The Doubles Pot, Part 1

Write the number that comes out. Then write the number sentence.

Family Connection

Students heard and discussed a story called "Two of Everything" about a magical pot that doubles everything that is put into it. Put in 4 crayons—out come 8 crayons! **Questions you might ask your child:** "What if we put in 3 pairs of shoes? How many pairs would come out? And how many shoes in all would that be?"

- | | |
|---|---|
| ① If I put 1 in, <u> 2 </u> comes out. | <u> 1 </u> + <u> 1 </u> = <u> 2 </u> |
| ② If I put 2 in, <u> </u> comes out. | <u> </u> + <u> </u> = <u> </u> |
| ③ If I put 3 in, <u> </u> comes out. | <u> </u> + <u> </u> = <u> </u> |
| ④ If I put 4 in, <u> </u> comes out. | <u> </u> + <u> </u> = <u> </u> |
| ⑤ If I put 5 in, <u> </u> comes out. | <u> </u> + <u> </u> = <u> </u> |
| ⑥ If I put 6 in, <u> </u> comes out. | <u> </u> + <u> </u> = <u> </u> |
| ⑦ If I put 7 in, <u> </u> comes out. | <u> </u> + <u> </u> = <u> </u> |
| ⑧ If I put 8 in, <u> </u> comes out. | <u> </u> + <u> </u> = <u> </u> |
| ⑨ If I put 9 in, <u> </u> comes out. | <u> </u> + <u> </u> = <u> </u> |
| ⑩ If I put 10 in, <u> </u> comes out. | <u> </u> + <u> </u> = <u> </u> |

Mixed Review and Test Prep

⑪ Which number is the same as its double?

25
