SECTION 1: INTRODUCTION

Response to Intervention (RTI) functions as a significant educational strategy or framework designed to identify students who may be at-risk in their academic performance. The overall purpose of RTI in the New Paltz Central School District is to provide those students who are struggling to meet the demands of the curricula in English Language Arts, mathematics, and behavior with interventions targeted to their learning needs.

Response to Intervention Defined

Response to Intervention integrates assessment and intervention within a multi-tiered system to facilitate student achievement. With RTI, schools use data to identify students at risk for poor learning outcomes, monitor student progress, provide evidence-based interventions and adjust the intensity and nature of those interventions depending on a students' responsiveness. This process is imperative for student success as well as valid identification of and support of students with learning disabilities. (NCRTI, 2010).

Legislative Background and Regulatory Requirements

I. New York State RTI Requirements:

In September of 2007, the NYS Board of Regents approved multiple amendments to 8 NY Code of Rules and Regulations (8 NYCRR) that require schools to establish an RTI policy and procedures for students in the elementary grades in the area of literacy and mathematics. These amendments established a policy framework for RTI in regulations relating to school-wide screenings, minimum components of RTI programs, parent notification, and the use of RTI to identify students with learning disabilities. The addition of Section 100.2(ii) to Part 100 of the Commissioner's Regulations, set forth minimum requirements for the RTI process. Based on NY State regulations, the RTI framework shall include:

- A. **Appropriate instruction** delivered to all students in the general education class by qualified personnel. Appropriate instruction in reading means scientific research-based reading programs that include explicit and systematic instruction in phonemic awareness, phonics, vocabulary development, reading fluency (including oral reading skills) and reading comprehension strategies.
- B. **Screening assessments** administered to all students in the class to identify those students who are not making academic progress at expected rates.
- C. **Instruction matched to student need with increasingly intensive levels of targeted intervention** and instruction for students who do not make satisfactory progress in their levels of performance and/or in their rate of learning to meet age or grade level standards.
- D. **Repeated assessments** (benchmarking/progress monitoring) of student achievement which should include curriculum-based measures to determine if interventions are resulting in student progress toward age or grade level standards.

- E. The **application of information** about the student's response to intervention **to inform educational decisions** such as changes in goals, instruction, supporting services, and (if needed) the decision to make a referral for special education programs and/or services.
- F. **Written notification to the parents** when the student requires an intervention beyond that provided to all students in the general education classroom. The written notification will provide information about the:
 - 1. amount and nature of student performance data that will be collected;
 - 2. the services that will be provided;
 - 3. the strategies for increasing the student's rate of learning
 - 4. the parents' right to request an evaluation for special education programs and/or services.

II. Procedural Regulations Required for Districts:

- A. Establish a plan and policies for implementing school-wide approaches and pre-referral interventions in order to remediate a student's performance prior to referral for special education, which may include the RTI process as part of a district's school-wide approach
- B. Establish criteria for determining the levels of intervention to be provided to students
- C. Identify types of interventions
- D. Identify amount and nature of student performance data to be collected
- E. Identify the manner and frequency for progress monitoring.
- F. Implement an RTI program and take appropriate steps to ensure that staff has the knowledge and skills necessary to implement an RTI program and that such program is implemented consistent with the specific structure and components of the model.
- G. Establish criteria to determine if the nature of a student's difficulties in reading or mathematics at the elementary level is the result of learning disabilities (LD). ***"Effective on or after July 1, 2012, a school district shall not use the severe discrepancy criteria to determine that a student in kindergarten through grade four has a learning disability in the area of reading."*** [8 NYCRR section 200.4(j)]

In addition to the above RTI requirements, regulations adopted by the Regents require a review of reading and/or mathematics instructional programs for any student who has scored below benchmark expectations on screening assessments.

Students with low test scores must be monitored periodically through screenings and ongoing assessments of the students' reading and mathematics abilities and skills.

If the student is determined to be making substandard progress in such areas of study, instruction shall be provided that is tailored to meet the student's individual needs with increasingly intensive levels of targeted intervention and instruction.

RTI in New Paltz Central School District

As it is within all school districts across the nation, RTI is and will always be a "work in progress". Identification of and response to changing needs among a diverse student population is and *should*

always involve a commitment to engage in the process of continuous reflection, evaluation, growth, and revision of policies, procedures, and personnel decisions. Guided by the review of ongoing research and developments in various fields of education (i.e. assessment, instruction/intervention, curriculum, special education, educational technology, etc.), the New Paltz Central School District intends this document and the resulting practices to evolve in order to best serve students and their families; therefore, the following should be noted:

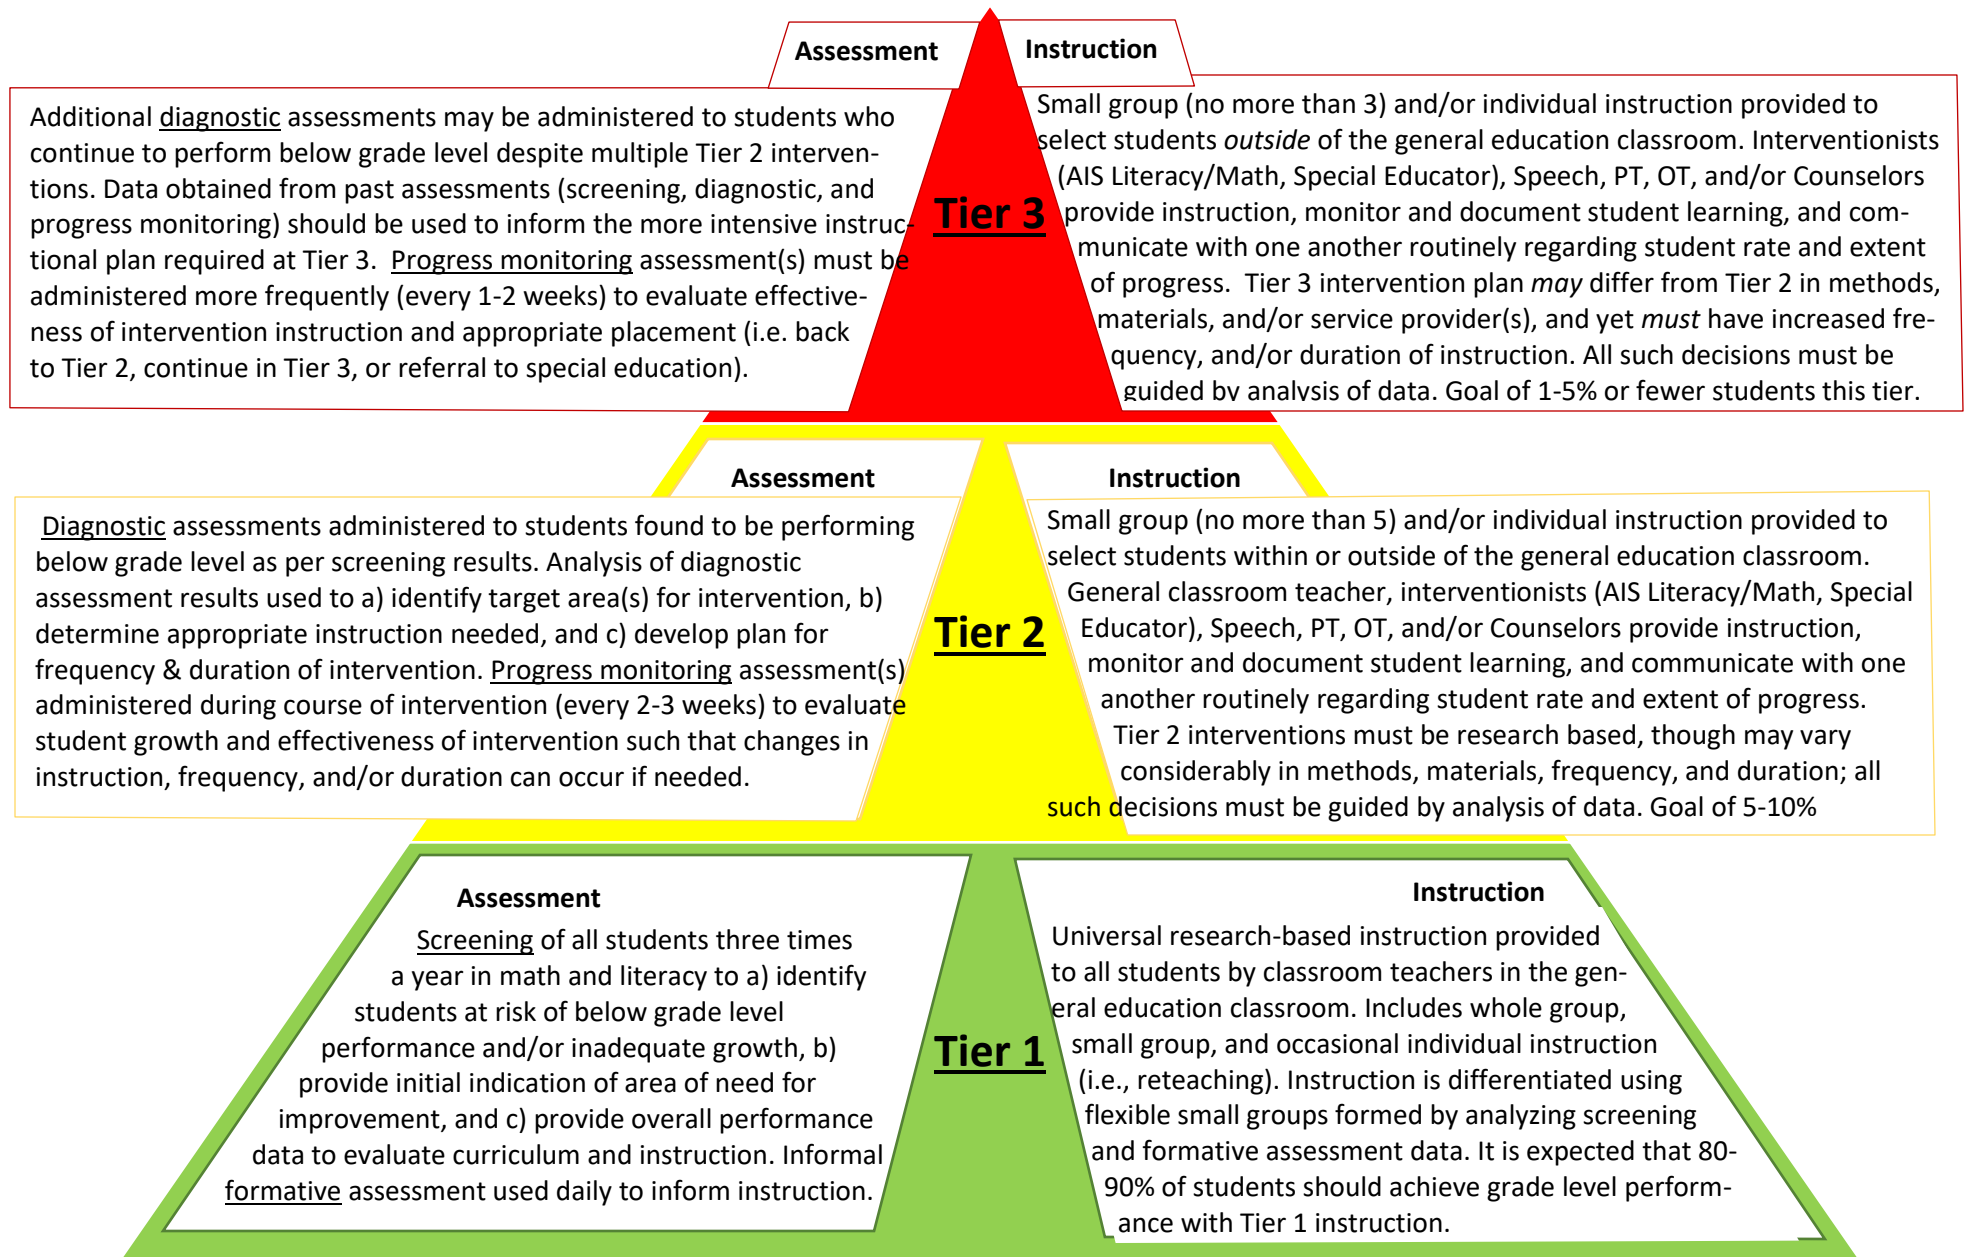

- A. The purpose of this document is to guide the district toward implementing RTI as federal and state laws require and as is needed for equity in the education of all students.
- B. There will be an ongoing review and revision of policies, procedures, and personnel decisions that align with the purpose stated above and the goals of the district.
- C. Operationalizing the multifaceted aspects of RTI necessitate collaboration, communication, learning, reflection, flexibility, and patience.

SECTION 2: RTI AS A DATA DRIVEN MULTI-TIERED INTERVENTION FRAMEWORK

NPCSD's Three-Tiered RTI Model

RTI serves as a multi-tiered intervention framework with increasing levels or tiers of instructional support as determined by assessment data. The *New Paltz CSD Three-Tiered RTI Model* presented below provides a visual illustration of the district's RTI model. It is important to note that the instruction a child receives within Tiers 2 and 3 of RTI is **supplemental** in nature. That is, the instruction is **in addition to and not in place of** core instruction students receive in the classroom. Further information about the assessment system and each tier follows the model.

New Paltz CSD Three-Tiered RTI Model

Assessment System

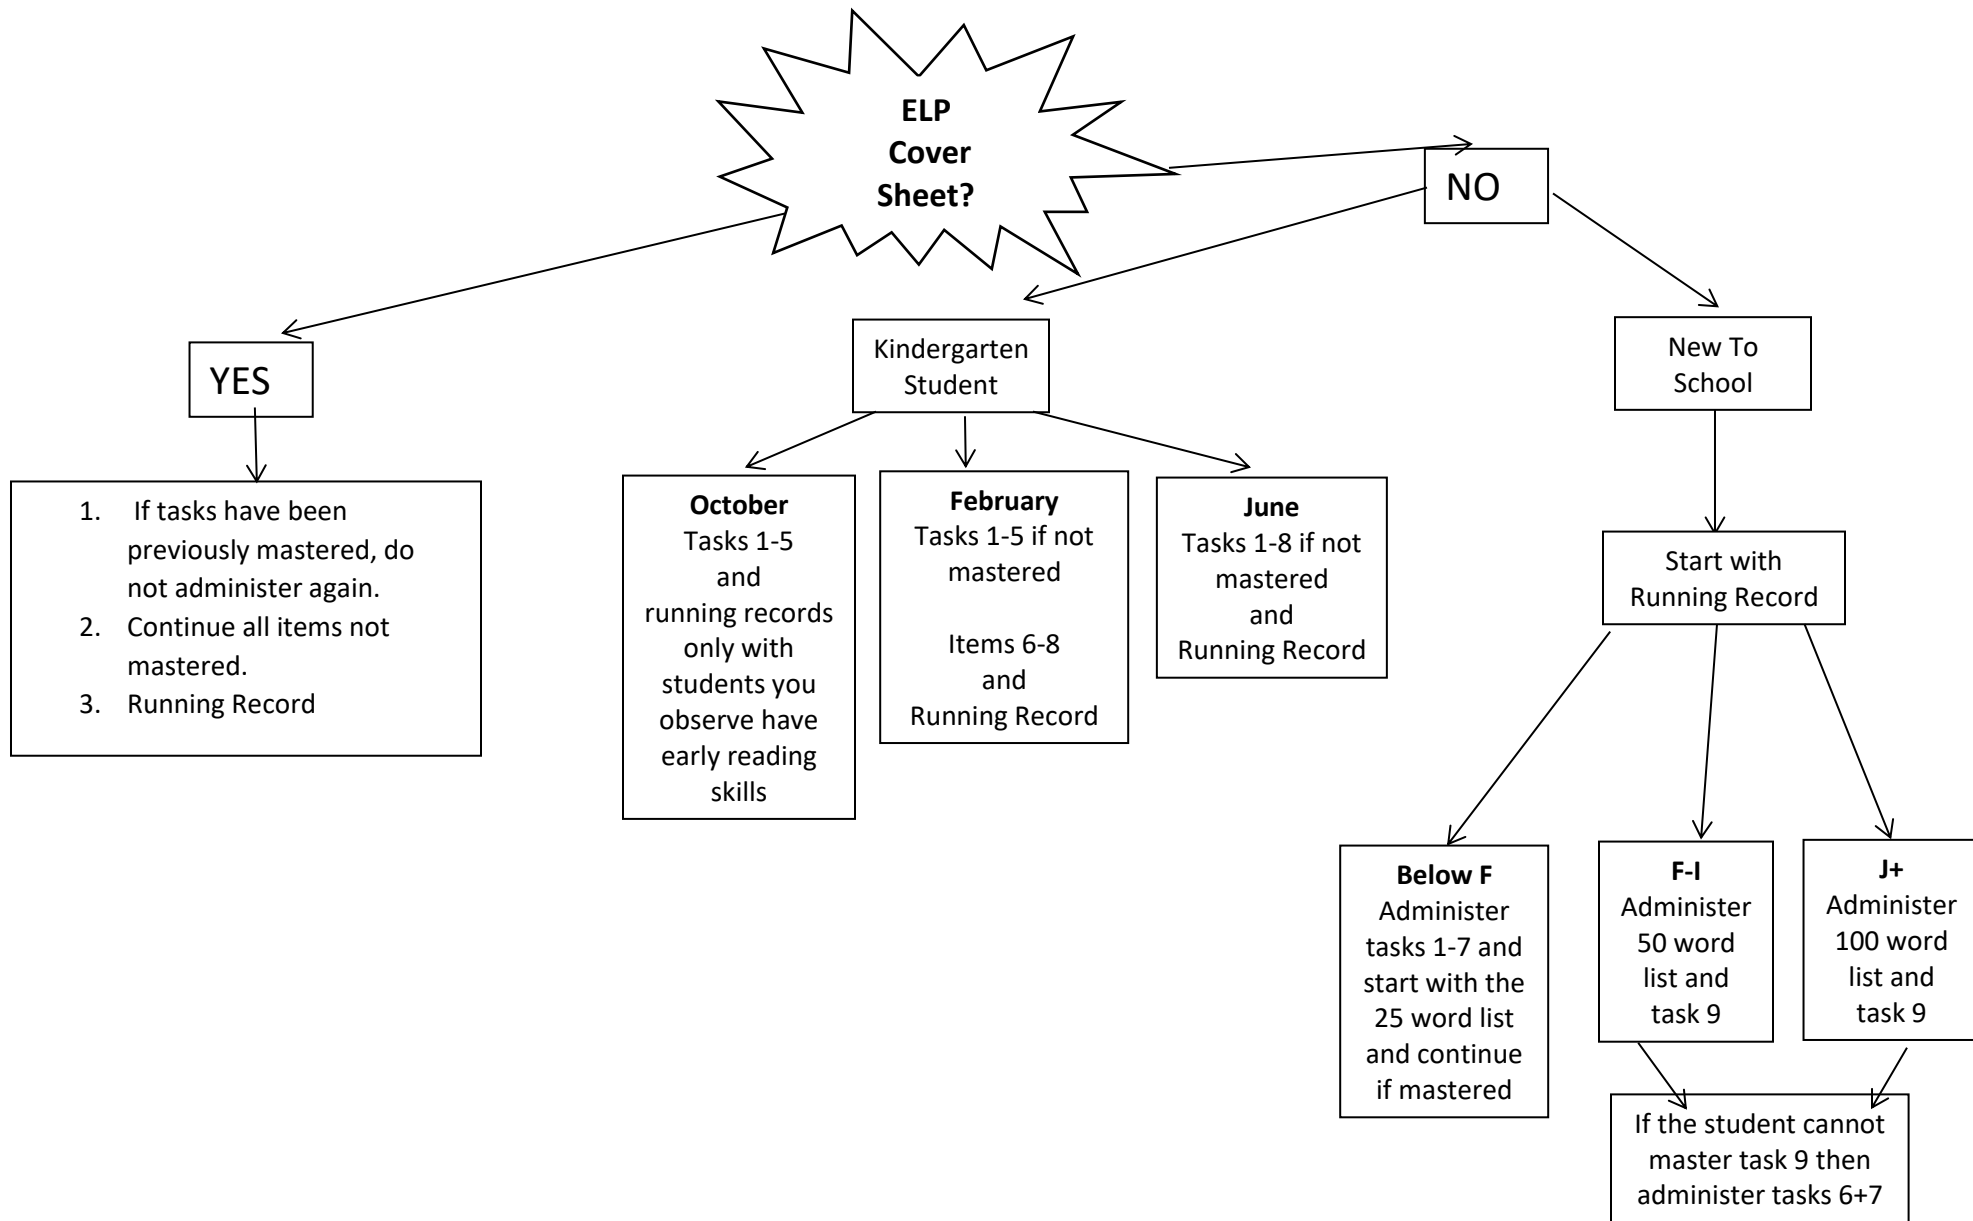

General Assessment Information

Students' participation in the multi-tiered system of supports (MTSS) is determined by the review and analysis of various sources of data. Four types of assessment are utilized within this system to ensure a) timely identification of students needing support, b) an effective plan for intervention (targeted areas of instruction, frequency, and duration of intervention, c) students' progress or growth within any level of instruction and/or intervention (Tier 1, Tier 2, or Tier 3), and d) continuous evaluation of curriculum, instruction, and student learning. Although most assessment tools can be categorized as screening, diagnostic, or progress monitoring, some assessment tools may serve varying purposes within an RTI system.

- A. **Screening:** The purpose of this type of assessment is to efficiently identify students who may be experiencing difficulty making grade appropriate progress and achievement. Screening assessments are administered to all students at specific times within the academic year. Results from these assessments inform educators of a student's difficulty, yet (in most cases) are insufficient for determining the extent of a difficulty, the specific areas needing support, and the cause of the difficulty. Screening assessments should be normed (meaning that the assessment instrument has been developed to provide grade/age level expectations) and valid (meaning that the assessment has been developed to ensure that results are accurate). Administration of screening assessments should be standardized to ensure valid and reliable results.
- B. **Diagnostic:** The purposes of this type of assessment are to determine the extent and specific area(s) of difficulty initially identified by a screening assessment. For this reason, diagnostic assessments are often lengthier and administered only to selected students. When combined with other sources of information (i.e. health history, social/emotional, school attendance, etc.) diagnostic assessment results may enable educators to determine the cause of a student's difficulty.
- C. **Progress Monitoring:** The purpose of this type of assessment is to efficiently and routinely determine the effect of an intervention on a student's targeted area of difficulty. Progress monitoring assessments must be aligned with the targeted intervention and may be developed by educators (i.e. instructors providing intervention) or may be instruments provided within an intervention curriculum.
- D. **Formative Assessment:** The purpose of this type of assessment is to provide immediate feedback to the teacher regarding the effectiveness of instruction *and* to the student to evaluate their own learning. Formative assessment is informal, closely aligned with the objective(s) of a lesson, often created by teachers, and is usually brief in nature. Formative assessment happens *during* instruction, not separate from it. For example, during a lesson focused on addition of double-digit numbers with no regrouping, the teacher may include three problems for students to solve independently or in partners on whiteboards. The teacher listens to students' comments, responds to individual questions, and surveys students' work on the whiteboards to quickly determine the students who have achieved

the objective of the lesson as well as who is struggling and with which parts of the computational process. This information is then used to guide the teacher in the next instructional steps, such as reteaching, clarification of part of the process, or moving on to a more challenging related objective with some or all of the students.

It is assumed that AIS/SPED service providers are conducting progress monitoring assessments to evaluate the intervention and will inform classroom teacher of student's current instructional math level at Trimester Benchmarks.

Progress Monitoring Assessment Options

Effective implementation of the RTI framework necessitates careful monitoring of students' responses to instruction; therefore, progress monitoring assessments must be used within **all** tiers of instruction. In addition, while teachers and interventionists are strongly encouraged to use formative assessment to drive their daily instructional decisions, it is imperative that written (as opposed to oral or anecdotal) evidence of student's **independent** proficiencies be collected for the purpose of monitoring the effectiveness of instruction within each tier. In addition to using benchmark assessments within the frameworks above, some suggestions for progress monitoring measures are provided below with additional resources linked in the Appendix of this document:

- Curriculum Embedded Assessments
 - Chapter or unit tests available through purchased programs
 - Teacher-created end-of-unit/chapter assessments
- Published Informal Assessment Probes/Tasks
 - Maze/cloze assessments of in-text comprehension
 - Informal reading inventories such as the Qualitative Reading Inventory, Reading A-Z Running Records
 - easyCBM printable measures (Reading and Math)
 - Supplemental assessments within the Fountas & Pinnell Benchmark Assessment system
 - Math fact checks
 - Behavior monitoring observational checklists
 - Writing rubrics and checklists
- Unpublished/Teacher Created Brief Assessments

NOTE: such progress monitoring tools must be aligned with objectives of targeted intervention in order to accurately evaluate student progress and determine effectiveness of intervention

 - End-of-Lesson tasks/assignments (i.e. exit tickets, worksheets, practice problems)
 - Writing prompts with specific rubrics for objective evaluation of key aspects or traits of writing
 - Reading response notebook with specific criteria for objective evaluation of targeted instruction
 - Formative running records (i.e. conducted during Guided Reading and or Independent Reading) and utilizing specific criteria for objective evaluation of targeted instruction (such as accuracy percentage, self correction ratio, etc.)

Explanation of Tiers

Tier 1

Tier 1 is considered the primary level of intervention in New Paltz Schools and includes supplemental instruction to the core instructional program for a) a whole class in which the majority (i.e. 75% or more) of students in a class are found to be struggling or below grade level expectations, and/or b) a small group of students evidencing initial signs of academic struggle or difficulty with a particular concept or in one unit of study and therefore needing targeted differentiation and/or reteaching. Tier 1 intervention is provided within the general classroom setting by the classroom teacher and is often done to address a *temporary* need, not a student's *ongoing* difficulty to meet grade level expectations. Some examples of

Tier 1 intervention include but are not limited to providing instructional supports (i.e. graphic organizers, graph paper, additional practice of a taught concept using online programs), assessment accommodations (i.e. extended time), and small group instruction (i.e. reengagement lesson, foundational skills practice, or strategy-focused lesson).

Tier 2

Within the New Paltz Central Schools, Tier 2 intervention includes small group or individual supplemental instruction provided by the classroom teacher and/or an Interventionist Teacher (i.e. Literacy Specialist, Reading Teacher, Speech-Language Pathologist, Math Specialist, School Counselor) or other designated professional to address a student's ongoing difficulty to meet grade level expectations. The services are offered to students either within or outside of the general education classroom setting. As in Tier 1 intervention, Tier 2 intervention is supplemental instruction that is provided in addition to not in place of the core instruction all students receive in the classroom.

The supplemental instruction/intervention provided at this tier is designed to address the needs or weaknesses of the student relative to the curricular demands in literacy, mathematics, or behavior. Students requiring Tier 2 services are those who, based on the analysis of benchmark, progress monitoring, and/or repeated formative assessment results, have not made adequate progress within Tier 1 core instruction and intervention and continue to require supplemental instruction.

Because Tier 2 intervention is a service that is beyond that which is provided to all students in the general education classroom, documentation is required. Before commencing Tier 2 services, a review by the school's Instructional Study Team (IST) is necessary. Parent notification is also required.

Tier 3

Tier 3 services in the New Paltz Central Schools are designed for those students who have made limited progress within Tier 2 intervention(s) or who demonstrate significant needs that warrant more intensive instruction or intervention. Tier 3 interventions are most often provided to an individual student or very small groups of students (i.e. 3 students or less) exhibiting a need for the same targeted instruction. Tier 3 intervention **must** be provided by professional(s) with expertise (i.e. certification, advanced professional development, licensure) in the area(s) of targeted instruction (literacy, math, behavior).

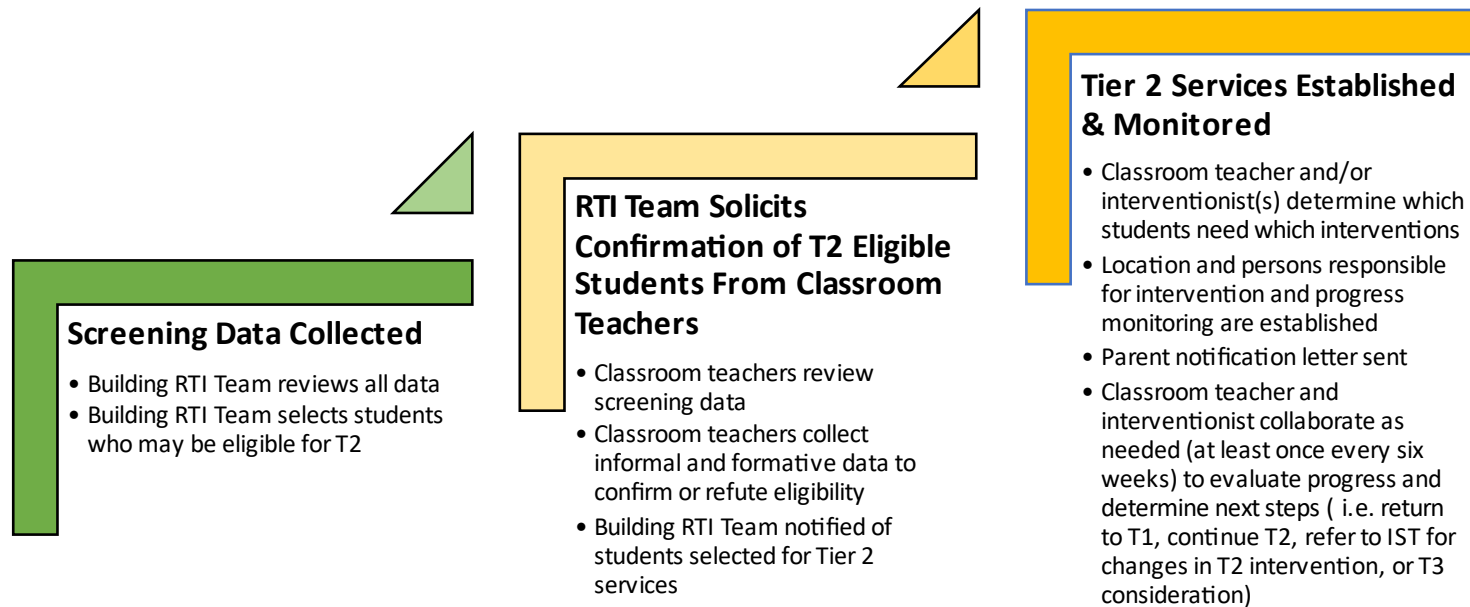

The supplemental instruction/intervention provided at this tier is designed to address the needs or weaknesses of the student relative to the curricular demands in literacy, mathematics, or behavior. Students requiring Tier 3 services are those who, based on the analysis of diagnostic, benchmark, progress monitoring, and formative assessment results, have not made adequate progress within Tier 1 core instruction and Tier 2 intervention instruction, and thus require additional more intensive instruction.

Because Tier 3 intervention is a service that is beyond that which is provided to all students in the general education classroom, documentation is required. Before commencing Tier 3 services, a review by the school's Instructional Study Team (IST) is necessary. Parent notification is also required. At this level, the IST may consider whether increasing the intensity of services and/or making a referral to the Committee on Special Education is required.

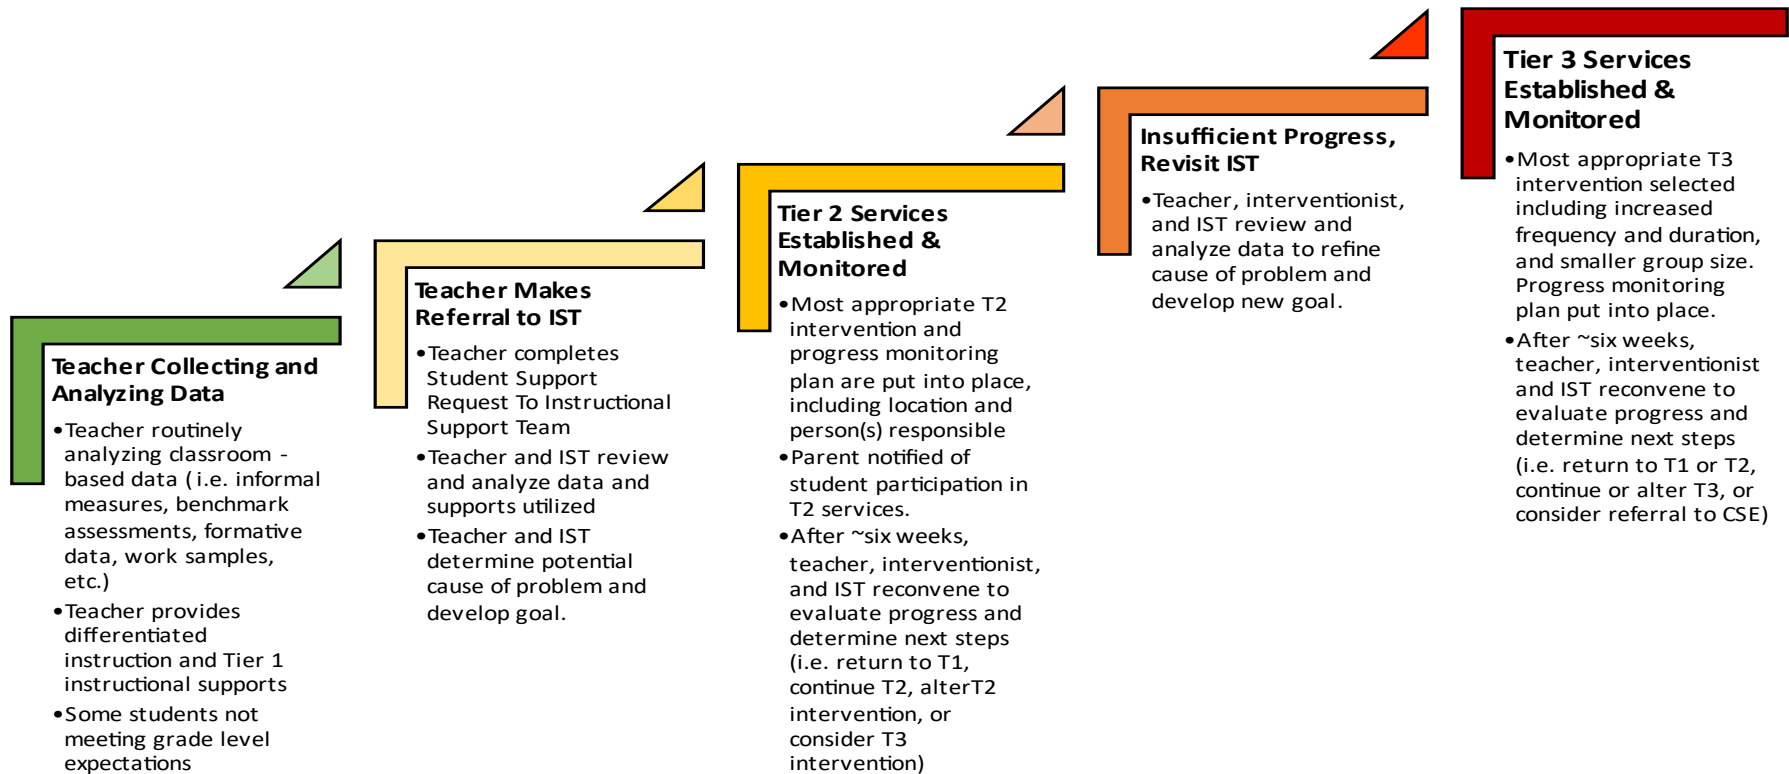

Explanation of Eligibility

Eligibility for Tiers 2 and 3 are determined using multiple measures and benchmarks established at each building in the district (see tables below). No one measure (i.e. state test score or other administered assessment) or subtest score will be used to determine any student's eligibility for services within or outside of the general classroom setting. In addition, specific assessment results will determine which services and interventions within each tier are most appropriate to address each student's needs. Collaborative review of data and discussion among members of Instructional Study Teams (IST) and building level RTI teams will guide eligibility decisions for Tier 2 and Tier 3 services as well as the location of these services (i.e. general classroom, pullout, other) and most appropriate service provider(s). In addition, building-level RTI teams and/or ISTs will review screening, benchmark, and progress monitoring data to determine when students have attained grade level expectations in reading, math, and/or behavior and therefore are no longer eligible for Tier 2 or Tier 3 services.

HS Eligibility Info

Teachers may use the following assessment measures to determine students' need for Tier 1 instructional supports, and eligibility for Tier 2 and Tier 3 services.

GR9 - ELA: Writing sample in September; Mid-term in January; Final exam and project in June all designed to determine students below grade level needing additional support and for the purpose of measuring growth (can inform instruction for following year)

GR10-ELA: Writing sample and practice Regents exams in Semester one; Mid-term in January; Regents exam in June all designed to determine students below grade level needing additional support and for the purpose of measuring growth (can inform instruction/placement for following year)

GR9 - Math: Locally developed pre-assessment, daily/weekly quizzes, curriculum unit tests

GR10 - Math: Algebra 1 Regents exam results, daily/weekly quizzes, curriculum unit tests

GR11 - Math: Geometry Regents exam results, daily/weekly quizzes, curriculum unit tests

SECTION 3: STANDARD INSTRUCTION PROTOCOLS

The following tables provide a brief description of literacy and mathematics instruction for core (Tier 1) and options for intervention (Tiers 1-3) at the elementary, middle, and high school levels. It should be noted that specific programs (i.e., Foundations, Fountas and Pinnell Leveled Literacy Intervention, Lexia, Multi-Sensory Reading) should be used as a support or resource as is deemed appropriate given a students' needs evident from the analysis of assessment results. In addition, instructional options for behavioral intervention K-12 are also provided. In all areas, intervention instruction must be aligned with the specific needs of the student(s) as determined by analysis of assessment results from screening, diagnostic, progress monitoring, and/or formative measures.

SECTION 4: ROLES AND RESPONSIBILITIES IN RTI

Cross-Context RTI Team

This team consists of key personnel from the district administration, district-wide support services, building level interventionists, and classroom teacher representatives from each building/level. The purpose of this team is to monitor and evaluate the implementation of the New Paltz CSD Three-Tiered RTI Model across the district. This team will analyze information collected from building RTI Teams in order to develop and revise policies and procedures, update and revise the district RTI handbook, as well as determine effective ways to support RTI processes within each building/level. This cross-context RTI team will meet no less than bi-annually.

Building RTI Teams

Each building/level in the district will establish an RTI Team whose purpose is to support and monitor the implementation of the New Paltz CSD Three-Tiered RTI Model within the school. As such, the team will:

- Monitor RTI processes within the building (i.e. use of IST/referral forms, meeting processes/procedures, timely collection, submission, and analysis of screening data)
- Establish meeting times and agendas (minimum of 4 meetings per year: beginning, mid, and end of year, plus one goal-setting meeting for following academic year)
- Analyze building-wide data from screening measures and/or state assessments for the purpose of evaluating and making decisions about: a) Tier 1 curriculum and instruction, b) Tiers 2 and 3 intervention programs and instruction, c) assessment measures and processes, d) professional development needs, e) RTI implementation, and f) reporting to stakeholders (i.e. community and district administration)
- Identify and address challenges to RTI implementation in the building

This team will consist of the building principal and/or or one assistant principal, at least one literacy and one math specialist (if possible), up to one special educator per grade level, a school psychologist/counselor, and up to three classroom teachers from varying grade levels/content areas.

Roles of School Staff in Implementation of RTI

Every classroom teacher and specialist (of literacy, math, and behavior) within each building is expected to collaborate for the effective implementation of the New Paltz CSD Three-Tiered RTI Model.

The primary responsibilities of classroom teachers include, but are not limited to:

- Developing and delivering effective Tier 1 & Tier 2 instruction that aligns with New York State Next Generation Standards and district curriculum expectations
- Administering specified screening assessments and submitting data to databases and/or designated personnel in a timely manner as indicated in building assessment frameworks
- Routinely analyzing data from assessments (screening, diagnostic, progress monitoring, and formative) for the purpose of identifying student needs and providing and/or advocating for appropriate instruction to meet those needs.
- Participating in the communication of student assessment results, student needs, and progress to parents/caregivers

The primary responsibilities of specialists include, but are not limited to:

- Developing and delivering effective Tier 2 and Tier 3 instruction that aligns with identified student needs
- Administering diagnostic and progress monitoring assessments and reporting and explaining data to classroom teachers in a timely manner
- Routinely analyzing data from assessments (screening, diagnostic, progress monitoring, and formative) for the purpose of (re)identifying student needs and providing and/or advocating for appropriate instruction to meet those needs.
- Participating in the communication of student assessment results, student needs, and progress to parents/caregivers

The primary responsibilities of building principals include, but are not limited to:

- ensuring that all facets of the RTI handbook are implemented with fidelity
- collaborating with IST team members and leading building RTI team meetings
- providing building level data and other necessary information to the cross-context RTI team to evaluate, revise, and update RTI processes as needed

Professional Development

Part 100.2(ii)(3) of 8 NYCRR requires each school district take “appropriate steps” to ensure that staff have the knowledge and skills necessary to implement a RTI program and that such program is implemented consistent with the specific structure and components of the RTI process selected by the school district. The New Paltz Central School District provides elementary school teachers with ongoing training in the teaching of reading, writing and mathematics. Such training is coordinated by the Deputy Superintendent and reflects the needs of the teachers in each building. In some cases, staff training may be provided by professional organizations. Teachers may also receive training by attending courses or by attending professional conferences and seminars.

SECTION 5: THE ROLE OF RTI IN SPECIAL EDUCATION ELIGIBILITY

Referral to the Committee on Special Education (CSE)

- Teachers and other school personnel may make a referral to the CSE if the student’s difficulties are **not** assumed to be the result of a specific learning disability (i.e. Speech/Language Impairment, Physical Disability, Emotional Behavioral etc.) (IDEA 34CFR § 300.307).
- Students previously identified by the district or by another district may be referred the CSE by school personnel for an evaluation.
- Students who have been provided Tier 2 and/or Tier 3 services and continue to need intervention due to insufficient growth toward grade level expectations may be referred to the CSE for an evaluation.
- RTI does not interfere with a parent’s right to request a CSE evaluation at any time.

Learning Disability Defined

- As defined in section 200.1(zz)(6) of the Regulations of the Commissioner of Education, learning disability means a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, which manifests itself in an imperfect ability to listen, think, speak, read, write, spell, or to do mathematical calculations, as determined in accordance with section 200.4(j) of the Regulations of the Commissioner of Education. The term includes such conditions as perceptual disabilities, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia. The term does not include learning problems that are primarily the result of visual, hearing, or motor disabilities, of an intellectual disability, of emotional disturbance, or of environmental, cultural, or economic disadvantage.

Learning Disability Determination

- Effective on and after July 1, 2012, a school district must have an RTI process in place, as it may no longer use the severe discrepancy between achievement and intellectual ability to determine that a student in kindergarten through grade four has a learning disability in the area of reading. In making a determination of eligibility for special education under the classification of LD, the CSE must determine that underachievement of the student is not due to lack of appropriate instruction in reading, mathematics, or limited English proficiency (RTI Guidance for NYS School District, Oct. 2010, p. 45)

SECTION 6: RESOURCES

The following resources were consulted in the creation of this handbook and will guide the implementation of RTI in the NPCSD.

Forms & Templates

IST Forms

Forms to support the effective and efficient implementation of RTI are provided on the following pages:

- K-2 Instructional Study Team Forms (Duzine)
- 3-5 Instructional Study Team Referral Form (Lenape)
- 6-8 Instructional Study Team Referral Form (NPCSD Middle School)
- 9-12 Instructional Study Team Referral Form (NPCSD High School)

Parent Notification Letter

As noted above (Section 1, New York State RTI Requirements), parents/caregivers must be notified when the student requires an intervention beyond that provided to all students in the general education classroom.

A template letter to support the effective and efficient communication of all required information is provided on the following pages.

Duzine Elementary School**Student Support Request To Instructional Support Team**

IST MISSION STATEMENT: The Instructional Support Team is a resource for teachers. Its mission is to collectively suggest ways teachers can help students improve academically and/or behaviorally through a multidisciplinary approach.

Indicate type of Instructional Support Team Referral:

- ___ a. Crisis Management Team Referral
 ___ b. Talented/Differentiation needs Referral
 ___ c. Regular IST Referral

Please fill in the information requested below where applicable.

Student:

DOB:

Teacher:

Grade:

Referred by:

Referral date:

Parent/Guardian:

Address:

Referred by:

Is this student an English Language Learner? ___ Yes ___ No

1. Reason for Referral (X = primary concern, ✓ = additional concern):

Domain	Concerns Within Domain	
Reading___	___ Phonemic Awareness ___ Decoding/Phonics ___ Word Recognition (i.e. High Frequency Words)	___ Comprehension ___ Vocabulary ___ Fluency
Writing___	___ Organization ___ Sentence composition	___ Mechanics ___ Spelling
Math___	___ Number Sense (und. value, connecting to life, estimating) ___ Problem solving strategies ___ Learning new concepts ___ Retaining skills, concepts, understanding	

Motor Skills/OT_____	— Fine Motor (handwriting, cutting, drawing) — Gross Motor (running, climbing, catching) — Sensory (heightened reactions to aspects of environment)	
Speech/Language_____	— Articulation/Pronunciation — Expressive Lang. (sharing ideas, syntax/grammar, forming appropriate responses, asking questions) — Receptive Lang. (understanding questions/directions, listening skills, “tuning in” to important information) — Pragmatic Lang. (body language, facial expressions, eye contact, appropriate volume, speed, turn taking)	
Social/Emotional/Behavioral_____	— Distractibility — Impulsivity — Social Skills	— Non-Compliance — Aggression — Insubordination
Psychosocial or Mental Health Concerns _____	— Depression — Grief — Anxiety — Peer Difficulties — School Avoidance — Self-Injurious behaviors	— Suicidal thoughts/ideations — Self-Esteem — Family/Home Issues — New student struggling with adjustment — Other_____
Executive Functioning_____	— Concentration — Task Initiation — Task Completion — Planning/Prioritization — Tenacity/Persistence	— Organization (does assignments/cannot find them, misplaces materials)
Health/Attendance_____	— # Absences _____ — # Tardies _____ — # Left Early _____	— Vision — Hearing — Other_____
Other_____	Please describe:	

Please briefly explain how concern(s) (**primary reason for referral**) is impacting the student’s success and/or progress:

2. Student's Current Levels (check in appropriate columns):

Domain	Below Average	Average	Above Average	Evidence*
Overall Reading/Fluency				F&P Instructional Level - F&P Independent Level - <i>Please bring most up to date ELP data.</i>
Writing				<i>Please bring sample(s) if writing is a concern.</i>
Handwriting				<i>Please bring sample(s) if handwriting is a concern.</i>
Spelling				
Math				
Executive Functioning				
Social/Emotional/ Behavior				

***IMPORTANT:** Please provide evidence to support the approximated levels indicated above, **prioritizing areas indicated as below average**. Evidence may include but is not limited to: Kindergarten assessment forms, ELP data, other screening measures (i.e. completed Fountas & Pinnell Running Record, Bridges Math Screener), progress monitoring and formative assessment results (i.e. informal running records, checklists, rubrics, rating scales, etc.), student work samples, dated anecdotal records, notes/comments from previous teacher, etc.

3. Strengths: (Please list student's strengths **beyond those reported above**. You may consider certain activities the student prefers to do/tends to excel in.)

4. Instructional/Behavioral Supports or Interventions Utilized:

In the tables below, indicate:

- Tier 1 instructional supports/interventions you have utilized to address the student's area(s) of concern noted above. **(Please refer to Section 3, Standard Instruction Protocols in NPCSD RTI Handbook.)**
- Any additional school and/or community resources the student has received to address the area(s) of concern noted above.

Tier 1 Instructional Supports/Interventions Implemented

Instructional Support or Intervention	Date Begun & Date Ended	Frequency and Duration	Beginning Performance (Scores, data, evidence, etc.)	Ending Performance (Scores, data, evidence, etc.)

Additional School/Community Resources

Support Resource	Date Begun & Date Ended	Frequency	Brief description of impact on area of concern.

5. Meeting Planning/Prep:

- a. An administrator, classroom teacher and special education teacher will be present. Please indicate on the following list any other support staff you would like present.

Remedial Reading / Literacy Specialist	Occupational Therapist	School Nurse
Speech Therapist	School Social Worker	Add'l Classroom Teacher
ENL Teacher	School Psychologist	Other

- b. Have you consulted with any of the above staff prior to this referral?

Yes_____ (Name:_____) No_____

- c. What are your needs and expectations for this meeting? How can we help you and/or what would you like to see happen as a result of this referral to the IST?

- d. Please be sure to contact the parent/guardian to discuss your concerns **prior to meeting with the Instructional Support Team.**

_____ I have contacted the parent/guardian about my concerns.

_____ I have informed the parent/guardian I will be seeking suggestions/support from colleagues on the Instructional Support Team.

_____ Teacher's Initials

_____ Date of Contact

NPCSD INSTRUCTIONAL STUDY TEAM *INITIAL* MEETING

Date:

Focus Student:

AFTER Meeting: Does this case need to be revisited?

☐ Yes (DATE:_____ Time:_____) ☐ No

Parent Notification Letter Needed?: ☐ Yes, Sent on _____(Date) ☐ No

Student to be referred to CSE? ☐ Yes, DATE _____ ☐ No

Attendees:

Note Taker:

1. Background Information:

Student's Strengths:

Areas of Concern and Present Levels of Performance:

2. Hypothesis Generation:

What *child characteristics* might be related to the concern?

What *curriculum issues* might be related to the concern?

What *instructional issues* might be related to the concern?

What *peer/social issues* might be related to the concern?

What *classroom environment* issues might be related to the concern?

What *home/community* issues might be related to the concern?

3. Hypothesis:

We think the problem may be occurring because...

4. SMART Goal (Specific. Measurable. Attainable. Relevant. Time-Specific):

5. Instructional Support(s)/Intervention(s) to address the problem (See Section 3, Standard Instruction Protocols, and Appendix of RTI Handbook for suggestions) :

Instructional Support or Intervention	Person(s) Responsible	Frequency (Session per week/cycle)	Duration (Length of Time per Session)

6. Progress Monitoring Plan:

Monitoring Tool/Method (i.e., subtest, checklist, running record, rating scale)	How Often (Times per week/cycle/month)	Person(s) Responsible for Progress Monitoring (Session per week/cycle)

7. Expected Outcome(s):

How will we determine the student's response to the intervention (effective/not effective) based on data?

NPCSD INSTRUCTIONAL STUDY TEAM REVISIT MEETING

Date:

Focus Student:

AFTER Meeting:

Does this case need to be revisited?

☐ Yes (DATE: _____ Time: _____) ☐ No

Parent Notification Letter Needed?: ☐ Yes, Sent on _____ (Date) ☐ No

Student to be referred to CSE? ☐ Yes, DATE _____ ☐ No

Attendees:

Note Taker:

-
- 1. Has the previously identified problem changed since the last meeting?** ☐ Yes ☐ No
 - 2. Were the intervention and progress monitoring plans carried out as written?** ☐ Yes ☐ No

If no, explanation...

- 3. Are there any new areas of concern?** ☐ Yes ☐ No

If yes, describe...

- 4. According to the progress monitoring data and documentation, has the previous intervention plan been effective?** ☐ Yes ☐ No

If yes, continue with current intervention and progress monitoring plans.

If no or if new area of concern, revise the goal, intervention, and/or progress monitoring plans and reconvene.

- 5. REVISED SMART Goal (Specific. Measurable. Attainable. Relevant. Time-Specific) if applicable:**

- 6. REVISED Instructional Support(s)/Intervention(s) to address the problem (See Section 3, Standard Instruction Protocols, and Appendix of RTI Handbook for suggestions) :**

Instructional Support or Intervention	Person(s) Responsible	Frequency (Session per week/cycle)	Duration (Length of Time per Session)

7. REVISED Progress Monitoring Plan:

Monitoring Tool/Method (i.e., subtest, checklist, running record, rating scale)	How Often (Times per week/cycle/month)	Person(s) Responsible for Progress Monitoring (Session per week/cycle)

8. Expected Outcome(s):

How will we determine the student's response to the revised intervention (effective/not effective) based on data?

Lenape Elementary School**Student Support Request To Instructional Support Team**

IST MISSION STATEMENT: The Instructional Support Team is a resource for teachers. Its mission is to collectively suggest ways teachers can help students improve academically and/or behaviorally through a multidisciplinary approach.

Indicate type of Instructional Support Team Referral:

- ___ a. Crisis Management Team Referral
 ___ b. Talented/Differentiation needs Referral
 ___ c. Regular IST Referral

Please fill in the information requested below where applicable.

Student:

DOB:

Teacher:

Grade:

Referred by:

Referral date:

Parent/Guardian:

Address:

Referred by:

Is this student an English Language Learner? ___ Yes ___ No

1. Reason for Referral (X = primary concern, ✓ = additional concern):

Domain	Concerns Within Domain	
Reading___	___ Phonemic Awareness ___ Decoding/Phonics ___ Word Recognition (i.e. High Frequency Words)	___ Comprehension ___ Vocabulary ___ Fluency
Writing___	___ Organization ___ Sentence composition	___ Mechanics ___ Spelling
Math___	___ Number Sense (und. value, connecting to life, estimating) ___ Problem solving strategies ___ Learning new concepts ___ Retaining skills, concepts, understanding	

Motor Skills/OT_____	— Fine Motor (handwriting, cutting, drawing) — Gross Motor (running, climbing, catching) — Sensory (heightened reactions to aspects of environment)	
Speech/Language_____	— Articulation/Pronunciation — Expressive Lang. (sharing ideas, syntax/grammar, forming appropriate responses, asking questions) — Receptive Lang. (understanding questions/directions, listening skills, “tuning in” to important information) — Pragmatic Lang. (body language, facial expressions, eye contact, appropriate volume, speed, turn taking)	
Social/Emotional/Behavioral_____	— Distractibility — Impulsivity — Social Skills	— Non-Compliance — Aggression — Insubordination
Psychosocial or Mental Health Concerns _____	— Depression — Grief — Anxiety — Peer Difficulties — School Avoidance — Self-Injurious behaviors	— Suicidal thoughts/ideations — Self-Esteem — Family/Home Issues — New student struggling with adjustment — Other_____
Executive Functioning_____	— Concentration — Task Initiation — Task Completion — Planning/Prioritization — Tenacity/Persistence	— Organization (does assignments/cannot find them, misplaces materials)
Health/Attendance_____	— # Absences _____ — # Tardies _____ — # Left Early _____	— Vision — Hearing — Other_____
Other_____	Please describe:

Parent Notification Letter Template

Please copy and paste the following onto your school's letterhead containing applicable contact information. Alternatively, schools may develop their own notification letter containing the required information stated in Section 1 (Introduction), I (New York State RTI Requirements), F (Written Notification to Parents) of the NPCSD RTI Handbook.

Date:

Dear Parent and/or Guardian of ____,

This letter is to notify you that your child will be receiving general education intervention services to support their success and continued development at school. Based on current screening assessment results and additional input from your child's teacher(s), your child will be participating in *(name of service, i.e. Academic Intervention Services, Reading Recovery,...)* where they will be provided ____ *(strategies for increasing student's rate of learning)* ____ . Approximately ____ times per ____ your child will complete progress monitoring assessments such as *_(nature of or type of assessments)_* ____ to gauge your child's growth. Should you have any questions about the services provided for your child, please contact ____.

Finally, as per New York State educational law, should you desire, you may request an evaluation for special education programs or services at any time.

Thank you for your collaboration in your child's education.

Sincerely,
