Administration to take reasonable and appropriate action when confronted with a bomb threat. Each bomb threat must be analyzed for its potential authenticity and assessed in terms of the level of the threat, taking into consideration the specificity of the threat, the location, if any, and time of detonation. The Building Principal will determine, based upon the level of threat, whether or not to evacuate the building and order the reentry of the facility. The following are acceptable responses to a bomb threat, depending upon the nature and level of the threat:

- **Pre-clearance** of the building and maintenance of security to ensure no suspicious objects have been brought into the building by students, staff or visitors.
- **Relocation/Sheltering** students in an area which has been “sanitized and cleaned”.
- **Evacuation** of the building after searching exit routes and evacuation areas.

## Dissemination of Information/Criminal Behavior

Information should be disseminated informing students and staff that the mere reporting of a false bomb threat is a crime that may result in imprisonment and/or civil penalties being imposed against the individual. The building administrator will be responsible for informing school staff and students as to the appropriate procedures to be followed in the event of a bomb.

## Biological Terrorism

The District has developed protocols for handling mail or packages. Common sense and care should be used in inspecting and opening mail or packages. Mail and packages are delivered to a central receiving area and then disseminated to the respective buildings..

## WEATHER EMERGENCIES

The District monitors weather reports, and receives alerts from CompuWeather. Service and weather emergency radios and state and local emergency services. Cancellation of educational programs will be done if deemed necessary.

## Flood

The District maintains an active set of transportation plans to deal with locally flooded roads. Flood plans are reviewed annually.

Parents in these areas receive information about their particular situation directly.

PLAN A- Flooded area is Springtown Road (between Dug Road and Kleine Kill Road).

PLAN B - Flooded area is in two areas on Springtown Road (between Rt. 299 & Dug Road).

PLAN C- Flooded areas on Springtown Road between 299 & Cragwood Road. The bus routes will need to be split and the following two plans will be in effect:

PLAN D –Flooded areas are Route 299 from the Wallkill Bridge to Libertyville Rd. as well as Libertyville Rd between Rt 299 and Unity Lane.

## Snow/Ice Storm

The guidelines and procedures presented in this notice will be followed except in very unique circumstances which would cause school officials to take alternate action.

1. **SURFACES:** Road conditions, school driveways, and parking lots need to be declared safe for use by the responsible governmental units.
2. **ICE:** Surfaces must be sanded. It is expected that buses will not end the routes with the sanded surface covered by new icing.
3. **TEMPERATURE:** When the temperature is below -15 degrees Fahrenheit at 5:15 AM, a delay will occur. At 7:15 AM the final decision to open or close schools for the day will be made. This decision will be based on the temperature at that time and the forecast for the day provided by the professional weather service contractor.
4. **WIND CHILL:** When the wind chill factor is predicted to be below -25 degrees Fahrenheit at 5:15 AM, a delay will occur. At 7:15 AM the final decision to open or close schools for the day will be made. This

decision will be based on the temperature at that time and the forecast for the day provided by the professional weather service contractor.

5. **AFTER SCHOOL STARTS:** When a storm arrives after school starts, the schools will remain open unless a heavy snowfall is predicted to continue into the afternoon hours. If this is the case, then the schools may close earlier. The Transportation Office will notify the radio stations of early dismissal times. Lunches will be served prior to dismissal whenever possible.

## **Tornado, Thunder/Lighting Storm Watch/Warning**

Students are trained annually in personal safety during weather emergencies as per the “Tornado Preparedness Tips for School

Administrators” &” Thunderstorms... Tornadoes... Lightening... A Preparedness Guide”, issued by the National Oceanic & Atmospheric Association (NOAA) Establishment of Sheltering locations within each school building is ongoing. These locations should be on the building’s lowest level and interior locations away from windows and doors (i.e. corridors). Areas with long-span roofs & sky-lights (e.g. gymnasiums) should be avoided.

### **BUILDING STRUCTURE EMERGENCY**

Every five years the District performs a building conditions survey in compliance Rebuilding Schools to Uphold Education (RESCUE) - 8 NYCRR 155 and Education Law 3641. Due to changes to this legislation which may not allow a BCS to be done as necessary, but rather on a state-wide staggered schedule, the district will be considering the need to conduct a similar assessment of its facilities in the next school year, if warranted. Preventive maintenance checks are performed on an ongoing basis, and areas that are in need are addressed. Maintenance and repairs are made in all areas of deficiency.

#### **Structural Failure**

Structural plans are available for all District buildings which indicate all egress points, classrooms, and mechanical systems.

## **Water Emergency**

Plans are in place for the provision of water in the event of a boil water alert. Other types of water emergencies are dealt with through implementation of associated building structure emergency plans.

## **System Failure**

All relevant personnel are familiar with the basic operation of the major systems in the building (e.g. HVAC, electrical).

Mechanical systems drawings are available.

## **Hazardous Materials Incident (Hazmat)**

Training is provided for those individuals who are likely to encounter a HazMat Incident. Copies of current Emergency Response Guidebook. The District will provide local Emergency Services with copy of hazardous materials located on District property. Material Safety Data Sheets (MSDS) are available in each of the building.

## Fire / Emergency Drills

Training will be in procedures for leaving the building in the shortest possible time and without confusion or panic. Emergency escape plans are posted in all classrooms and other locations of pupil occupancy. Drills shall be held at least twelve (12) times in each school year; eight (8) of these shall be held between September 1 and December 1. At least one (1) of the twelve (12) drills shall be held during each of the regular lunch periods, or shall include special instruction on the procedures to be followed if a fire occurs during a student's lunch period. At least two (2) additional drills shall be held during summer school in buildings where summer school is conducted and one of these drills shall be held during the first week of summer school.

## Gas/Oil Leak

Applicable people will be trained in the location of the following: main gas shut-off to building; gas meter; and, emergency gas shut offs in science labs and other relevant locations and the correct procedures to safely close off these valves. The phone number for Central Hudson gas leak response (800-942-8274).

## Telephone System Failure (District-Wide)

The district wide phone system is not like household phone systems. One phone line does not equal one phone call. There are dedicated emergency use phone lines for specialized equipment such as automatic dialers for intrusion and fire alarms, our main phone lines branch out and have the ability to handle several phone calls at the same time. In case of failure back up cell phones and radios a provided to attend to essential safety functions.

## MEDICAL EMERGENCY

Standing medical procedures have been established in conjunction with the District physician. The District employs Registered Nurses in each of the educational buildings. 911 will be called to any District emergency which is out of the scope care of the District Registered Nurses. (BOE 7520)

## **REOPENING PLAN: CLEANING & DISINFECTIONS OF SCHOOLS**

The CDC has provided reopening guidance for cleaning and disinfections, with specific guidance for schools. School wide cleaning must include classrooms, restrooms, cafeterias, libraries, playgrounds, and busses. The guidance provides a framework for cleaning and disinfection practices which includes:

- Normal routine cleaning with soap and water will decrease how much of the virus is on surfaces and objects, which reduces the risk of exposure;
- Disinfection using US Environmental Protection Agency (EPA)-approved disinfectants against COVID-19. Where disinfectants are used, products should be registered with EPA and the NYS

Department of Environmental Conservation (DEC). Frequent disinfection of surfaces and objects touched by multiple people is important;

- When EPA-approved disinfectants are not available, alternative disinfectants can be used (e.g., 1/3 cup of bleach added to 1 gallon of water or 70% alcohol solutions). Do not mix bleach or other cleaning and disinfection products together. This can cause fumes that may be extremely dangerous to breathe in. Keep all disinfectants out of the reach of children;
- Identifying cleaning and disinfection frequency for each facility and area type; and
- Maintaining logs that include the date, time, and scope of cleaning and disinfection in a facility or area. Considerations and training have been made regarding the safety of custodial staff and other people who are carrying out the cleaning or disinfection. The following high touch surfaces will be cleaned and disinfected throughout the day. These include:
  - Tables

## **Section IV: Recovery**

The extent of, and need for, disaster or emergency recovery depends in large part upon the nature of the incident. The New Paltz Central School District administration will provide the necessary resources to ensure as smooth a transition back to normal operations as possible following an emergency or violent incident.

New Paltz Central School District will support the Emergency Response Teams and the Post-Incident Response Teams in school buildings affected by emergencies or disasters by providing both financial and logistical support. The District will also assist these teams by interfacing with relevant regulatory agencies and the media.

The New Paltz Central School District office, under the direction of the Superintendent, shall facilitate the coordination of disaster Mental Health Resources by interfacing with the State Emergency Management Office, the NYS Office of Mental Health, and the American Red Cross.

### **CRITICAL INCIDENT RECOVERY PLAN**

Upon the event of a crisis, the administrators in each building will convene a meeting with the social workers, psychologists, counselors, nurses and other pertinent personnel to develop an action plan. Facts of the incident need to be established and verified.

#### **For the Faculty**

Faculty will be informed either on prep periods, lunch periods, or at an emergency faculty meeting at the end of the day. Crisis team members will be available for debriefing and processing throughout the day. Information will be disseminated in the form of a memo as well. An area in each building will be designated as a support room for staff to go to talk, make phone calls, etc. Information on speaking with students will be disseminated. Follow up faculty meetings will be conducted as per the gravity of the situation.

#### **For the Students**

Crisis team members will distribute guidelines for teachers on talking to their classes about the incident. Crisis team members will be available to support teachers in conducting these discussions.

Crisis team members will be available for debriefing /processing for individuals and/or small groups of students. Parents of distraught children will be notified. The crisis team member will conduct follow up sessions with the child as deemed necessary. If additional intervention is necessary, a referral to community services will be made. The crisis team will assess the need for ongoing monitoring of students in the event of a long term crisis and report results to building administration.

#### **For the Parents/Community**

The Crisis team will assess the need for outreach with parents and will discuss with building Administration. Outreach may include informational memos, informational group meetings. Meetings would be held at the district-wide level in one location then broken down by appropriate developmental stage. Memos will be sent out with each student from each building to notify parents of an informational meeting. A resource list will be compiled and available for parents and community members upon request.

## **For the Crisis Team**

Crisis team will debrief with each other as a team at the earliest availability not to exceed forty-eight hours. In the event of a long-term crisis, these meetings will take place on a regular basis. In the event that additional personnel are needed, the BOCES county-wide plan will be implemented.

## **RESPONSE TO SUDDEN SCHOOL COMMUNITY MEMBER TRAUMA/DEATH**

### **Preparatory** (before sudden adolescent death)

1. School districts should consider which in-district clinical support staff (psychologists, social workers, guidance counselors, etc.) will be assigned, as Crisis Team Members, to each building in the district should a crisis occur. Provision should be made for these identified staff members to have training.
2. School principals should consider, in advance, the potential locations of crisis centers.
3. School districts should project the extent of their need for support from the countywide Resource Providers prior to crisis situation.
4. School districts should consider which district professional will be designated as primary spokes-person to deal with the media.
5. School principals should consider, in advance, which building staff member will serve as an assistant organizer/decision maker during the time of crisis.
6. Arrangements should be made to cover the absence of the school principal.

### **Procedural** (after sudden adolescent death)

#### **Alert Day**

1. School community member found dead of an apparent suicide or other sudden death.
2. District representative (school principal, central office administrator, psychologist) contacts Crisis Team Members (in-district) as soon as possible.
3. Local district Superintendent contacts, Ulster BOCES, requesting assistance from Countywide Resource Providers, if necessary
4. Local district administration designates primary spokesperson to deal with the family.
5. Local district Superintendent contacts and confirms the district professional who is the designated primary spokesperson to deal with the media.
6. Building principal contacts and forms an assistant organizer/decision maker to facilitate response plan in the school building which has been affected.
7. Building principal or Crisis Team member in building where sudden death has occurred contacts Crisis Team members in other district schools if necessary. This is important to provide support for siblings, relatives, and close friends in other schools.
8. Building principal designates an individual who will have primary responsibility for answering parent questions.
9. Building principal activates telephone chain to announce a faculty meeting prior to the opening of school on the next.

#### **Day One (In School)**

1. Early morning faculty meeting is held with several purposes:

- a) Principal reviews the known facts of the case, in order to establish a common reference base and to dispel rumors.
  - b) Principal introduces crisis team members, reviews special schedule for day and communicates the location of the "crisis centers".
  - c) Crisis team members describe the feelings which students may be experiencing and suggest how the teachers might handle them. Time is allowed for questions and dealing with the feelings of the staff. Some staff may be particularly upset and require additional support.
  - d) Guidelines are provided for helping any students who are upset and for having them escorted to one of the "crisis centers" set up in the building (guidance office, etc.). Faculty should identify close friends of the deceased and other high need students for potential follow-up.
  - e) Teachers are encouraged to allow students in their classes free expression of grief. The guiding principle is to return to normal routine as soon as possible within each class and within the school. School-wide assemblies or memorial activities are discouraged. If a school-wide assembly is deemed appropriate then provisions for individual and/or small group sessions need to be established.
  - f) The teachers are asked to dispel rumors wherever possible.
  - g) In the event of a suicide, teachers are asked to discourage any "glorification" of the event. For example, if a student is heard to say, "I wouldn't have the guts to kill myself", the teacher can respond, "We all care for the individual and his/her family, but suicide is not really a brave act! It is far more courageous to go on living and to face your problems each day as you and I do."
2. The principal, and/or guidance counselors, and clinical staff may meet with - each grade, either by individual homerooms or by total grade (if possible) in order to:
    - a) Review the known facts and to dispel rumors.
    - b) De-mythologize the act. (This is not heroism or a media event. It is a reality concern for the family.)
    - c) Inform students and staff of the location and role of the crisis center.
    - d) Encourage students to express their reactions in whatever way that is appropriate for them. (All responses are acceptable, from severe upset to no reaction whatsoever.)
    - e) Students should have the opportunity to request additional assistance in a confidential way through index cards distributed to the whole student body.
    - f) Discuss possible guilt or feelings of responsibility.
    - g) Discuss possible fears for their own safety and that of their siblings and peers.
    - h) Ask students to be supportive of one another and to escort any friend who is upset to a teacher or the crisis center.
    - i) Reassure students that any adult in the building is available to help.
    - j) Encourage students to discuss their feelings with their parents.
  3. Telephone calls are made to parents of individual students who are particularly upset during the day. The crisis team will collaborate to determine which parents are called. This telephone contact is ideally handled by clinical staff that can explain the student's reactions to the parents and give appropriate advice as to how parents should handle their son/daughter. Some parents may be asked to pick up the student at the school.
  4. All building staff are assembled after school to:
    - a) Allow for the expression of feeling and mutual support. (After a full day of dealing with their own emotional responses and that of their students, the teachers are generally quite drained.)
    - b) Review the events of the day.
    - c) Review the characteristics of high-need students (those who seem especially upset or depressed or show other signs of needing individual attention), and compile a list, based on staff observations, of

these individual students. Arrangements can be made for clinical staff from Ulster County Mental Health Services to provide in-school counseling.

- d) Announce the funeral arrangements and encourage staff to attend, in order to provide support to students and their families.

### **Follow-up Activities**

The Crisis Team shall suggest follow-up activities to the building Principal and Superintendent of Schools who shall determine the most appropriate course of action. It is further suggested that staff be reminded that there is one media contact person.

1. Outside consultants may be called upon. At this point, it may be helpful to have "outside" professionals because they are not emotionally involved and can, therefore, provide objective support and direction. Some of the services they can provide are:
  - a) Recommend to parents private evaluations for "high risk" students.
  - b) Speak at a general faculty meeting on the issue of adolescent suicide; identification, prevention, response.
  - c) Conduct evening informational meetings for all concerned community members.
2. Guidance and clinical staff continue meeting with individual students and small groups to provide support, and to further identify "high risk" students and faculty.
3. Contact all parents of students identified as "high risk" to express concern and to suggest possible follow-up evaluation by informing parents of community and county resources that are available.
4. Outside consultant and school staff may conduct an evening meeting of all concerned parents to answer question and allay concerns.
5. Guidance and clinical staff continue crisis intervention, answer phone calls of anxious parents, and meet with concerned staff.
6. The Principal and Superintendent of Schools will determine whether letters should be sent to parents of "high risk" students reminding them to seek a private or community professional evaluation, in order to insure the health and safety of the child. (Return receipt mail is suggested.)
7. "School/Community Steering Committee" can be formed and can plan a meeting for all interested community leaders to discuss a community-wide response to the needs of the teenagers of the town.
8. "Front-line" staff who have been dealing directly with the crisis should meet with a consultant for expression of feelings and mutual support. (This is a necessary ingredient.)

### **Long Term Issues**

A meeting of the local school district crisis team should be scheduled within 3 months to review the efficacy of the procedure and to identify any students and staff in need of further support. Attention should be given to events that may reactivate grief responses to a traumatic event, i.e., graduation, the anniversary of the event, or New Years.

### **Closing Comment**

An outside support consultant can help the Superintendent, Principal, and other key coordinators to examine their own view of the situation and, at the same time, validate key responsibilities toward children, teachers, parents and/or the community as a whole.

### **Resource**

Solanto Joseph R., Ph.D., "The Days After; A School's Response in the Aftermath of Sudden Adolescent Death" from Teenage Suicide Prevention Intervention Response.

## **COUNTYWIDE RESOURCE STAFF**

Each building will have a listing of resources who are offering their services with the support of their respective Superintendents of Schools on a request basis to local school districts. Additional expertise is being provided by the identified mental health professionals. School districts, without sufficient experience in dealing with the delicate issue of child/adolescent death or in need of extra staffing required to implement a response plan, may contact the Ulster BOCES to request assistance. Support may be in the form of consultative services or direct intervention as determined by a requesting district.

### **Countywide Response Plan to Sudden Child/Adolescent Death**

In recent years, we have witnessed a growing concern for the traumatic phenomenon of sudden child/adolescent death and its impact in our school community. Faced with the challenges and realities presented by this social problem, the Ulster County Superintendents' Council joined forces in eliciting a countywide response to the issue. This effort was undertaken by a steering committee consisting of representatives from each district, the Ulster County Task Force on Youth Depression and Suicide Prevention, and Ulster BOCES. The charge of this committee, known as the Traumatic Event Team (TET), was to develop a response plan which:

Established a list of Countywide Resource Providers consisting of professionals from local school districts, BOCES, and the Ulster County Mental Health service agencies who would be available as support personnel to a district who experiences a traumatic event.

Provided preparatory and procedural guidelines which school districts may follow in response to the aftermath of such an incident.

In addition, the TET prepared general recommendations for developing and implementing a suicide prevention/intervention protocol at the local school district level and a listing of available resources.
